Deputy Comptroller

September 26, 2012

Honorable Tom Barrett
The Members of the Common Council
City of Milwaukee
Milwaukee, WI 53202

Dear Mayor and Council Members:

The Single Audit Report for the City of Milwaukee, Wisconsin (the City) for the year ended December 31, 2011 is submitted in accordance with the amended Single Audit Act of 1996 and State Single Audit Guidelines. The Single Audit provides for an organization-wide audit of Federal and State grant programs rather than a grant-by-grant audit. The audit was conducted by KPMG LLP, an independent firm of certified public accountants. This report will be submitted to the Federal Audit Clearinghouse and the Department of Revenue of the State of Wisconsin.

This report was prepared by the Office of the Comptroller. The management of the City is responsible for establishing and maintaining an internal control structure designed to reasonably ensure both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures. The Schedules of Expenditures of Federal, State and Other Awards are supplementary data to the Comprehensive Annual Financial Report of the City of Milwaukee, Wisconsin for the year ended December 31, 2011. We believe the grant financial activity presented is accurate in all material aspects and fairly represents the results of operation of the City's grants. All disclosures necessary to enable the reader to understand the City's grant financial activity have also been included.

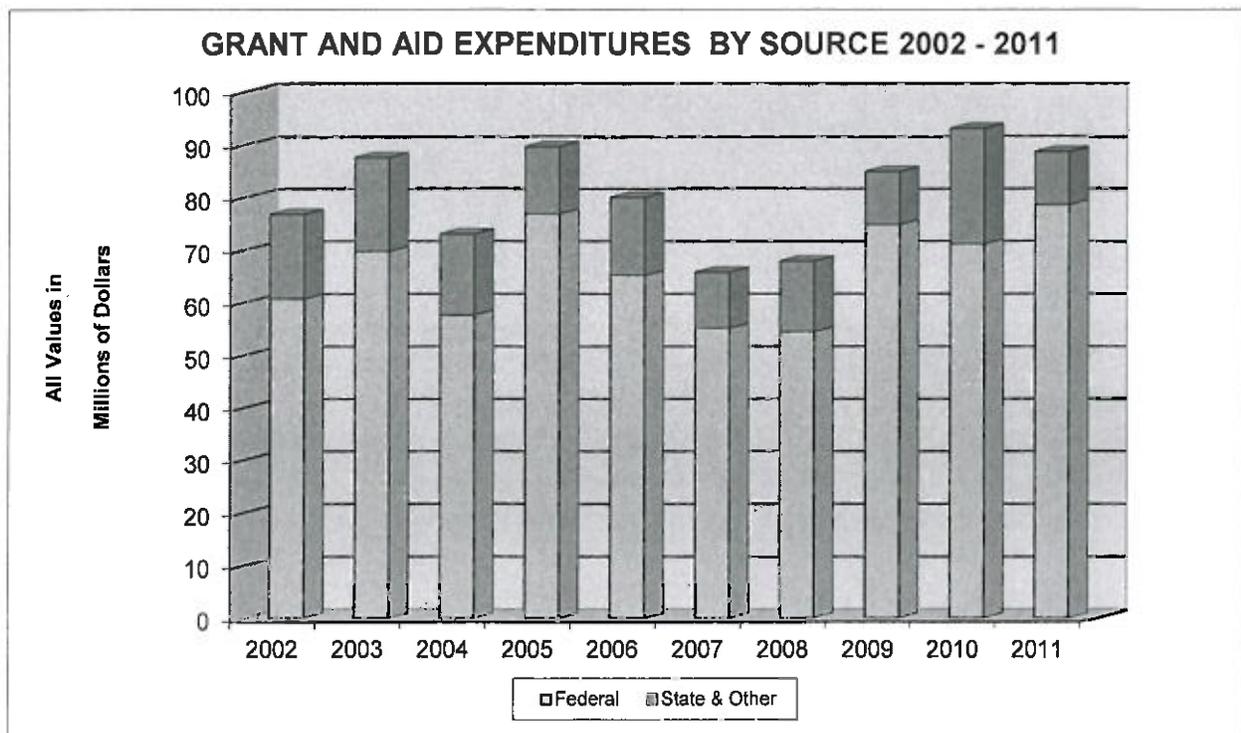

RECIPIENT ORGANIZATION

Grant programs reflected in the City of Milwaukee's Single Audit Act Supplemental Financial Report are operated by city departments under the fiscal administration of the City Comptroller. These grant programs have been approved by the Common Council in accordance with City of Milwaukee Code of Ordinances 304-81 adopted by Common Council Resolution File Number 061326, effective March 16, 2007. This ordinance revised an earlier Common Council resolution and provides current procedural guidelines for budgeting and accounting of grant programs.

Grants made directly to the Housing Authority of the City of Milwaukee, the Redevelopment Authority of the City of Milwaukee, the Milwaukee Economic Development Corporation, the Neighborhood Improvement Development Corporation and the Century City Redevelopment Corporation are not included in this report. The Housing Authority and any other applicable component units which receive grants and meet the requirements of the 1997 revised Circular A-133 publish separate financial and single audit reports.

2011 GRANT ACTIVITIES

The City of Milwaukee expended \$88.7 million of grant and aid dollars in 2011. This represents a decrease of \$4.4 million from 2010. Federal assistance increased by \$7.5 million. The increase was primarily the result of activities of the Neighborhood Stabilization Program-2, which was funded through the American Recovery and Reinvestment Act. The program has a strict statutory expenditure deadline requirement which stipulates that fifty percent of the grant allocation is to be expended within two years of the award. The two year expenditure deadline was due February 11, 2012. State and Other assistance dropped significantly by \$11.9 million. The decrease was mainly due to the winding down of the Clean Water Revolving Funds Program with \$9.6 million drop in expenditures and a net reduction of \$2.3 million in expenditures from all other grants in this category.

