2. PRIOR SERVICE CERTIFICATES. The board shall issue prior service certificates certifying to each member the length of service with which he is credited and which was rendered prior to January 1, 1938, or prior to any subsequent amendment to the act which made him eligible for membership. So long as membership continues, a prior service certificate shall be final and conclusive as to prior service credit except a member may request modification within one year of the date of issue. When membership ceases for any cause other than retirement, a prior service certificate shall become void and shall not be renewed upon any return to service as an employee except as provided in ss. 36-05-6-b-4, 6-c and d, and 36-07-3. (*Sub. 2 am. Ch. Ord. 332, File #67-355-a, July 25, 1967.*)

Such credit shall only be reflected for the purposes of establishing eligibility for and calculating the amount of the service retirement allowance but not otherwise. The service retirement allowance shall be computed on the basis of the annual regular base salary in effect for the member's position in the year immediately prior to the member's service retirement and the additional amount that would have been includable under s. 36-02-12 in the member's earnable compensation if the member had retired from active service on a service retirement allowance on the date of the member's service retirement. The cost thereof shall be reflected by the actuary in computing the employer's contribution to the fund. (*Par. a am. File #880374, June 7, 1988; eff. Aug. 22, 1988. Par a am. 4. IMPUTED SERVICE CREDIT.

a. A fireman or policeman in active service as of January 1, 2000, who participates in the combined fund and who has attained 20 years of creditable service in the retirement system as a fireman or policeman shall be allowed 1.5 years of additional imputed creditable service toward the computation of his or her service retirement allowance if he or she applies for retirement as a fireman. A fireman or policeman in active service as of January 1, 2000, who participates in the combined fund and

who applies for a service retirement allowance as a fireman without first having attained 20 years of creditable service as a fireman or policeman shall be allowed additional imputed creditable service under this sub. on a pro rata basis calculated as the product of 1.5 multiplied by a fraction, the numerator of which is the full years of the member's creditable service as a fireman or policeman (excluding imputed creditable service credited under sub. 1-c) to the date of retirement and the denominator of which is 20. A fireman or policeman in active service as of January 1, 2000 who participates in the combined fund who has attained 25 years of creditable service in the retirement system as a policeman or fireman or the minimum service retirement age under s. 36-05-1-b, shall be allowed 1.5 years of additional imputed creditable service toward the computation of his or her service retirement allowance if he or she applies for retirement as a policeman. The imputed service credited under this par. shall not be included in determining eligibility for a retirement allowance under s. 36-05-1-f or in calculating the maximum service retirement allowance under s. 36-05-1-e. This par. does not apply to a retirement allowance authorized by s. 36-05-6-b-2, 6-d-2, 6-b-3 or 6-c. The imputed service credit under this par. shall be included in the deceased member's allowance when calculating the spouse survivor allowance under s. 36-05-7-b-4-a.

A policeman in active service as of January 1, 2000 who participates in the combined fund shall be allowed 2 years of additional service credit toward the computation of his or her service retirement allowance if he or she applies for a service retirement allowance after having attained 25 years of creditable service in the retirement system as a policeman or fireman or the minimum service retirement age under s. 36-05-1-b. A policeman retired on a disability retirement allowance as of January 1, 2000 who participates in the combined fund shall be allowed 2 years of additional service credit toward the computation of his or her service retirement allowance upon conversion from a duty disability allowance to a service retirement allowance if he or she is an active member in good standing in the fireman or policeman's survivorship fund as of January 1, 2000. The imputed service credit under this par. shall not be included in determining the eligibility for a retirement allowance under s. 36-05-1-f or in

calculating the maximum service retirement allowance under s. 36-05-1-e. This par. shall not apply to a retirement allowance authorized by s. 36-05-6-b-2, 6-b-3, 6-c or 6-d-2.

Any member in active service may retire on or after reaching the minimum service retirement age, upon filing with the board a request for retirement and a retirement allowance on a form provided by the board for that purpose. The request shall be filed not less than 30 days nor more than 90 days prior to the effective date of retirement. A member whose allowance would be less than \$25 per month shall be paid a lump sum amount which is the actuarial equivalent of the allowance and the member shall not be eligible to receive any other benefits under this system. The board may adjust the minimum allowance under this paragraph, 1-a, sub. 6-b-2, sub. 6-b-3, sub. 6-d-2, and sub. 10-a-3, provided however that the minimum monthly allowance of \$25 may not be increased by more than the cost of living increase as measured by the increase in the Consumer Price Index-All Urban Consumers-CPI-U U.S. Cities Average as reported by the U.S. Department of Labor Bureau of Labor Statistic between January 1, 1973 and the effective date of the adjustment. A member whose allowance is less than the minimum allowance shall be paid a lump sum amount that is the actuarial equivalent of the allowance in lieu of receiving any other benefits under this system. In the event a policeman who has elected an option under sub. 7 dies between the date of his or her application and the effective date of his or her retirement, the policeman shall be treated as though he or she died immediately after his or her retirement became effective. *(Par. a am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972. Par. a am. File #950521, July 28, 1995; eff. Oct. 3, 1995, Par. a am. File #001665, April 10, 2001; eff. June 27, 2001. Par. a am. For a general city employee who enrolls as a member in the retirement system on or after January 1, 2014, the service retirement allowance shall equal 1.6% of the member's final average salary times the total number of years of all creditable and prior service credits at the percentage specified in this act and applied to the member's final average salary in the retirement system as defined in this act. The member shall be guaranteed that if the total benefit in the form of a monthly retirement allowance, either under a maximum allowance or under any optional plan elected by such member pursuant to sub. 7, does not equal the amount of the member's contributions as provided for in s. 36-08-7, together with interest to the date of retirement, then the balance of the member's contributions with interest shall be payable in a lump sum amount to a designated beneficiary or to an estate entitled thereto. The guarantee provided for shall be applicable also to a retirement which was in effect as of January 1, 1971, without adjustment, and shall also be applicable to all retirements which occur after January 1, 1971, and to retirements under subs. 1-e, f and g, 2, 3 and 6. The annual service retirement for the mayor shall equal 2.6% of the mayor's final average salary times the number of years of creditable service accrued for years of service prior to 1996, and 2% of the mayor's final average salary times the number of years of creditable service accrued for years of service on or after January 1, 1996. h. Escalator. h-1. Firemen who retire on a service retirement allowance under subs. 1-b or f or 3-c-3 between March 1, 1990 and December 31, 1992, policemen who retire on a service retirement allowance under subs. 1-b or f or 3-c-3 between January 1, 1990 and December 31, 1992, and firemen or policemen represented by the Milwaukee Police Association, with 25 years of creditable service as a fireman or policeman who separate from service between January 1, 1993 and December 31, 1994 and elect a deferred retirement under sub. 6-e, shall be eligible for a pension escalator in the amount of \$50 per month on the 4th annual anniversary of service retirement, an additional escalator of \$50 per month on the 7th annual anniversary after service retirement and an additional \$50 per month on the 10th annual anniversary after service retirement.

h-3. An escalator under subd. 1 included in a fireman's or policeman's service retirement allowance at the date of death shall be included for purposes of determining a spouse's survivor allowance upon death of such fireman or policeman under Options 2 and 3 and such spouse's survivor allowance under Option 2 shall be escalated in the amount of \$50 per month and under Option 3 in the amount of \$25 per month at such times as such fireman's or policeman's pension would have been escalated under subd. 1 had the fireman or policeman continued to live. If a fireman or policeman elects Option 4 and selects a reduced service retirement allowance payable in equal installments during the fireman's or policeman's life with the provision that after the fireman's or policeman's death the surviving spouse shall receive an allowance payable in equal installments during the spouse's life which is a proportionate share of the member's reduced service retirement allowance, the escalator under subd. 1 included in the fireman's or policeman's service retirement allowance at the date of death shall be included for purposes of determining the proportionate share of the spouse's survivor allowance upon death of such fireman or policeman and the spouse's survivor allowance shall be escalated by an amount computed by multiplying \$50 by the spouse's proportionate share at such times as the fireman's or policeman's service retirement allowance would have been escalated under subd. 1 had the fireman or policeman continued

to live. If a fireman or policeman elects Option 4 and selects a reduced service retirement allowance with the provision that after the fireman's or policeman's death the surviving spouse shall receive an allowance but does not select a payout option referred to in this subdivision the escalator included in the fireman's or policeman's service retirement allowance at the date of death shall not be included in determining the spouse's survivor allowance upon death of such fireman or policeman but such spouse's survivor allowance shall be escalated \$25 for each escalation the member received or would have been entitled to receive under subd. 1 if the member would have continued to live.

