Environmental Review Project List for Award ID B-09-LN-WI-0036

OMB CONTROL NUMBER: 2506-0187
EXPIRATION DATE: 04/30/2011

Under each Award (Grant), a recipient will add at least one environmental review project for reporting purposes although multiple projects can be added to each Award.

NOTE: An environmental review project is defined as the subject of a single specific Environmental Review.

The Environmental Review Project List below contains Environmental Review Projects for the Award you selected. At least one environmental review project needs to be added to this Award for NEPA reporting purposes. Please start by adding a new Environmental Review Project using the "Add New Project" button or edit an existing Environmental Review Project by using the "Edit Project" button. To delete an existing environmental review project, please use the "Delete Project" button below. Deleting the Environmental Review Project will remove submitted Environmental Review Projects from HUD NEPA reporting.

Note: All ARRA funded activities must be included in an environmental review, even if the review results in a determination that the activity/project is exempt.

An environmental review can be in two different stages:

- **Completed Review** » the review has been submitted, the grantee has received HUD Form 7015.16, and funds have been released. For RAMPS reporting purposes, when a Tier 1 review has been completed the environmental review is complete even if site-specific issues such as historic preservation or site cleanup have yet to be resolved.
- **Project in Progress** » a partially completed environmental review project form that has yet to be completed and has *not* been submitted to HUD for NEPA reporting. In this case the environmental review is pending and should be marked so.

Legend

- Add New Project
- Edit Project
- Delete Project
- Long Pending Project
