## MEDIA ADVISORY

### Public Information Meeting Regarding State DOT Project for Hwy. 145 Bridges

The state Department of Transportation will host a **public open house meeting** on Thursday, March 17 to provide details regarding the planned rehabilitation of six freeway bridges on WIS 145 (Fond du Lac Freeway). The meeting will be from 5 p.m. to 7 p.m. at the James O. Wright Center, located in the Goodwill facility at 6055 N. 91<sup>st</sup> St., in Milwaukee.

The project is scheduled for construction in 2012, and will take five to six months to complete. The affected areas will be the six freeway bridges that span the Little Menomonee River, and West Mill Road and N. 91<sup>st</sup> St., in both directions. The rehabilitation will include the replacement of the concrete bridge decks on the twin bridges in the affected area, as well as the reconstruction of a short length of the freeway approaches. Traffic will be maintained in each direction along WIS145 with half of the bridge constructed at a time.

If you would like additional information and you are unable to attend, please contact **Mohammad Hossain**, WisDOT Project Manager at (262) 548-8783 or **Nick Skiffington**, Project Engineer at (414) 259-1500.