h-4. General city employees who retire on a service retirement allowance under sub. 1-b or 1-d-3, on or after January 1, 1993 (on or after August 16, 1994 for employees represented by the Milwaukee Building and Construction Trades Council, AFL-CIO), and retired general city employees receiving a duty disability retirement allowance, who have attained the minimum service retirement age and convert to service retirement allowance on or after January 1, 1993 (on or after August 16, 1994 for employees represented by the Milwaukee Building and Construction Trades Council, AFL-CIO), shall be eligible for a pension escalator of 2% effective with the installment next following the 8th annual anniversary of service retirement and an additional 2% pension escalator in each successive year effective on each subsequent anniversary of the first adjustment. Each successive adjustment shall be computed on the service retirement allowance as previously adjusted. General city employees receiving retirement benefits under sub. 6-b-2 and 3, 6-c or 6-d-2 shall not be eligible for a pension escalator under this subdivision. If a member who is eligible for an adjustment under this subd. dies without receiving an adjustment prior to death, a beneficiary who is eligible for a spouse survivor allowance under sub. 7-b-2 shall be eligible for a pension escalator in the amount of 2% effective with the installment in which the member would have received an adjustment had the member lived. If the member has received an adjustment under this subd. prior to death, a beneficiary who is eligible for a spouse survivor allowance under sub. 7-b-2 shall be eligible for a pension escalator in the amount of 2% effective with the installment in which the member next would have received an

adjustment had the member lived. If a general city employee who has elected a protective survivorship option under sub. 7-b-4 dies on or after January 1, 1993, while in active service, a beneficiary who is eligible for a spouse survivor allowance under sub. 7-b-2 shall be eligible for a pension escalator in the amount of 2% effective with the installment next following the 8th annual anniversary of the commencement of the spouse survivor allowance. After the first adjustment to the spouse survivor allowance, there shall be an additional 2% escalator to the spouse survivor allowance in each successive year effective on each subsequent anniversary of the first adjustment to the spouse survivor allowance. Each successive adjustment to the spouse survivor allowance shall be computed on the spouse survivor allowance as previously adjusted. Beneficiaries, other than spouses receiving survivor benefits under sub. 7-b-2 and 4, shall not be eligible for a pension escalator. After January 1, 2000 this subd. shall not apply to members, retired members (or spouse survivors if the member or retired member is deceased) who participate in the combined fund and spouse survivors of members and retired members who participate in the combined fund.

h-5-a. A general city employee in active service on or after January 1, 2000, who participates in the combined fund and was enrolled as a member of the retirement system prior to January 1, 2014, shall be eligible for an annual pension escalator of 1.5% effective with the installment next following the second, third and fourth anniversary of his or her retirement, and an annual pension escalator of 2% effective with the installment next following the fifth and each successive anniversary of his or her retirement if he or she retires on a service retirement allowance under par. b or d, a deferred retirement allowance under sub. 6-b-2 or d-2, or an immediate allowance under sub. 6-b-3 or c. Each successive annual increase to the member's allowance under this subd. shall be calculated on the retirement allowance as previously increased. If a member eligible for an adjustment under this subd. retires on a duty disability retirement allowance and converts to a service retirement allowance, the member's adjustment following conversion shall be first payable with the installment next following the second anniversary of his or her conversion and the percentage increase of the annual escalator payable on each anniversary following conversion shall be calculated by reference to the member's date of conversion to a service

retirement allowance rather than by reference to the member's date of retirement on disability. If a member who is eligible for an adjustment under this subd. elects a retirement option under sub. 7-b-1, b-2 or b-3 with a spouse survivor allowance payable to the member's surviving spouse after the member's death in proportionate share to the member's reduced retirement allowance, and the member dies after receiving a retirement allowance, the spouse survivor allowance payable on the member's death shall be calculated as a proportionate share of the member's retirement allowance including adjustments under this subd. up to the date of death and the spouse survivor allowance shall be increased by an annual pension escalator payable at the same time and in the same percentage as the increase the member would have received, had the member lived. If a member who is eligible for an adjustment under this subd. elects a protective survivorship option under sub. 7-b-4, with a spouse survivor allowance payable on the member's death in proportionate share to the member's reduced retirement allowance and the member dies while in active service, the spouse survivor allowance payable on the member's death, shall be increased by an annual pension escalator to the spouse survivor allowance payable at the same time and in the same percentages as the increases the member would have received had the member retired on the date of the member's death. i. Employees retired prior to January 1, 1993.

i-1. The benefits payable under this paragraph are not deferred compensation for services performed by retired members. Any provision of ch. 36 to the contrary notwithstanding, the benefits payable under this paragraph and the terms and conditions under which they are payable are neither contractually guaranteed by the city and the board nor vested in any beneficiary thereof. The city expressly reserves the unilateral right to amend or repeal this paragraph without notice and hearing to or consent of any beneficiary. Members and survivors who separated and received benefits under sub. 6-b-2, 6-b-3, c, d-2 or e shall not be eligible for benefits under this paragraph. This subd. shall not apply on or after January 1, 2000 to retired members and spouse survivors who participate in the combined fund.

i-1-a. Members who retired prior to October 1, 1987 on a service retirement allowance under par. b or f and members who retired on a duty disability allowance and converted to a service retirement allowance under sub. 3-b or 3-c-3 prior to October 1, 1987 shall be eligible for a catch-up adjustment to their service retirement allowance payable with the first installment next following January 1, 1996. Such adjustment shall be a percentage change to the retirement allowance equal to the greater of the total percentage change in the cost of living for each full calendar month between the eighth anniversary of the member's service retirement and October 1, 1995 or the total percentage change required to bring the member's allowance to 60% of the whole inflation adjusted value of the member's allowance at the time of retirement. The percentage change in the cost of living shall be measured by the increase in the Consumer Price Index (All Urban Consumers - CPI-U) U.S. Cities as reported by the U.S. Department of

Labor, Bureau of Labor Statistics. The whole inflation adjusted value of a pension at the time of retirement shall be the sum of the product of the service retirement allowance at the time of retirement multiplied by the total percentage change in the cost of living during each full calendar month between retirement and October 1, 1995 added to the member's service retirement allowance at the time of retirement. Beneficiaries other than spouses receiving survivor benefits or protective survivor benefits shall not be eligible for benefits under this subparagraph. If a member eligible for a service retirement allowance under par. b or f elected a protective survivor option, expressed as a percentage of the member's pension, and died while in active service prior to October 1, 1987, the surviving spouse under such option shall be eligible for a catch-up adjustment to their survivor allowance payable with the first installment next following January 1, 1996 in a percentage change to the survivor allowance equal to the greater of the total percentage change in the cost of living for each full calendar month between the eighth anniversary of the member's death and October 1, 1995 or the total percentage change required to bring the survivor allowance to 60% of the whole inflation adjusted value of the survivor allowance at the date of death. If a member, who retired prior to October 1, 1987 on a service retirement allowance under par. b or f, elected a spouse survivor option, expressed as a percentage of the member's pension, and died following retirement, but prior to October 1, 1995, the surviving spouse under such option shall be eligible for a catch-up adjustment to their survivor allowance payable with the first installment next following January 1, 1996 in a percentage change to the survivor allowance equal to the greater of the total percentage change in the cost of living for each full calendar month between the eighth anniversary of the member's retirement and October 1, 1995 or the total percentage change required to bring the survivor allowance to 60% of the whole inflation adjusted value of the spouse survivor allowance at the time of the member's retirement. If a member, retired prior to October 1, 1987 on a service retirement allowance under par. b or f, elected a spouse survivor option, expressed as a percentage of the member's pension and dies while eligible for catch-up under subpar. a, the surviving spouse under such option shall have the member's catch-up included in the member's allowance in calculating the spouse survivor allowance

expressed as a percentage of the member's allowance.