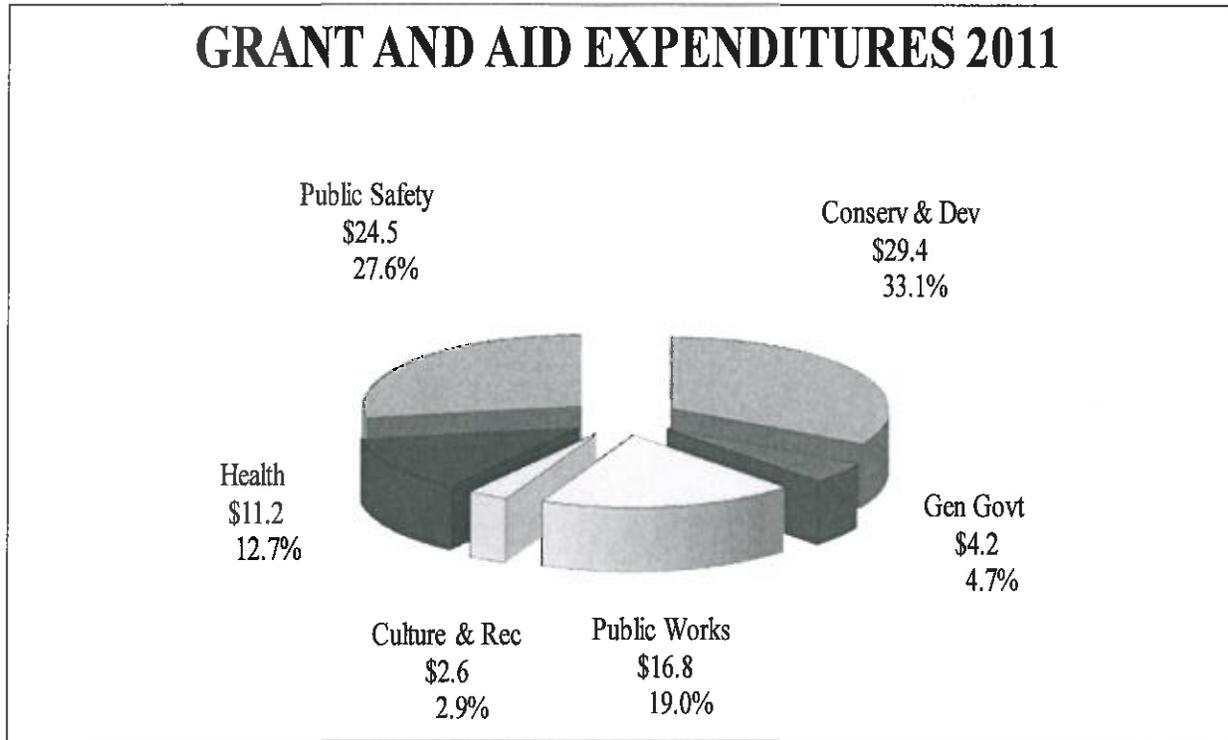

The chart above presents the City of Milwaukee grant and aid expenditures by source over the past 10 years. The chart reflects a slight drop in expenditures for 2011 following three years of upward trend from 2008 through 2010. The chart also reflects the highest federal expenditures for 2011 compared to all the other years presented due to the funding opportunities from the American Recovery and Reinvestment Act.

GRANT EXPENDITURES

2002-2011

<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>	<u>2007</u>	<u>2008</u>	<u>2009</u>	<u>2010</u>	<u>2011</u>
\$76.8	\$87.6	\$73.0	\$89.7	\$80.0	\$65.7	\$67.8	\$84.9	\$93.1	\$88.7

The graph above indicates the areas in which the City expended 2011 grant funds. The largest category is that of Conservation and Development, which includes Community Development Block Grant, Home Investment Partnerships Program and Neighborhood Stabilization Program dollars. Expenditures in this category are primarily related to acquisition and rehabilitation of City's housing stock; and addressing foreclosure issues in the city.

INDEPENDENT AUDIT

The independent auditors' reports required by OMB Circular A-133 have been included in this report. The content of the independent auditors' reports changed consistent with changes in the Single Audit Act and the implementing federal circular.

Sincerely,

Martin Matson
Comptroller

CITY OF MILWAUKEE

Notes to Schedule of Expenditures
of Federal, State, and Other Awards

Year ended December 31, 2011

(1) Reporting Entity

The funds and entities presented in the City of Milwaukee's Single Audit Act Supplemental Financial Report are controlled by or are dependent on the City of Milwaukee (the City). The basis for defining the reporting entity of the City is discussed in the summary of significant accounting policies note in the City's Comprehensive Annual Financial Report. The Catalog of Federal Domestic Assistance (CFDA) Number or State Appropriation Number has been provided on the accompanying schedule of expenditures of federal, state, and other awards to the extent it is available.

