

**Redevelopment Authority of the City of Milwaukee**

---

**Resolution No.:** 10263  
**Adopted on:** December 16, 2010  
**Project:** N/A  
**Aldermanic District:** N/A

---

**Resolution authorizing an amendment to a contract between the Redevelopment Authority of the City of Milwaukee and Precision Consulting for the maintenance of various databases.**

Whereas, The Redevelopment Authority and the Department of City Development have over twenty (20) custom databases and applications that need to be maintained and serviced; and

Whereas, Precision Consulting is responsible for the creation of the databases and user interfaces that will be serviced, including the e-permits system, an environmental database, and project tracking database, which enables them to be uniquely qualified to offer their services to the Authority; and

Whereas, The Authority does not possess the capacity to maintain and periodically upgrade each of these systems in-house; and

Whereas, the management of the Authority has determined that contracting for system maintenance and service with Precision Consulting is the most efficient manner to receive this service; and

Whereas, Precision Consulting has been employed in the capacity of database creation and management for the Department of City Development, Neighborhood Improvement Development Corporation (NIDC), Board of Zoning Appeals and the Authority for eleven (11) years; and

Whereas Resolution No. 10080 Adopted on March 19, 2009 awarded a contract to Precision Consulting in an amount not to exceed \$75,000 for system maintenance and service; and

Whereas Resolution No. 10165 Adopted on December 15, 2009 amended the contract with Precision Consulting to extend the contract period through the 2010 fiscal year and in an amount not to exceed \$100,000 for continued database support; now, therefore be it

Resolved, That the proper officers of the Authority are authorized and directed to enter into an amended contract with Precision Consulting for the maintenance of the Authority's and Department of City Development's databases and custom applications.