i-2-a. Members who retired prior to January 1, 1993 on a service retirement allowance under par. b or f and members who retired on a duty disability allowance and converted to a service retirement allowance under sub. 3-b or 3-c-3 prior to January 1, 1993 shall be eligible for a pension escalator to their service retirement allowance of up to 2% effective with the installment next following the later of the 8th annual anniversary of service retirement or January 1, 1996 and an additional pension escalator of up to 2% in each successive year effective on each subsequent anniversary of the first adjustment. The first escalator shall be computed on the service retirement allowance as previously adjusted under subd. 1-a. Each successive escalator shall be computed on the service retirement allowance as previously escalated. The payment of each pension escalator or successive escalator first payable in 1997 or in a year subsequent to 1997 shall be subject to the limitations of s. 36-08-2-a. Beneficiaries other than spouses receiving survivor benefits or protective survivor benefits under sub. 7-b-2 shall not be eligible for benefits under this subparagraph. If a member, who elected a spouse survivor option and retired prior to January 1, 1993 on a service retirement allowance under par. b or f, dies, a surviving spouse who is eligible for a spouse survivor allowance under sub. 7-b-2 shall be eligible for a spouse survivor pension escalator to their survivor allowance of up to 2% effective with the installment next following the later of the 8th anniversary of the member's service retirement or January 1, 1996. If a member elected a protective survivor option and died prior to January 1, 1993 while in active service, a surviving spouse who is eligible for a spouse survivor allowance under sub. 7-b-2 shall be eligible for a spouse survivor pension escalator to their spouse survivor allowance of up to 2% effective with the installment next following the later of the eighth anniversary of the member's death or January 1, 1996. A spouse receiving a spouse survivor pension escalator shall be eligible for an additional escalator of up to 2% in each successive year effective on each subsequent anniversary of the first escalator to the spouse survivor allowance. The first escalator shall be calculated on the spouse survivor allowance as previously adjusted under this subd. Each successive escalator to the

36-05-1-j Employees' Retirement System

spouse survivor allowance shall be computed on the spouse survivor allowance as previously escalated. The payment of each escalator or successive escalator first payable in 1997 or in a year subsequent to 1997 shall be subject to the limitations of s. 36-08-2-a. After January 1, 2000 this subpar. shall not apply to members, retired members or spouse survivors (if the member or retired member is deceased) who participate in the combined fund and spouse survivors of members and retired members who participate in the combined fund.

i-2-b. Effective January 1, 2000, the annual escalator payable under par. h-5-a shall be extended to a general city employee, fireman or policeman, retired on a service retirement allowance under par. b, d-3 or f, a general city employee, a fireman or policeman, retired on a duty disability retirement allowance who converted to a service retirement allowance or a general city employee, a fireman or policeman separated from service who retired on a deferred retirement allowance under sub. 6-b-2, d-2 or e or an immediate allowance under sub. 6-b-3 or c and their spouse survivor eligible to receive a proportionate share of the member's allowance if the member (or spouse survivor if the member is deceased) is a participant in the combined fund and the member is a general city employee retired on a service retirement allowance, duty disability retirement allowance or separated from service prior to January 1, 2000 or a fireman or policeman retired on a service retirement allowance, duty disability retirement allowance or separated from service prior to January 1, 1993. If a member eligible for an escalator under this subpar. was eligible for an annual escalator under subpar. a prior to January 1, 2000, the annual escalator payable under this subpar. shall be effective upon the anniversary of the escalator payable under subpar. a if such anniversary is different from the anniversary of the installment next following service retirement. If a member referred to above retires on a duty disability retirement allowance and converts to a service retirement allowance the conversion date shall be used for purposes of determining both the eligibility and the percentage increase of the annual escalator to which the member or spouse survivor is eligible. Effective January 1, 2000, the annual escalator payable under par. h-6 shall be extended to a fireman and policeman who retired on a duty disability retirement allowance of 75% of current salary for their position under sub. 3-c-1-a between October 17, 1992 and

December 31, 1994 if he or she is eligible to elect between a service retirement allowance and a duty disability allowance under sub. 3-c-f effective with the installment next following one year after eligibility for an election to convert to a service retirement. Effective January 1, 2000 the annual escalator payable under par. h-6 shall be extended to a fireman or policeman who separated from service between January 1, 1993 and December 31, 1999 and retired on a deferred retirement allowance under sub. 6-b-2 or 6-d-2 or separated from service between January 1, 1995 and December 31, 1999 and retired on a deferred retirement allowance under sub. 6-e or separated from service between January 1, 1993 and December 31, 1999 and retired on an immediate allowance under sub. 6-b-3 or c and his or her spouse survivor eligible to receive a proportionate share of the member's allowance if the member (or spouse survivor if the member is deceased) is a participant in the combined fund and the member separated from service prior to January 1, 2000. If a member who is eligible for an increase under this subpar. dies on or after January 1, 2000 his or her spouse's proportionate share of spouse survivor allowance shall be computed based on the amount of the deceased member's allowance including increases at the date of death and the spouse survivor shall be eligible for an annual escalator to his or her spouse survivor allowance at the same time and in the same percentages as the deceased member would have received had the deceased member continued to live. j-3-b. For purposes of s. 415(b) of the Internal Revenue Code, "annual benefit" means a benefit payable annually in the form of a straight life annuity, with no ancillary benefits, without regard to the benefit attributable to after-tax employee contributions, except pursuant to s. 415(n) of the Internal Revenue Code, and to rollover contributions as defined in s. 415(b)(2)(A) of the Internal Revenue Code. The "benefit attributable" shall be determined in accordance with U.S. treasury regulations.

j-3-c. The annual pension benefit payable to a member who has a freeze date specified in this paragraph shall not be less than the member's old law benefit. A member's old law benefit shall be the benefit the member was entitled to as of December 31, 1994 (the "freeze date") determined without regard to any changes in the terms and conditions of the retirement system after December 8, 1994.

j-4. Adjustments to Basic 415(b) Limitation for Form of Benefit.

j-4-a. If the benefit under the plan is other than the form specified in par. j-3, then the benefit shall be adjusted so that it is the equivalent of the annual benefit, using factors prescribed in U.S. treasury regulations.

j-4-b. If the form of benefit without regard to the automatic benefit increase feature is not a straight life annuity or a qualified joint and survivor annuity, then subpar. a is applied by either reducing the s. 415(b) of the Internal Revenue Code limit applicable at the annuity starting date or adjusting the form of benefit to an actuarially equivalent amount, determined using the assumptions specified in U.S. treasury regulation s. 1.415(b)-1(c)(2)(ii), that takes into account the additional benefits under the form of benefit as follows:

j-4-b-1 For a benefit paid in a form to which s. 417(e)(3) of the Internal Revenue Code does not apply (generally, a monthly benefit), the actuarially equivalent straight life annuity benefit that is the greater of:

j-4-b-1-a. The annual amount of the straight life annuity, if any, payable to the member under the plan commencing at the same annuity starting date as the form of benefit to the member; or

j-4-b-1-b. The annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the form of benefit payable to the member, computed using a 5% interest assumption, or the applicable statutory interest assumption; and

j-4-b-1-b-1. For years prior to January 1, 2009, the applicable mortality tables described in U.S. treasury regulation s. 1.417(e)-1(d)(2) (Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62); and

Employees' Retirement System 36-05-1-j-5

j-4-b-1-b-2. For years after December 31, 2008, the applicable mortality tables described in s. 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing s. 417(e)(3)(B) of the Internal Revenue Code); or

j-4-b-2. For a benefit paid in a form to which s. 417(e)(3) of the Internal Revenue Code applies (generally, a lump sum benefit), the actuarially equivalent straight life annuity benefit that is the greatest of:

j-4-b-2-a. The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using the interest rate and mortality table, or tabular factor, specified in the plan for actuarial experience; or

j-4-b-2-b. The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit payable, computed using a 5.5 percent interest assumption, or the applicable statutory interest assumption; and

j-4-b-2-b-1. For years prior to January 1, 2009, the applicable mortality tables for the distribution under U.S. treasury regulation s. 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62); and

j-4-b-2-b-2. For years after December 31, 2008, the applicable mortality tables described in s. 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing s. 417(e)(3)(B) of the Internal Revenue Code); or

j-4-b-2-c. The annual amount of the straight life annuity commencing at the annuity starting date that has the same actuarial present value as the particular form of benefit computed under U.S. treasury regulation s. 1.417(e)-1(d)(3); and

j-4-b-2-c-1. or years prior to January 1, 2009, the applicable mortality tables for the distribution under U.S. treasury regulation s. 1.417(e)-1(d)(2) (the mortality table specified in Revenue Ruling 2001-62 or any subsequent Revenue Ruling modifying the applicable provisions of Revenue Ruling 2001-62); and

j-4-b-2-c-2. For years after December 31, 2008, the applicable mortality tables described in s. 417(e)(3)(B) of the Internal Revenue Code (Notice 2008-85 or any subsequent Internal Revenue Service guidance implementing s. 417(e)(3)(B) of the Internal Revenue Code), divided by 1.05.

j-4-c. The actuary may adjust the 415(b) of the Internal Revenue Code limit at the annuity starting date in accordance with subpar. b-1 and 2.

j-5. Benefits For Which No Adjustment of the 415(b) Limit is Required.

