Project description

This district is located in the Fond du Lac and North neighborhood. The area in and around the district declined in the 1970's when hundreds of homes were razed for the proposed Park West freeway. Much of the district remains vacant and blighted even 30 years after the freeway clearance.

“Legacy Development Partners” (the developer) proposed to redevelop the area with up to 60 detached single-family homes and 24 townhouses. The district project plan funded public infrastructure, site acquisitions, remediation costs, and loans/grants for rehabilitating existing homes. Work on the public improvements began in 2007, and all work was completed by late 2010. Environmental remediation of land north of Garfield Avenue was completed November 2010.

However, difficulties in the finance and housing markets have delayed the overall development. As of December 31, 2014, five homes were sold. Due to the economic downturn and soft market for new housing, the developer is not currently planning additional models, nor is there active marketing for the development. Since only a limited number of lots were transferred to the developer as part of their Development Agreement with the City, as the housing market recovers, the City will actively market the remaining building sites.

In 2013, District #56 (Erie/Jefferson Riverwalk) was amended to contribute to the district and help recover a portion of its unamortized costs within the next three years.

District incremental values are as follows:

Year	Incremental Value
