AWARDS

1918 N 2nd Street

Brewers Hill Historic District
 1918 N 2nd Street

This newly constructed carriage house was built behind a venerable Cream City brick Italianate style house in the heart of the Brewers Hill Historic District. Constructed to accommodate four cars, the owners Tamara and Mat Kroupa used a design from the Preservation Portfolio and followed plans carefully to make sure the proportions and details were authentic to the turn of the 20th century. The Historic Preservation Commission thought the project was a fine addition to the neighborhood and added value to the entire historic district.
