Qualifications by Vehicle Class

There are 5 classes of public passenger vehicles. See the table on the supplemental application for a summary of vehicle classes and qualifications. Depending upon the class(es) of vehicles which you wish to hold a license to operate, the following testing/training is required:

PPV Driver Test (Required: Class "T")

New taxicab license applicants must successfully pass a PPV Driver Test administered by the City Clerk License Division. The \$10 test fee must be paid prior to taking the test.

The computerized test must be taken at the License Division office. One person may take the test at any one time. The test will be taken on a first-come first-serve basis. Appointments will not be taken. It will be administered between 8:15 a.m. and 2:30 p.m. You will have 60 minutes to complete the test. The test may be taken once per day per person.

Defensive Driving Course (Required: All Classes Except "P")

Drivers of motorized vehicles must successfully complete a Defensive Driving Course administered by the Milwaukee Area Technical College (MATC); however, certain employers are authorized to administer the driving course in-house to prospective employees. Payment of the course fee is made to MATC. Contact the MATC Traffic Safety Office, Monday thru Friday 7:30am-3:45pm, (414) 297-6235, to register for course DRIVED 417.

Passenger Assistance Techniques Training (Required: Class "H" only)

Drivers of Handicap-Elderly Liveries are required to complete a Passenger Assistance Techniques Training program administered by one of the authorized trainers listed. Certificates of completion from these trainers only representing their respective company or companies as listed below will be accepted. (Anyone who would like to be added to this list must contact the Health Department at (414) 286-3521 for instructions.)

Changing Classifications

The fee to change classifications during the license period is \$25. There is no fee to change license classifications at the time of renewal.

Before a license with the updated license classification code can be issued, documentation must first be filed proving that the qualifications to operate the new vehicle class have been met.

Course Exemptions

The course and map test requirements are waived if:

- Applicant has successfully completed all required courses (including passing the map test, if applicable) within 3 years prior to the date of application for the classification being applied for or
- At any time within the 2 year period prior to the date of application the applicant held the same class public passenger vehicle driver license issued by the City of Milwaukee. (If a different classification is being applied for, additional courses may be needed.)

Issuance of License

Licenses may be issued upon completion of all application requirements and course requirements. If the Milwaukee Police Department objects to the issuance of the license based on its findings then the applicant will be scheduled for a hearing before the Public Works Committee. The Committee will make a recommendation to the Common Council on whether or not to grant the license.
