SHARPS GUIDELINES

The State of Wisconsin Department of Natural Resources has rules that pertain to individuals who use syringes, lancets or other sharps in their homes.

The rules are meant to protect your family, garbage haulers, neighborhood children and others who may come into contact with your garbage.

- Sharps may NOT be placed with your regular garbage or recycling pickup.
- Do NOT place sharps in coffee cans, plastic milk jugs, cardboard boxes, glass, or bleach bottles.
- Sharps must be placed in an unbreakable and puncture-proof container and taken to a sharps collection station.

Sharps collection stations have specific requirements about how sharps are accepted for disposal. Contact the location you plan to use for further information.

Ask your physician or pharmacist if they provide sharps containers or participate in a sharps collection program.

Following is a listing of some of the sharps collection stations in the Milwaukee area.

Call the location you select to verify that the information is current. Information is subject to change without notice. There may be additional locations which are not listed.
