# MAYOR'S URBAN DESIGN AWARDS

## *General Mitchell International Airport Concourse Renovations Projects*

5300 S Howell Avenue

Owner: General Mitchell International Airport  
Designers: Engberg Anderson (Concourse C)  
Plunkett Raysich (Concourse D)

Concourse D was opened up to reveal a second level. Huge windows now let in natural light and a view of how an airport operates. And friendly, primary colored sculptural elements add a touch of whimsy.

The floor of Concourse C is marked with large mosaic medallions featuring Milwaukee churches, industries and landmarks. Large expanses of glass, clerestory windows and unique light fixtures flood the area with light.
