**\$102.92** EACH BILLING  
QUARTER (91 DAYS)\*

## TEST YOUR TOILETS FOR LEAKS

- Put a few drops of food coloring or one of the attached leak detection tablets into the tank of your toilet. **Wait 15 minutes without flushing.**
- If colored water appears in the bowl within **15 minutes**, you have a leak.
- **Make sure** to flush the colored water as soon as the test is done. Food coloring can stain.

\* Water and sewer charges may differ from these 2013 rates and among various communities.

# UP TO 14% OF THE WATER WE PAY FOR AT HOME LEAKS DOWN THE DRAIN.<sup>EPA</sup>

## SAVE WATER, MONEY & ENERGY

Replace leaky toilets\*\*, faucets, showerheads, and water-use appliances with high efficiency models.

Most leaks are easy to repair with parts from a hardware store. Or, call a plumber for help.

\*\* A 1.28-gallon toilet can save up to 16,500 gallons of water a year over older, less efficient models found in more than 50% of U.S. homes.