For purposes of this section, the following benefits shall not be taken into account in adjusting these limits:

j-5-a. Any ancillary benefit which is not directly related to retirement income benefits.

j-5-b. That portion of any joint and survivor annuity that constitutes a qualified joint and survivor annuity.

j-5-c. Any other benefit not required under s. 415(b)(2) of the Internal Revenue Code and U.S. treasury regulations thereunder to be taken into account for purposes of the limitation of s. 415(b)(1) of the Internal Revenue Code.

j-6. Other Adjustments in 415(b) Limitation.

j-6-a. If the member's retirement benefits become payable before age 62, the limit prescribed by this paragraph shall be reduced in accordance with U.S. treasury regulations pursuant to the provisions of s. 415(b) of the Internal Revenue Code, so that such limit, as so reduced, equals an annual straight life benefit, when such retirement income benefit begins, which is equivalent to a \$160,000, as adjusted, annual benefit beginning at age 62.

j-6-b. If the member's benefit is based on at least 15 years of service as a full-time employee of any police or fire department or on 15 years of military service, the adjustments provided for in subpar. a shall not apply.

j-6-c. The reductions provided for in subpar. a shall not be applicable to pre-retirement disability benefits or pre-retirement death benefits.

j-7. Less than 10 Years of Participation or Service Adjustment for 415(b) Limitations. The maximum retirement benefits payable to any member who has completed less than 10 years of participation shall be the

amount determined under subd. 3, as adjusted under subd. 4 or subd. 6, multiplied by a fraction, the numerator of which is the number of the member's years of participation and the denominator of which is 10. The limit under subd. 8 concerning the \$10,000 limit shall be similarly reduced for any member who has accrued less than 10 years of service, except the fraction shall be determined with respect to years of service instead of years of participation. The reduction provided by this subdivision cannot reduce the maximum benefit below 10% of the limit determined without regard to this subdivision. The reduction provided for in this subdivision shall not be applicable to pre-retirement disability benefits or pre-retirement death benefits.

j-8. \$10,000 Limit. Notwithstanding the foregoing, the retirement benefit payable with respect to a member shall be deemed not to exceed the s. 415 of the Internal Revenue Code limit if the benefits payable, with respect to such member under this plan and under all other qualified defined benefit pension plans to which the member's employer contributes, do not exceed \$10,000 for the applicable limitation year and for any prior limitation year and the employer has not at any time maintained a qualified defined contribution plan in which the member participated.

j-9. Effect of COLA without a Lump Sum Component on 415(b) Testing. Effective on and after January 1, 2009, for purposes of applying the limits under s. 415(b) of the Internal Revenue Code (the "Limit") to a member with no lump sum benefit, all of the following shall apply:

j-9-a. A member's applicable Limit shall be applied to the member's annual benefit in the member's first limitation year without regard to any cost-of-living adjustments under pars. h and i.

j-9-b. To the extent that the member's annual benefit equals or exceeds the Limit, the member shall no longer be eligible for cost-of-living increases until such time as the benefit plus the accumulated increases are less than the Limit. Thereafter, in any subsequent limitation year, a member's annual benefit, including any cost-of-living increases under pars. h and i, shall be tested under the then-

applicable benefit Limit, including any adjustment to the s. 415(b)(1)(A) of the Internal Revenue Code dollar limit under s. 415(d) of the Internal Revenue Code, and the regulations thereunder.

j-10. Effect of COLA with a Lump Sum Component on 415(b) Testing. On and after January 1, 2009, with respect to a member who receives a portion of the member's annual benefit in a lump sum, a member's applicable Limit shall be applied taking into consideration cost-of-living increases as required by s. 415(b) of the Internal Revenue Code and applicable U.S. treasury regulations.

j-11. Repayments of Cashouts. Any repayment of contributions, including interest, to the plan with respect to an amount previously refunded upon a forfeiture of service credit under the plan or another governmental plan maintained by the retirement system, a retirement system sponsored by the state of Wisconsin or by a unit of local government in the state of Wisconsin shall not be taken into account for purposes of s. 415 of the Internal Revenue Code, in accordance with applicable U.S. treasury regulations.

j-12. Reduction of Benefits Priority. Reduction of benefits or contributions to all plans, where required, shall be accomplished by first reducing the member's benefit under any defined benefit plans in which the member participated, such reduction to be made first with respect to the plan in which the member most recently accrued benefits and thereafter in such priority as shall be determined by the plan and the plan administrators of such other plans, and next, by reducing or allocating excess forfeitures for defined contribution plans in which the member participated, such reduction to be made first with respect to the plan in which the member most recently accrued benefits and thereafter in such priority as shall be established by the plan and the plan administrators for such other plans provided, however, that necessary reductions may be made in a different manner and priority pursuant to the agreement of the plans and the plan administrators of all other plans covering such member.

j-13. Section 415(c) Limitations on Contributions and Other Additions.

36-05-1-j-13-a Employees' Retirement System

j-13-a. For purposes of this subdivision, effective January 1, 2002, unless otherwise provided, after-tax member contributions or other annual additions with respect to a member may not exceed the lesser of either:

j-13-a-1. \$40,000, as adjusted pursuant to s. 415(d) of the Internal Revenue Code; or

j-13-a-2. 100% of the member's compensation.

j-13-b. Annual additions are defined to mean the sum, for any year, of employer and member contributions to a defined contribution plan, post-tax member contributions to a defined benefit plan, except for purposes of service purchases, and forfeitures credited to a member's individual account. Member contributions are determined without regard to rollover contributions and without regard to employee contributions to a simplified employee pension which are excludable from gross income under s. 408(k)(6) of the Internal Revenue Code and to picked-up employee contributions that are paid to a defined benefit plan. The compensation limit referred to in subpar. a-2 shall not apply to any contribution for medical benefits, within the meaning of s. 419A(f)(2) of the Internal Revenue Code, after separation from service which is treated as an annual addition.

j-13-c. For purposes of applying s. 415(c) of the Internal Revenue Code and for no other purpose, the definition of "compensation", where applicable, shall be compensation actually paid or made available during a limitation year, except as noted below and as permitted by U.S. treasury regulation s. 1.415(c)-2, or successor regulation. However, member contributions picked up under s. 414(h) of the Internal Revenue Code shall not be treated as compensation.

j-13-d. "Compensation" shall be defined as wages within the meaning of s. 3401(a) of the Internal Revenue Code and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee a written statement under ss. 6041(d), 6051(a)(3) and 6052 of the Internal Revenue Code, and shall be determined without regard to any rules under s. 3401(a) of the Internal Revenue Code that limit the remuneration included in wages based on the nature or location of the employment or the services

performed, such as the exception for agricultural labor in s. 3401(a)(2) of the Internal Revenue Code. However, the following adjustments shall also apply:

j-13-d-1. For limitation years beginning on and after January 1, 2002, "compensation" shall also include amounts that would otherwise be included in compensation but for an election under ss. 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b) of the Internal Revenue Code. "Compensation" shall also include any elective amounts that are not includible in the gross income of the member by reason of s. 132(f)(4) of the Internal Revenue Code.

j-13-d-2. For limitation years beginning on and after January 1, 2009, "compensation" for the limitation year shall also include compensation paid by the later of 2½ months after a member's severance from employment or the end of the limitation year that includes the date of the member's severance from employment if any of the following are true:

j-13-d-2-a. The payment is regular compensation for services during the member's regular working hours, or compensation for services outside the member's regular working hours, such as overtime or shift differential, commissions, bonuses or other similar payments, and, absent a severance from employment, the payments would have been paid to the member while the member continued in employment with the employer; or

j-13-d-2-b. The payment is for unused accrued bona fide sick, vacation or other leave that the member would have been able to use if employment had continued; or

j-13-d-2-c. Payments pursuant to a nonqualified unfunded deferred compensation plan, but only if the payments would have been paid to the member at the same time if the member had continued employment with the employer and only to the extent that the payment is includible in the member's gross income.

j-13-d-3. Any payments not described in subpar. d-2 are not considered compensation if paid after severance from employment, even if they are paid within 2½ months following severance from employment, except for payments to the individual who does not currently perform services for the employer by reason of qualified military service, within the

meaning of s. 414(u)(1) of the Internal Revenue Code, to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

j-13-d-4. An employee who is in qualified military service, within the meaning of s. 414(u)(1) of the Internal Revenue Code, shall be treated as receiving compensation from the employer during such period of qualified military service equal to whichever of the following is applicable:

j-13-d-4-a. The compensation the employee would have received during such period if the employee were not in qualified military service, determined based on the rate of pay the employee would have received from the employer but for the absence during the period of qualified military service; or

j-13-d-4-b. If the compensation the employee would have received during such period was not reasonably certain, the employee's average compensation from the employer during the 12-month period immediately preceding the qualified military service, or, if shorter, the period of employment immediately preceding the qualified military service.

j-13-d-5. Back pay, within the meaning of U.S. treasury regulation s. 1.415(c)-2(g)(8), shall be treated as "compensation" for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included under this definition.

j-13-e. If the annual additions for any member for a plan year exceed the limitation under s. 415(c) of the Internal Revenue Code, the excess annual addition shall be corrected as permitted under the Employee Plans Compliance Resolution System or similar Internal Revenue Service correction program.

j-13-f. For limitation years beginning on or after January 1, 2009, a member's compensation for purposes of this subdivision shall not exceed the annual limit under s. 401(a)(17) of the Internal Revenue Code.

