Street Closures Announced for Inaugural Brewers Mini-Marathon

Event to be held Saturday, September 22, 2012 beginning at 6:30 a.m.

The Department of Public Works (DPW) announces several “rolling” street closures on the City’s west and near south sides this Saturday, September 22 in support of the Brewers Mini-Marathon. A “rolling” closure means that a street will be barricaded approximately 15 minutes prior to the arrival of race participants. When all runners have safely completed a portion of the route, that affected street will be re-opened to vehicular traffic.

The mini-marathon route and street closures are as follows:

Start – Runners exit Miller Park via Frederick Miller Dr. and proceed east on Canal St. Canal St. to the Harley-Davidson Museum grounds at 6th St.
North on 6th St. over the viaduct to Michigan St.
West on Michigan to Tory Hill to Clybourn St. to 27th St.
South on 27th St. to S. Layton Boulevard to National Ave.
West on National Ave. to 35th St.
North on 35th St. to State St.
West on State St. to Hawley Rd.
South on Hawley Rd. to Wells St.
East on Wells St. to 44th St.
South on 44th St. and Selig Dr. onto the Miller Park grounds – End

A map of the route accompanies this release.

Because most distance runs/walks/races typically do not occur in these Milwaukee neighborhoods, DPW shares this information to alert west and south side residents to these street closures.