Financial data for the Milwaukee Public School System, the Milwaukee Metropolitan Sewerage District, Milwaukee County government, Wisconsin Center District and the Milwaukee Area Technical College have not been included in this report. These governmental entities are not considered component units of the City, the primary government, because these entities do not meet the criteria established by Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*.

Grants made directly to the City's component units, the Housing Authority of the City of Milwaukee (HACM), the Redevelopment Authority of the City of Milwaukee (RACM), Milwaukee Economic Development Corporation (MEDC), the Neighborhood Improvement Development Corporation (NIDC), and the Century City Redevelopment Corporation are not included in this report. The Housing Authority, the Redevelopment Authority, the Milwaukee Economic Development Corporation, the Neighborhood Improvement Development Corporation, and the Century City Redevelopment Corporation publish separate financial and single audit reports.

(2) Basis of Accounting

The City has a centralized accounting system for grant programs. The accounting records for grant programs are maintained on the modified accrual basis of accounting. Under this basis, revenues are recognized in the accounting period in which all eligibility requirements have been satisfied and the resources are available. Eligibility requirements include timing requirements which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements in which the City must provide local resources to be used for specified purpose, and expenditure requirements in which the resources are provided to the City on a reimbursement basis.

Budgetary control is maintained by a formal appropriation and encumbrance system. Encumbrances are made against appropriations prior to issuance of purchase requisitions. Purchase requisitions which exceed appropriation balances are not released until additional appropriations are made available. Expenditures are recorded when the services or materials are received.