2. ORDINARY DISABILITY RETIREMENT ALLOWANCE. a. Years of Service. a-1. Upon the application for ordinary disability retirement made by a member in active service, or the head of the department or agency employing him where such member is prevented from filing because he is incapacitated, and who has had 10 or more years of creditable service such member may be retired by the board not less than 30 and not more than 90 days next following the date of filing such application for an ordinary disability retirement allowance, provided the medical council, after a medical examination of such member, shall certify that such member is mentally or physically incapacitated for the further performance of duty, that such incapacity is likely to be permanent, and that such member should be retired. *(Subd. 1 am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.)*

a-2. If, however, such member has less than 10 years of creditable service, he may apply for disability retirement allowance, but such allowance shall be limited in the duration of its payment to a period of time equal to 1/4 of the entire period of service rendered by such member. If a member granted a limited disability retirement allowance under this subsection is not restored to active service, there shall be refunded to him at the time of the termination of his retirement allowance a lump sum equal in amount to the difference between the amount of his accumulated contributions at the time of his retirement and the sum of the payments actually made to him during his disability retirement which is the actuarial equivalent of his accumulated contributions, conditioned as provided in sub. 6-a. *(Subd. 2 am Ch. Ord. 382, File #71-2300, Mar. 21, 1972.)*

a-3. Any pre-existing physical condition as determined from a medical examination conducted for the city in connection with the employment of a member shall be deemed a bar to coverage of any disability benefits under this act as a direct or indirect result of such disability. *(Subd. 3 cr. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.)*

The ordinary disability retirement allowance shall consist of 90% of the service retirement allowance based on the creditable service to the time of disability, with a minimum allowance of 25% of his final average salary, provided that no retirement allowance shall exceed 90% of the allowance the member would receive were his service continued to the minimum service retirement age. (*Par. b am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.*)

c. Firemen and Policemen. Firemen and policemen shall be entitled to ordinary disability benefits as stated hereafter:

The maximum ordinary disability retirement allowance which shall be payable to any fireman or policeman member on ordinary disability under this subsection shall be limited to 50% of such member's final average salary. In the event a policeman or general city employee who applies for an ordinary disability retirement allowance on or after January 1, 1985 or a fireman who applies for an ordinary disability retirement allowance on or after March 1, 1985, dies prior to retirement but after selecting an option under sub. 7, the application shall continue to be processed as though such member shall have continued to live and if such application is approved, the election of an optional benefit shall become effective on the date of the member's death. This paragraph shall not apply in the event of accidental death benefits payable under sub. 5. (*Par. d cr. Ch. Ord. 554, File #85-845, Oct. 1, 1985; eff. Dec. 15, 1985.*)

If a member who is eligible for an increase under this paragraph dies while on ordinary disability on or after January 1, 2000, his or her spouse's proportionate share spouse survivor allowance shall be computed based on the amount of the member's ordinary disability retirement allowance including increases at the date of death. The annual escalator shall be payable to the member or spouse survivor at same times and in the same percentages as the increases the member would have received had the

member retired on a service retirement allowance on the date of his or her ordinary disability retirement. (*Par. e cr. File #991585, April 11, 2000; eff. Jan. 19, 2001. Par. e am File #121701, May 21, 2013; eff. Aug. 10, 2013.*)

3. DUTY DISABILITY RETIREMENT ALLOWANCE. a. While in Active Service. Any member in active service who shall become permanently and totally incapacitated for duty as the natural and proximate result of an injury occurring at some definite time and place while in the actual performance of duty shall, upon filing a request for retirement with the board on a form provided by the board for that purpose, be entitled to a duty disability retirement allowance to begin not less than 30 nor more than 90 days after the filing of the application therefor, provided the medical council or medical panel after a medical examination of such member shall certify that such member is mentally or physically incapacitated for further duty as a result of such service injury and such incapacity is likely to be permanent and such member should be retired. No beneficiary entitled to a duty disability retirement allowance shall receive any allowance on account of ordinary disability. c. Firemen and Policemen Duty Disability. c-1. Medical Panel, etc. Firemen and policemen who are eligible for duty disability retirement allowance shall file a request therefor with the board on a form provided by it for that purpose; such disability shall be determined as follows:

36-05-3-c-1-a Employees' Retirement System

c-1-a. Recommendations. Except for policemen who become members after June 28, 2005, and firemen represented by Local 215, IAFF, who become members of the retirement system after December 13, 2005 and apply for duty disability retirement allowance based on a mental injury, such member shall be examined by a medical panel and such medical panel shall make the examination, determination and certification required under this act in accordance with the form prescribed by the board. If the panel recommends that such person is entitled to duty disability retirement allowance provided for in this section, the board shall thereupon grant such allowance. For policemen who become members of the retirement system after June 28, 2005, and firemen represented by Local 215, IAFF, who become members of the retirement system after December 13, 2005 and apply for a duty disability retirement allowance based on a mental injury, the application shall be referred to the medical council established under s. 36-15-12, in lieu of the medical panel, which medical council shall make the determination and certification required under this act. In any reexamination authorized by this act of such retired beneficiary, the beneficiary shall be referred to the medical council, in lieu of the medical panel, for reexamination and such medical council shall make the determination and certification required under this act. Except as otherwise provided in subd. 3-f and g, the surviving spouse of such member after his or her death but only during the period prior to remarriage shall receive 70% of the amount of the duty disability which the member received at the time of his or her death, and such percentage shall thereafter be based upon the salary of the position of such member at the time of his or her death. Prior to such person attaining the minimum service retirement age, periodic medical examinations of such person shall be made at least once each year but the heads of the respective departments may direct more frequent examinations. Effective January 1, 2000, the annual escalator payable under sub. 1-h-5 shall be extended to the allowance received by the surviving spouse of a retired fireman or policeman who retired on a duty disability retirement allowance under this subpar. prior to January 1, 1993 and died while receiving a duty disability retirement allowance if the member (or the surviving spouse of the member is deceased) participates in the combined fund. Effective January 1, 2000, the annual escalator payable under sub. 1-h-6 shall be extended to the allowance received by the surviving spouse of a retired fireman or policeman who retired on a duty disability retirement allowance under this subpar. on or after January 1, 1993 and dies while receiving a duty disability retirement allowance if the member (or the surviving spouse of the member is deceased) participates in the combined fund. c-1-b. Case Review. In the event a member receiving a duty disability retirement allowance is later determined to be fit for service he shall be restored to service in his department and he shall no longer be entitled to receive a duty disability retirement allowance. The board may at any time request information concerning such person or investigate his status or request a medical examination of such person. The provisions of ss. 36-07-2 and 3 and 36-12 shall apply in all respects to such person entitled to receive a duty disability retirement allowance. In the event however that such fireman or policeman who is eligible to recover duty disability has a disability involving the loss of use of both eyes or the full loss of use of one eye and one limb or the full loss of the use of 2 limbs or an equivalent disability that would impair the member's (retiree's) ability to earn a livelihood and such disability is determined by majority action of the medical panel or medical council, then in such event the disabled fireman or policeman shall receive a duty disability pension of 90% of his current salary, and the board may waive the annual medical examination by the said panel or medical council of physicians; but in lieu thereof the disabled fireman or policeman annually shall submit a report from his personal physician to the board. If such panel or medical council reaches a determination unfavorable to the fireman or policeman on duty disability he may after 6 months but not later than one year request a reexamination by the medical council, or the convening of a second 3-physician panel to be constituted in the same manner and for the same purpose as the initial panel but such request shall be in writing. If an unfavorable result is reached, the fireman or policeman may seek further review but not sooner than 12 months from the last determination. This benefit shall be in lieu of any other benefits provided in this act for duty disability allowances. (Subpar. b am. Ch. Ord. 565, File #86-1820, Feb. 24, 1987; eff. May 11, 1987. Su`1bpar. b am. c-1-c. Recomputation. Recomputation of the amount of disability benefits shall occur once whenever there is a salary adjustment in the salary for such position. Such adjustment shall thereupon become effective at once. If the position from which the member retired under a duty disability is eliminated, then the city service commission shall determine in what manner the current annual salary shall be established for such position for purposes of determining disability payments under this section.

