**Dates for field-proctored exam will be scheduled separately.**

The Building Performance Institute (BPI) Building Analyst certification provides homeowners with the assurance that the professionals they have chosen have the knowledge and skills necessary to effectively assess and verify whole house building performance. Through a combination of classroom and hands-on, in-field activities, participants will build their working knowledge of applied building science and diagnostic testing required for Building Analyst certification and necessary to provide comprehensive, valued added building performance solutions for customers. As an initial preparation for additional certification, an overview of BPI's Envelope Professional standard will be discussed to further participant knowledge of specifications and scope of work development.

The registration deadline is **Monday, September 17**. Registrations can be either sent via fax to (608) 310-8090 or via email to [beckyj@weccusa.org](mailto:beckyj@weccusa.org). If you have any further questions regarding the training, feel free to contact Becky at 608-249-9322 ext. 285. Have a great day!