Accounting and budgeting for grants is further controlled by Milwaukee Code of Ordinances Section 304-81. This ordinance provides that no grant programs can be put into operation (expenditures incurred) unless the program has been approved by the Common Council of the City of Milwaukee. It also provides other procedural guidelines for budgeting and accounting of grant programs.

CITY OF MILWAUKEE

Notes to Schedule of Expenditures
of Federal, State, and Other Awards

Year ended December 31, 2011

(3) Comprehensive Annual Financial Report

In the Comprehensive Annual Financial Report, City grant projects are accounted for in the Special Revenue Funds, Capital Projects Funds and the Port of Milwaukee Enterprise Fund. Details on the individual grant projects are not readily identifiable in the Comprehensive Annual Financial Report. However, allowable grantor expenditures as reported within the schedule of expenditures of federal, state, and other awards have been reconciled with the balances reported within the Comprehensive Annual Financial Report.

(4) Carryover Provisions and Program Income

Under Community Development Block Grant (CDBG) regulations, unspent allocations of the grant award can be carried over and reallocated in a subsequent grant year. As a result, the allowable grantor expenditures shown on the grant schedule represent more than one grant award. The grant schedule, therefore, contains both the 2011 and 2010 pass-through grantor's numbers and the total grant awards for the two years. In addition, the City received \$279,920 and \$458,334 in 2011 and 2010, respectively, of program income as defined under Title 24, Code of Federal Regulations, Subpart J, Section 570.500(a) for the CDBG. This program income has been reported as grantor revenue and added to the grant award amount.

(5) Related-Party Transactions

The City expended \$1,281,517 in 2011 of its CDBG funds for the RACM. The expenditures incurred by RACM related to purchase, demolition, relocation, and rehabilitation of housing structures in the City. The City entered into a cooperation agreement with RACM, which detailed responsibilities and allowable expenditure categories.

CITY OF MILWAUKEE

Notes to Schedule of Expenditures
of Federal, State, and Other Awards

Year ended December 31, 2011

(6) Major Programs

Major Federal Financial Assistance Programs are defined in the Single Audit Act of 1996 as those programs (1) considered to be high risk with allowable expenditures of the greater of \$300,000 or 3% of total Federal Financial Assistance Program expenditures of the City (type A programs). For 2011, the greater amount was \$2,016,228. (2) Programs over this threshold which are considered low risk may not be tested; however a high-risk program with allowable expenditures between 0.3% and 3% of total Federal Financial Assistance Program expenditures (type B programs) must be tested in its place. For 2011, the threshold for these programs was \$2,016,228 to \$201,220. Federal programs classified as major for the year ended December 31, 2011 were as follows:

Grant programs	CFDA number	2011 Grantor expenditures
CDBG – Entitlement Grants Cluster	14.218/14.253	\$ 21,004,151
Neighborhood Stabilization Program 2	14.256	10,355,273
Homelessness Prevention and Rapid Re-Housing	14.257	3,112,287
Lead Hazard Reduction Demonstration Grant Program	14.905	1,455,966
Public Safety Partnership and Community Policing Grants	16.710	3,969,769
Edward Byrne Memorial Justice Assistance Grant Program	16.738/16.804	1,332,272
Highway Planning and Construction Cluster	20.205	3,426,824
Conservation Research and Development	81.086	3,120,301
Energy Efficiency and Conservation Block Grant	81.128	2,234,304
Homeland Security Grant Program Cluster	97.067	2,204,671

State Financial Assistance Programs do not involve federal funding. Major State Financial Assistance Programs are defined as those programs (1) considered being high risk with allowable expenditures of at least \$100,000. (2) Programs over this threshold, which are considered low risk, may not be tested; however a high-risk program with allowable expenditures of at least \$25,000 must be tested in its place. State programs classified as major for the year ended December 31, 2011 were as follows:

Grant programs	State appropriation number	2011 Grantor expenditures
Interlibrary Loan/Regional Library Blind	255.XXX	872,088
Brownfield Site Assessment	370.687	133,612
Law Enforcement Community Policing Grant	455.214	247,500
Uniform Beat Patrol Officers	505.603	140,793