c-1-d. Surviving Spouse and Child Benefits Related to 90% Duty Disability Allowance. The surviving spouse of a member receiving a duty disability allowance of 90% of current salary after his or her death but only during the period prior to remarriage shall receive 75% of the amount of duty disability which the member received at the time of his or her death and such percentage shall thereafter be based upon the salary of the position of such member at the time of his or her death. The period of time during which duty disability benefits shall be paid shall in no event be less than the time provided for under similar circumstances in this act prior to this amendment. Any such fireman or policeman shall also have a right to receive child's disability benefit of amounts of \$40 a month on account of each child less than 18 years of age; provided, the total amount of child's disability benefits which shall be granted or paid to any such fireman or policeman shall not exceed 20% of the salary as aforesaid to such fireman or policeman. Such benefit or benefits shall be paid to such disabled fireman or policeman periodically according to rules concerning such benefits to be adopted by the retirement board. (Subpar. d am. Ch. Ord. 554, File #85-845, Oct. 1, 1985; eff. Dec. 15, 1985. Subpar. d am. File #071497, April 9, 2008; eff. June 30, 2008.)

c-1-e. Maximum Allowance. Except for a policeman or a fireman receiving a duty disability allowance of 90% of current salary under this section, the duty disability allowance together with outside earnings shall not exceed 100% of the current annual salary, and in the event outside earnings together with the duty disability allowance exceed 100% the duty disability allowance shall be reduced in the amount that

c-2. **Effective Date.** It is declared to be the intent of charter ord. 380, File #70-2025, passed by the common council on February 8, 1972, that persons who were on duty disability from and after January 1, 1971, but whose duty disability was terminated prior to the effective date of charter ord. 380 by returning to active employment shall be entitled to the benefits provided by charter ord. 380 for the period of time from January 1, 1971, to the time when they returned to such active employment predicated upon the computations set forth in charter ord. 380. All the conditions referred to in charter ord. 380 shall also be applicable to this charter ordinance. (*Ch. Ord. 386, File #70-2025-a May 26, 1972.*)

c-3-b. Policemen who are found to be eligible for a duty disability retirement allowance on or after November 1, 1976 and firemen who are found to be eligible for a duty disability retirement allowance on or after October 1, 1977, shall continue to receive such allowance during their period of eligibility until they reach the first of the next month following age 63, at which time they shall commence to receive a service retirement allowance to be computed as provided in s. 36-04-3-a.

c-3-c. Firemen who are found to be eligible for a duty disability retirement allowance on or after March 1, 1984 and policemen who are found to be eligible for a duty disability retirement allowance based upon filing a request for retirement with the board on or after August 1, 1985, shall continue to receive such allowance during their period of eligibility until they reach the first of the next month following their minimum service retirement age as provided in sub. 1-b, at which time they shall commence to receive a service retirement allowance to be computed as provided in s. 36-04-3-a.

The member shall make such

If a member elects to continue to receive a duty disability allowance, the member shall receive an amount equal to the amount the member would have received had the member converted to service retirement allowance provided, however, the amount the member shall receive shall not be more than 75% of the current annual salary for the position held at the time of the member's injury nor less than 57% of a fireman or 60% in the case of a policeman of the current annual salary for the position held at the time of the member's injury. During 6 months prior to the conversion date, the member may also irrevocably elect a spouse survivor option under sub. 7-b-1, 7-b-2 or 7-b-3. b. Involuntary Separation. A member who is removed or otherwise involuntarily separated from service for any cause, may elect: (*Par. b am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.*)

b-1. To withdraw his accumulated contributions, as provided in par. a; or (*am. Ch. Ord. 332, File #67-355-a July 25, 1967.*)

b-2. To leave his accumulated contributions in the fund until such member attains the minimum service retirement age, at which time he shall be entitled to a retirement allowance calculated in the same manner as provided in sub. 1, providing his retirement allowance at the above mentioned age equals or exceeds \$25 per month. During the interim between such member's separation from service and the effective date of his retirement, the member's account shall be annually credited with interest at a rate not exceeding the regular interest rate and his retirement allowance shall be calculated accordingly; or

b-3. To receive a retirement allowance beginning immediately that is the actuarial equivalent of the retirement allowance payable under subd. 2, provided the retirement allowance equals or exceeds \$25 or more. (*Subd. 3 am File #020598, July 27, 2004; eff. Oct. 12, 2004.*)

b-4. In the event a member who has exercised the option provided in subd. 2 returns to active service prior to attaining the minimum service retirement age, he shall again become an active member of the retirement system, and the credits for service which he had at the time of such separation shall be restored to him. Upon his subsequent retirement, he shall be credited with his service as a member subsequent to his last restoration to membership and shall receive a retirement allowance computed as if he were a new member and, in addition, he shall receive an allowance for service prior to his reinstatement computed on the formula in effect at the time he first left such service.

b-5. Should a beneficiary receiving a retirement allowance under the provisions of subd. 3 be restored to active service, his or her allowance shall cease, and he or she shall again become a member of the retirement system and the credit for service which he or she had at the time of such separation shall be restored to him or her. In the event of subsequent separation, death or retirement, the benefits to be paid shall

be reduced by the actuarial equivalent of the retirement allowance under subd. 3 which has not been repaid with interest to the date of repayment. (Subd. 5 am. File #941491, Feb. 14, 1995; eff. May 2, 1995.)

b-6. Upon the death of a person before the effective date of his deferred retirement allowance, as provided in subd. 2, there shall be paid to his estate or to such person as he has nominated by written designation, duly executed and filed with the board, a death benefit equal to his accumulated contributions, conditioned as provided in par. a.

b-7. If a member authorized to make an election under this paragraph does not make an election within a time specified by the board, the board may by rule direct the election be made on the member's behalf. (*Subd. 7 cr. File #880375, June 28, 1988; eff. Sept. 13, 1988.*)

c. Voluntary separation, age 55. A member who separates from service for any cause who has at least 15 years of creditable service and who has attained age 55 shall have the same option as given a member under par. b, except, that if he elects to receive an immediate allowance as provided under par. b-3, he shall be required to file his application at least 30 days prior to the time his retirement shall be deemed effective for the purpose of receiving an immediate allowance. Should a member separated from service elect to retire under par. b-3 and subsequently be engaged in a gainful occupation prior to attaining the minimum service retirement age paying more than the difference between his final average salary at the time of retirement and his retirement allowance, he shall be required to submit such information as the board shall require and his allowance shall be reduced by the amount of such excess. (*Par. c am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.*)

d. Deferred Retirement. A member who separates from service for any cause and who has a minimum of 4 years of creditable service may elect one of the following options:

d-1. To withdraw his accumulated contributions, as provided for in par. a; or

d-2. To leave accumulated contributions in the fund until the member shall attain the minimum service retirement age, at which time the member shall be entitled to a retirement allowance which shall be calculated in the same manner as specified in sub. 1; provided, however, that the member has a minimum of 4 years of creditable service and provided the member's allowance is equal to or

exceeds the sum of \$25 per month. During the interim of a member's separation from service and the effective date of retirement, the member's account shall annually be credited with interest at a rate not exceeding the regular interest rate and the retirement allowance shall be calculated accordingly. If a member who separated from service and left his or her accumulated contributions in the fund subsequently wishes to withdraw the accumulated contributions prior to retirement, the member shall then be entitled to receive the accumulated contributions credited to the account to the date of separation from service, conditioned as provided in par. a, together with 1/2 the interest credited to the account subsequent thereto, but the member shall have no right to any retirement allowance. Should a member who has elected a deferred retirement subsequently return to service prior to attaining the minimum service retirement age, the member shall again become an active member of this retirement system and the credits for service which he or she had at the time of such separation shall be restored to the member. Upon subsequent retirement the member shall be credited with his or her service as a member subsequent to his or her last restoration to membership and the member shall receive an allowance as if the member were a new member; and in addition the member shall receive an allowance in respect of service prior to his or her last restoration to service computed on the formula in effect at the time he or she first left such service, provided the member has not previously withdrawn contributions as provided under par. b-1. Upon the member's death prior to the time that the member would otherwise be eligible to receive a retirement allowance, there shall be paid to the member's estate or to the member's beneficiary nominated by written designation duly executed and filed with the board prior to the member's death, a death benefit equal to the member's accumulated contributions, conditioned as provided in par. a. Any member separating from service, as hereinbefore provided for, and desiring to avail himself or herself of the rights under this paragraph shall notify the board in writing within 30 days following the date of separation from service. A general city employee, policeman or fireman who separates from service on or after January 1, 1993, and elects this option may elect to defer commencement of the deferred retirement allowance to a date no later than April 1 of the calendar year following the

