

12th Annual
MAYOR'S
 DESIGN
AWARDS

Manpower World HQ

100 Manpower Way

Designer: Eppstein Uhen

Manpower's respect for the environment guided the development of their building on the Milwaukee River. The energy-efficient building upholds the company's tradition of responsibility towards its community. In April 2009, the construction was awarded the accolade of Gold Status under the LEED (Leadership in Energy and Environmental Design) certification system – the first new building in Milwaukee to earn that distinction.