CITY OF MILWAUKEE

Notes to Schedule of Expenditures of Federal, State, and Other Awards

Year ended December 31, 2011

(7) Loan Programs

The City has utilized funds from a number of grant sources to provide loans to various businesses and individuals. These loans are primarily for the rehabilitation of commercial and residential properties. At December 31, 2011, the aggregate outstanding balance of these loans was \$32,578,216. This amount consisted of Community Development Block Grant – \$4,377,384 (CFDA #14.218), Neighborhood Stabilization Program – \$3,224,147 (CFDA #14.218), HOME Investment Partnerships Program – \$20,051,685 (CFDA #14.239), Neighborhood Stabilization Program 2 – \$4,148,381 (CFDA #14.256), Neighborhood Stabilization Program – WI – \$600,188 (CFDA #14.228) and Neighborhood Stabilization Program 3 – \$176,431 (CFDA #14.218).

In 2009, the City became eligible to receive \$33,655,934 of financial assistance in the form of a loan from the State of Wisconsin, Department of Natural Resources, Clean Water Fund (CWF) Program with the City's Sewer Revenue Bonds, Series 2009 S7. A total of \$16,315,108 of the principal loan amount was to be forgiven with American Recovery and Reinvestment Act (ARRA) funds. As of December 31, 2011, the City received a total of \$32,000,038 of the loan proceeds of which \$14,488,848 principal was forgiven in 2009 and \$1,826,260 was forgiven in 2010. The remaining balance of the financial assistance will be loaned to the City as eligible expenditures are incurred.

(8) State Programs Excluded from Testing

Various programs funded by the State of Wisconsin that are included in the schedule of expenditures of federal, state, and other awards are not required to be tested under State of Wisconsin Single Audit guidelines. These programs are as follows:

- Local Roads Improvement Projects (State ID #395.206)
- Advance Training Grants (State ID #455.231)

INDEPENDENT AUDITORS' REPORTS

KPMG LLP
Suite 1500
777 East Wisconsin Avenue
Milwaukee, WI 53202-5337

**Independent Auditors' Report on Internal Control over Financial Reporting
and on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards***

The Honorable Members
of the Common Council
of the City of Milwaukee:

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Milwaukee, Wisconsin (the City) as of and for the year ended December 31, 2011, which collectively comprise the City's basic financial statements, and have issued our report thereon dated July 30, 2012. Our report was modified to include a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Housing Authority of the City of Milwaukee, the Redevelopment Authority of the City of Milwaukee, the Milwaukee Economic Development Corporation, the Neighborhood Improvement Development Corporation, and the Century City Redevelopment Corporation, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

Management of the City of Milwaukee is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over financial reporting that we consider to be a significant deficiency and that is described in the accompanying schedule

of findings and questioned costs as finding 2011-1. A significant deficiency is a deficiency, or combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we have reported to management of the City in a separate letter dated July 30, 2012.

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the City's response, and accordingly, we express no opinion on it.

This report is intended solely for the information and use of the Common Council of the City of Milwaukee, City management and federal awarding agencies, pass-through entities, and the State of Wisconsin and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Federal and State Award Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

The Honorable Members
of the Common Council
of the City of Milwaukee:

Compliance

We have audited the City of Milwaukee's (a municipality incorporated under the laws of the State of Wisconsin) (the City) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the State of Wisconsin *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration, that could have a direct or material effect on each of the City's major federal and state programs for the year ended December 31, 2011. The City's major federal and state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal and state programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

The City's basic financial statements include the operations of the Housing Authority of the City, the Redevelopment Authority of the City, the Neighborhood Improvement Development Corporation, the Milwaukee Economic Development Corporation, and the Century City Redevelopment Corporation, component units of the City, however, they are not included in the schedule of expenditures of federal, state, and other awards during the year ended December 31, 2011. Our audit, described below, did not include the operations of the component units listed above because the component units engaged other auditors to perform an audit in accordance with OMB Circular A-133.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and the provisions of the State of Wisconsin *State Single Audit Guidelines*. Those standards, OMB Circular A-133, and the State of Wisconsin *State Single Audit Guidelines* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state award program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct or material effect on each of its major federal and state programs for the year ended December 31, 2011. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements, which are required to be reported in accordance with OMB

Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as findings 2011-2 and 2011-3.

Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal and state programs. In planning and performing our audit, we considered the City's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and the State of Wisconsin *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency as described in the accompanying schedule of findings and questioned costs as finding 2011-2. A significant deficiency in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Schedule of Expenditures of Federal and State Awards

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended December 31, 2011, and have issued our report thereon dated July 30, 2012 which contained unqualified opinions on those financial statements. Our report was modified to include a reference to other auditors. Our audit was conducted for the purpose of forming our opinions on the financial statements that collectively comprise the City's basic financial statements. Other auditors audited the financial statements of the Housing Authority of the City of Milwaukee, the Redevelopment Authority of the City of Milwaukee, the Milwaukee Economic Development Corporation, the Neighborhood Improvement Development Corporation, and the Century City Redevelopment Corporation, as described in our report on the City's financial statements. The accompanying schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by OMB Circular A-133 and the State of Wisconsin *State Single Audit Guidelines* and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the

underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal and state awards is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit the City's responses, and accordingly, we express no opinion on them.

This report is intended solely for the information and use of the Common Council of the City, City management, the State of Wisconsin, federal and state awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF MILWAUKEE
Schedule of Findings and Questioned Costs
Year ended December 31, 2011

(2) **Findings Related to the Basic Financial Statements Reported in Accordance with *Government Auditing Standards***

Finding 2011-1 – Accrued Expenditures

U.S. generally accepted accounting principles require expenditures to be accrued in the period incurred. Expenditures in the capital projects funds totaling approximately \$828,000 were incurred during the year ended December 31, 2010 but were incorrectly reported as expenditures in the City's financial statements during the year ended December 31, 2011, and expenditures totaling approximately \$146,000 were incurred but were not reported as expenditures during the year ended December 31, 2011.

Recommendation

We recommend the City establish procedures to ensure expenditures are properly evaluated and accrued in the year-end financial statements in accordance with U.S. generally accepted accounting principles.

Management's Response

We concur with the comment that there were expenditures not properly evaluated and accrued in the end of the year financial statements. The Comptroller's Office makes every effort to review and accrue expenditures processed through March 31 for possible accrual to statements prior to the preparation of the financial statements and final trial balances. The Comptroller's Office has a process in place that includes weekly queries of transactions through March 31 and communications with departments to notify us of additional items for accrual. Since the expenditures are decentralized in the departments, we will continue to work with departments to provide timelier processing of vouchers. For 2011, the Comptroller's Office continued to review additional queries through the month of April and revised completed financial statements accordingly for significant items. In addition, departments cooperated in this effort by notifying and providing additional material vouchers through June for our review and accrual if warranted.

CITY OF MILWAUKEE
 Schedule of Findings and Questioned Costs
 Year ended December 31, 2011

Requirement

According to 44 CFR 13.32 (4)(d)(2) and 28 CFR 66.32(4)(d)(2), a physical inventory of property must be taken and the results reconciled with the property records at least once every two years. The A-102 Common Rule requires nonfederal entities receiving federal awards establish and maintain internal control designed to reasonably ensure compliance with federal laws, regulations, and program compliance requirements. Effective internal controls should include procedures in place to ensure a physical inventory of property is taken at least once every two years and reconciled to the property records.

Condition

The City did not perform a physical inventory for all federally funded equipment at least once within the two year period ended December 31, 2011 for the Public Safety Partnership and Community Policing (COPS) Grant, the Edward Byrne Memorial Justice Assistance Grant (JAG) Program, and the Homeland Security Grant (Homeland) Program. The balance of equipment as of December 31, 2011 for each program follows:

Program	CFDA Number	Inventory balance December 31, 2011
COPS	16.710	\$ 590,958
JAG	16.738/16.804	767,451
Homeland	97.067	6,225,067

The City has never performed a physical inventory of equipment purchased with COPS grant funds and JAG grant funds. Equipment was first purchased with COPS grant funds and JAG grant funds during the year ended December 31, 2009. The City has performed partial physical inventories for equipment purchased with Homeland grant funds by grant year, however a full physical inventory has not been performed for all equipment purchased with Homeland grant funds within the last two years.

