MEDIA ALERT

City Residents Can Use Online Report Form for Backups

Volume of Basement Calls Prompt Online Option

Ald. Joe Davis, Sr. and **Ald. Michael J. Murphy** this afternoon activated an online form for property owners and tenants to use to report basement backups connected to the overnight torrential rainfall in Milwaukee. Several of their Common Council colleagues are following suit, and have also asked that the form be posted on their web pages.

The direct link to the online form is www.milwaukee.gov/backups.

“The online form will allow residents to submit their information when it’s convenient for them, and it allows us to track and, where appropriate, respond to requests for services and information,” Alderman Davis said.