36-05-7 Employees' Retirement System

calendar year in which the member attains age 70-1/2 provided, however, that such election must be made no later than 30 days prior to the previously scheduled date for commencement of the receipt of such deferred retirement allowance.

d-3. If a member authorized to make an election under subd. 2 does not make an election within a time specified by the board, the board may by rule direct the election be made on the member's behalf.

(Subd. 2 am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972; Subd. 2 am. File #921978, Apr. 8, 1993; eff. June 16, 1993; Subd. 2 am. File #940423, July 15, 1994; eff. Sept. 28, 1994. Subd. 2 am. e. Firemen or Policemen, Deferred Retirement. A member who is a fireman or policeman may elect a deferred retirement allowance prior to reaching age 52, provided he has had 25 years of creditable service as such fireman or policeman by notifying the board in writing of his election to do so, and he shall then be entitled to receive his deferred retirement allowance commencing the first of the month following his 52nd birthday; such allowance shall be determined in accordance with sub. 1. *(Par. e cr. Ch. Ord. 370, File #71-239, May 24, 1971. Par. e am. Ch. Ord. 379, File #69-2460-f Feb. 8, 1972.)*

f. When on Leave. Should any member who has separated from service and elected a separation benefit under pars. b-2, c or d-2 subsequently return to city employment for less than 6 months, he shall not be eligible for additional creditable service for such service, and contributions deducted from the member's compensation during such period shall be returned to him and such service shall not terminate the retirement status of the member. *(Par. f cr. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.)*

g. Less Than One Year's Leave. Should any member who elects a separation benefit under pars. b-2, c or d-2 and subsequently returns to city employment after a lapse of less than one year from the date he left city employment and who remains in city employment until retired for service or disability, he will have his ultimate benefit based on his total creditable service with the city, excluding that period during which he was absent. *(Par. g cr. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.)*

7. OPTIONAL BENEFITS. a. Death Within 30 Days After Retirement. No election of an optional benefit, except under par. b-4, shall be effective in the event the member dies within 30 days after retirement, and the member shall be considered as an active member at the time of death unless the member elected an optional benefit under par. b-4. This paragraph shall not apply to general city employees who retire on a service retirement allowance on or after February 1, 1983, or on an ordinary or duty disability retirement allowance on or after January 1, 1985, to firemen who retire on a service retirement allowance or on an ordinary or duty disability retirement allowance on or after March 1, 1985, or to policemen who retire on a service retirement allowance or on an ordinary or duty disability retirement allowance on or after January 1, 1985.

b. Retirement Options. Until the effective date of retirement, any member may elect to convert the retirement allowance into a reduced retirement allowance that is the actuarial equivalent of the retirement allowance otherwise payable as follows:

b-1. "OPTION 2". A reduced retirement allowance payable during the member's life, with the provision that after the member's death it shall continue during the life of and shall be paid to such person as the member shall have nominated by written designation duly executed and filed with the board at the time of retirement.

b-2. "OPTION 3". A reduced retirement allowance payable during the member's life, with the provision that after the member's death an allowance of 1/2 of the member's reduced allowance shall be continued during the life of and shall be paid to such person as the member shall have nominated by written designation duly executed and filed with the board at the time of retirement. The retirement allowance because of the election of an option which provides that 1/2 of the member's allowance shall be paid to the member's spouse, shall be limited, however, to a reduction which is not in excess of 5% of the retirement allowance which the member would have received had the member elected no option; it being intended that the election of this option when the beneficiary is the member's spouse shall not reduce the member's maximum retirement allowance in excess of 5% thereof. If a member who has elected a spouse survivorship option under this paragraph receives an adjustment under sub. 1-h-4 prior to

death, the 50% survivorship allowance shall be computed based on the member's service retirement allowance including adjustments at the date of death.

b-3. "OPTION 4." A reduced retirement allowance payable during the member's life, with some other benefit payable to a designated beneficiary or for the benefit of a designated beneficiary after the member's death, provided the succeeding benefits are payable over a period not extending beyond the life of the designated beneficiary or over a period not extending beyond the life expectancy of the designated beneficiary, subject to the provisions of par. e.

b-4. Protective Survivorship Option.

Note to s. 36-05-7-b-4. Any Provision of ch. 36 notwithstanding, general city employees in active service who have selected their spouse as their designated beneficiary under a protective survivorship option under s. 36-05-7-b-4 prior to January 19, 2001 shall be permitted to reselect a retirement option during the 90-day period preceding the effective date of their retirement. (Part 46-1, File #991585, April 11, 2000; eff. Jan. 19, 2001.)

b-4-a. Any member eligible for normal service retirement under this act, except policemen who attain eligibility for normal service retirement under sub. 1-f on or after January 1, 1985, and firemen who attain eligibility for normal service retirement under sub. 1-f on or after March 1, 1985, may elect a protective survivorship option without a reduction because of such election by selecting an option under this subdivision in the manner hereinafter set forth, which option shall then become effective at his or her death, with the same force and effect as if such member had retired under such option immediately prior to his or her death. Any policeman who attains 25 years of creditable service as a policeman under this act on or after January 1, 1985, any fireman who attains 25 years of creditable service as a fireman under this act on or after March 1, 1985, and any fireman eligible for a service retirement allowance under sub. 1-f after attaining the age of 49 years and 22 years of creditable service, may elect a protective survivorship option without a reduction because of such election by selecting an option under this subdivision in the manner hereinafter set forth, which option shall then become effective at or after his or her death with the same force and effect as if such member had retired under such option immediately prior to his or her death, provided

sub. 5 is inapplicable. Such option shall operate as do other options selected under the provisions of this section. A member in order to be eligible for the election of such option based on eligibility for normal service retirement shall be required to make his or her election in writing on a form prescribed by the board within 6 months prior to the date when he or she shall first become eligible for normal service retirement. A fireman eligible for election of such option based on 22 years of creditable service shall be required to make his or her election within 6 months of attaining 22 years of creditable service. A policeman or fireman eligible for election of such option based on 25 years of creditable service shall be required to make his or her election within 6 months of attaining 25 years of creditable service. A policeman who is in the Milwaukee Police Association bargaining unit on or after November 3, 1988, a policeman not in the Milwaukee Police Association bargaining unit who was in the Milwaukee Police Association bargaining unit between November 3, 1988, and December 31, 1988, a policeman who is not in the Milwaukee Police Association bargaining unit on or after July 25, 1989, and a fireman in active service on or after January 16, 1990, shall be permitted to make a new election within 6 months of marriage or remarriage. If a fireman or policeman has a spouse at the time he or she becomes eligible to make an election under this subd., such fireman or policeman shall be deemed to have elected the option specified in subd. 1; namely, "option 2", the option which provides a 100% survivor option to the member's beneficiary and to have named his or her spouse as the designated survivor, unless, at the time he or she becomes eligible to make an election under this subd., he or she elects a different option within the time allotted. If a member marries, is divorced or retires, the member shall be permitted to reselect an option under subd. 7-b. The election shall be irrevocable and shall continue after retirement. The option shall be automatically revoked in the event the joint annuitant predeceases the member before retirement; or if the member is legally divorced from the joint annuitant before retirement when such election shall be canceled upon written notice from the member to the board requesting such cancellation. The benefit payable shall be the actuarial equivalent of the benefits otherwise payable. For firemen and policemen eligible for the option provided for by this subdivision based on attaining the minimum