Cause

Management indicated the Fire and Police Department are responsible for performing the equipment inventory; however, due to staff turnover, the departments were not able to complete the inventory within the required timeframe.

Questioned Costs

None

Effect

Without performing the required physical inventory of property and equipment purchased with federal funds, equipment may not be adequately safeguarded and used in accordance with the federal program.

CITY OF MILWAUKEE

Schedule of Findings and Questioned Costs

Year ended December 31, 2011

Recommendation

We recommend the City implement procedures to ensure a complete physical inventory of property and equipment purchased with federal funds is performed at least once every two years in accordance with the federal requirements.

Management's Response

The Milwaukee Police Department (MPD) was not able to complete physical inventory of all property acquired with grant funds due to staffing constraint; only partial physical inventory was completed as grants expired. Following the audit, the MPD have staff in place to assist in coordination and tracking of inventory. Earlier this year, the method of conducting physical inventory was revised. Requests for physical inventory were sent out for 79% of active and inactive grants; and 72% have been completed. With the current process, it is expected that physical inventory of all property acquired with grant funds will be completed by the end of 2012. Afterward, physical inventory will be requested in November and December of each year. In 2012, the Milwaukee Fire Department began to implement a cross-training program that should minimize negative impacts on inventory controls due to staff turnover. In the past, 4 key persons conducted inventory, the controls are now expanded to include dedicated officers assigned to the 36 fire houses.

CITY OF MILWAUKEE
 Schedule of Findings and Questioned Costs
 Year ended December 31, 2011

Finding 2011-03 – Eligibility

Program Name: Lead Hazard Reduction Demonstration Grant Program

CFDA Number: 14.905

Award Numbers, Amounts and Expenditures

<u>CFDA Number</u>	<u>Award number</u>	<u>Award amount</u>	<u>2011 Expenditures</u>
14.905	WILHD0192-08	\$ 3,997,986	1,029,485
14.905	WILHD0220-10	4,500,000	426,481
	Total 14.905		<u>\$ 1,455,966</u>

Requirement

The Housing and Urban Development Notice of Funding Authority requires grantees to document the income eligibility of the renter and owner occupants of properties to be assisted with the lead hazard reduction grants, and allows the grantee to use three methods of income verification, which are:

- (1) third-party verification method (online or hard copy),
- (2) verbal third-party verification method (documented by the grantee), and
- (3) tenant/landlord declaration method (signed statement by tenant and/or landlord).

When using the tenant/landlord declaration method, the U.S. Department of Housing and Urban Development Policy Guidance Number 2009-01 (Policy 2009-01) requires the certification to state, “I certify under penalty of law that the information contained in this declaration is true, accurate and complete to the best of my knowledge. I understand that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.”

Condition

The City uses the tenant/landlord declaration method to determine income eligibility for tenant occupied rental units when third-party verification is not possible. During our audit, we noted the City did not use the certification required by Policy 2009-01. The City obtained a signed statement, which required the beneficiary to certify that the income reported was accurate.

CITY OF MILWAUKEE
Schedule of Findings and Questioned Costs
Year ended December 31, 2011

Cause

Management indicated they thought the signed statement included on the tenant/landlord declaration form was sufficient.

Questioned Costs

None

Effect

Without requiring the beneficiary to certify income using the stronger language required by Policy 2009-01, a beneficiary may not understand the implications of reporting false income information and could be more inclined to falsify the certification in an effort to receive the program funding.

Recommendation

We recommend the City implement procedures to obtain the income certification as required by Policy 2009-01 when determining eligibility using the tenant/landlord certification method.

Management's Response

The Milwaukee Health Department Home Environmental Health Program implemented an update to the Tenant Income Verification Certification previously obtained from renter occupants following the 2011 audit. The updated certification is designed to comply with HUD Policy Guidance Number 2009-01 and was put into use in August 2012. Due to outstanding commitments, the updated certification may not be consistently found in occupant's file for work done during the 2012 funding period. Full implementation of the updated certification is expected by January of 2013.
