

Statement of Ald. Ashanti Hamilton
March 29, 2006

First I would like to say that today we had representatives from the Milwaukee Police Association, the Henning family, other elected officials and members of community organizations present at the Henning home, and I want to say in a unifying voice that all of us – including myself – support the efforts of our police officers to bring Purvis and Quadrevion home.

I would like to thank the community and the police officers for working together in this investigation, and I would like to encourage that we remain focused on the search for these two young boys.
