How can I determine how much total life insurance coverage is available to me?

Your election of the voluntary coverage must remain in effect until the next open enrollment period. During each annual open enrollment period, you will have an opportunity to change your voluntary life insurance coverage option. Any election of coverage remains in effect until you change or cancel it.

ONE TIME ONLY – 2017 Open Enrollment members may enroll in any percentage option of voluntary life insurance without evidence of insurability.

Is there a cost associated with voluntary life insurance coverage?

25-29	\$0.048
30-34	\$0.064

Yes, you may be eligible to convert your basic, voluntary and family life insurance policy into an individual policy, with the City's life insurance carrier, within 31 days of separation.

When I retire, can I maintain all of my life insurance?

No, you may only maintain your **voluntary** coverage by making the full premium payment yourself until your 65th birthday. At retirement upon reaching age 65 you will have a \$10,000 City paid policy. You **must** continue to carry at least 50% of your salary in voluntary coverage up to age 65 in order to have the City paid \$10,000 life insurance policy for retirees. If you wish to continue your voluntary coverage as a retiree after age 65 you may do so by paying the age-banded rates. These payments will be deducted from your monthly pension benefit check. For all active employees, the \$10,000 City paid life insurance does not apply until retirement.

As an active employee what happens to my insurance coverage after age 65?

Active employees, regardless of age, will have the \$50,000 City paid basic life insurance and may continue to carry voluntary life insurance at the age-banded rates. If you do not continue to carry voluntary coverage as an active employee over age 65 you will not be eligible for the City paid \$10,000 policy at retirement.

If I am laid off or take an approved leave of absence, does my voluntary life insurance coverage remain in effect?

Any employee on an approved leave of absence or who is temporarily laid off is considered an active employee of the City. Therefore, your basic insurance plus the voluntary life insurance coverage will remain in effect for 12 months provided you make the necessary cash premium payments when due. (**Important** - Your GLI will lapse if you do not pay the premiums on the due date.)

If I don't pay the cash premiums when due, while in a laid-off status or on an approved leave of absence, must I wait for the next open enrollment period after I return to work to reapply for voluntary life insurance coverage?

No, once you return to work you will automatically be re-enrolled in whatever coverage you had before you went off the payroll.

What if I'm on a military leave, does my life insurance coverage remain in effect?

Yes, members on a military leave of absence will have both their \$50,000 City paid basic life insurance and any voluntary life insurance paid for by the City until the member returns to work.

If I become eligible for the Disability Waiver Benefit (Waiver of Premium Benefit) under the group life insurance contract, will my voluntary life insurance premiums be waived?

Yes, if you meet the requirements of the Disability Waiver of Premium Benefit and your waiver of premium claim is approved by the insurance company, your voluntary life insurance premium will be paid for by the insurance carrier.

Is this a Term or Whole life policy?

Voluntary life insurance is a “Term” policy, and as such, has no dividends or cash value to you. It will pay out only to your beneficiary (ies) in the event of your death.

Who will receive the proceeds from this policy when I die?

You may name any person, organization, charity or legal entity as a beneficiary (ies) with the following two exceptions:

- 1.) Your Employer

VOLUNTARY LIFE INSURANCE CALCULATION

1. To calculate the amount of voluntary coverage that you would like to carry, take your annual base salary and multiply it by the selected insurance percentage option and then round up to the nearest thousand.
2. To calculate the monthly cost of voluntary life insurance, divide the amount of voluntary coverage that you would like to carry by 1,000 and multiply it by the rate per \$1,000 based on your age.

Example Calculation:

Employee age **23** with an annual base salary of **\$38,450.00** selecting **50%** of voluntary life insurance.

1. $\$38,450$ (salary) x 50% (voluntary life percentage option) = $\$19,255$ round coverage up to $\$20,000^*$
2. $\$20,000$ (coverage) \div 1,000 (rate per \$1,000) = 20 x $\$.04^{**}$ (age 23) = $\$.80$ per month

* Coverage cannot exceed \$300,000.