36-05-7-c Employees' Retirement System

service retirement age, the option shall be effective 30 days after written election thereof is made by the member. For firemen and policemen eligible for the option provided in this subdivision, the option shall be effective on the date of death in the event the member has attained the minimum service retirement age or on the date the member would have attained the minimum service retirement age in the event the member has not attained such age on the date of death. The election of a survivorship option heretofore made shall be deemed to have been made under the provisions of this subdivision as amended.

b-4-b. The election of a protective survivorship option permitted and provided for in this subdivision and made either prior to or after October 14, 1989, wherein such member elected "Option 3", namely, the option which provides a 50% survivorship allowance to the member's spouse, automatically includes such member's right to and results in such member's maximum retirement allowance being reduced only by an amount which is not in excess of 5% of the maximum retirement allowance to which such member would be entitled except for the member's election of "Option 3"; the 5% limitation of the reduction of the member's retirement allowance referred to herein is that limitation stated in subd. 2.

c. Notwithstanding any other provision of sub. 7, on or after January 1, 1989, a member may not elect an option in which the present value of the allowance payable to the member over the member's life expectancy does not exceed the present value of the succeeding benefit. Effective for members electing an option on or after January 1, 1995, this par. does not apply when the member elects an option with the member's spouse as the designated survivor.

d. Disposition of Final Pro-Rated Payment. d-1. In this paragraph, "final pro-rated payment" means that portion of a benefit that has been earned by a beneficiary prior to the death of a beneficiary but had not been paid to the beneficiary prior to his or her death.

d-2. Upon the death of a member who has not elected any survivorship option under this subsection, the member's final pro-rated payment shall be paid to the member's estate, unless the member has named a person or trust to receive the member's final pro-rated payment on a form approved by the board for that purpose.

d-3. Upon the death of a member who has elected any survivorship option under this subsection, the member's final pro-rated payment shall be paid to the member's survivor. If the survivor predeceases the member, the member may name a person or trust to receive the member's final pro-rated payment on a form approved by the board for that purpose.

d-4. Upon the death of a survivor, the survivor's final pro-rated payment shall be paid to the survivor's estate, unless the survivor has named a person or trust to receive the survivor's final pro-rated payment on a form approved by the board for that purpose.

e. The following provisions will apply to any distribution of a member's interest and will take precedence over any conflicting provisions of this chapter.

e-1. This paragraph is not intended to provide an optional form of distribution or commencement date not otherwise permitted under this chapter unless the timing or amount of payment to be made under applicable provisions of this chapter, without regard to this paragraph, would be later than the latest commencement date or less than the required minimum provided under this paragraph.

e-2. Distributions to a member shall commence no later than April 1 of the calendar year following the later of the calendar year the member retires or attains age 70-1/2.

e-3. All distributions required under this paragraph shall be determined and made in accordance with sec. 401(a)(9) of the Internal Revenue Code, as hereafter amended, and the regulations hereunder, including the minimum distribution incidental benefit requirements of 26 Code of Federal Regulations sec. 1.401(a)(9)-6, Q and A-2; provided, however, if a distribution option provided by this chapter on April 17, 2002 is inconsistent with the requirements of 26 Code of Federal Regulations sec. 1.401(a)(9)-6, but is consistent with a good faith interpretation of sec. 401(a)(9) of the Internal Revenue Code, without regard to such regulations, such distribution option will not cause this chapter to fail to satisfy the requirements of sec. 401(a)(9) of the Internal Revenue Code.

e-4. Distribution of benefits, if not made in a single sum, shall be made over one of the following periods, or a combination thereof:

e-4-a. The life of the member.

e-4-b. The lives of the member and a designated beneficiary.

e-4-c. A period not extending beyond the life expectancy of the member.

e-4-d. A period not extending beyond the life expectancy of the member and a designated beneficiary.

e-5. If the distribution of the member's interest has begun in accordance with subd. 4, and the member dies before his or her entire interest has been distributed to the member, the remaining portion of such interest shall be distributed at least as rapidly as under the method of distribution used as of the date of death of the member.

e-6. If the member dies before distribution commences, the member's entire interest will be distributed no later than December 31 of the calendar year containing the 5th anniversary of the death of the member except to the extent an election is made to receive the distributions in accordance with the following:

e-6-a. Payments of any portion of such interest to or for the life expectancy of a beneficiary may be made over the life or life expectancy of such beneficiary commencing no later than December 31 of the calendar year containing the first anniversary of the member's death.

e-6-b. Payments of any portion of such interest to the member's surviving spouse are not required to begin earlier than December 31 of the calendar year in which the member would have attained age 70-1/2 or, if later, December 31 of the calendar year following the calendar year of the member's death. If the spouse dies before payments begin, subsequent distributions are required under this subdivision as if the spouse was the member.

e-6-c. Such election must be made by the member (or the member's beneficiary, if the member dies without having made such an election) on or before the earlier of the date by which distributions must commence absent an election and the date distributions must commence assuming such election has been made.

e-7. For the purposes of this paragraph, distribution of a member's interest is considered to begin on the date that distributions must commence to the member (or if subd. 6-b applies, the date distribution is required to begin to the surviving spouse pursuant to subd. 6). If distribution in the form of an annuity irrevocably commences to the member before distributions

must commence, distribution is considered to commence on the date it actually commences.

e-8. Any amount paid to a child of the member will be treated as if it had been paid to the surviving spouse when the child reaches the age of majority.

e-9. For the purposes of this paragraph any distribution under the incidental death benefit requirements of sec. 401(a)(9) of the Internal Revenue Code shall be treated as a distribution required under sec. 401(a)(9) of the Internal Revenue Code. 8. SURVIVORSHIP BENEFITS.

a. Firemen or Policemen, Death While in Active Service. a-1. In addition to other benefits provided for in the employees' retirement act, a fireman or policeman in active service prior to January 1, 2000, who is not a participant in the combined fund and who shall die prior to the time of his retirement from active service and who has had at least 30 days of creditable service prior to the time of his death, shall be covered by the provisions of this subsection. In such instance, the widow and other dependents hereinafter specified of such member, meeting the conditions herein set forth, shall be entitled to survivorship benefits which shall commence immediately upon the death of such member. (*Par. a-1 am. File #991585, April 11, 2000; eff. Jan. 19, 2001.*)

36-05-8-b Employees' Retirement System

a-2. Any fireman or policeman who is not a participant in the combined fund and who retires after July 1, 1967, because of an approved disability shall be eligible to participate in survivorship benefits provided for herein if such member continues to make his same contribution as required by this section. It is intended that if such member retired under an approved disability and because thereof is no longer a member, he shall nevertheless be considered as a member for the purposes of the benefits provided for under the survivorship provisions until he shall reach the minimum service retirement age established by this chapter. (*Par. a-2 am. File #991585, April 11, 2000; eff. Jan. 19, 2001.*)

b. Dependents. The survivorship benefits granted hereunder shall be as follows:

b-1. If such member shall die leaving surviving a widow or widower without children, such widow or widower shall be entitled to receive as a survivorship benefit the sum of \$115 per month, which shall commence at the time that such widow or widower shall reach the age of 62 except that the widow or widower of a member employed as a policeman on or after November 3, 1974 or employed as a fireman on or after April 6, 1975 shall be entitled to receive the aforementioned survivorship benefit commencing at the time such widow or widower shall reach the age of 57. (*Subd. 1 am. File #892368, April 9, 1990; eff. June 26, 1990.*)

b-2. If such member shall leave surviving a widow or widower with one or more children of the member, and such children are under the age of 18 years, the widow or widower shall receive for herself or himself and for such children a survivorship benefit in a sum not to exceed \$230 per month, which shall be payable to her or him as long as such children are under the age of 18 years. In the event all of her or his children reach the age of 18 years or over, the survivorship benefits herein provided for shall cease until or unless the widow or widower shall have reached the age of 62 years, except that the widow or widower of such a member employed as a policeman on or after November 3, 1974, or employed as a fireman on or after April 6, 1975, shall be entitled to receive the aforementioned survivorship benefit commencing at the time such widow or widower shall reach the age of 57. (*Subd. 2 am. File #892368, April 9, 1990; eff. June 26, 1990.*)

b-3. If such member shall die without leaving a widow or widower, but he or she shall have a child under the age of 18 years, such

child shall be entitled to receive a survivorship benefit in the amount of \$115 per month as long as said child shall be under the age of 18 years. (*Subd. 3 am. File #892368, April 9, 1990; eff. June 26, 1990.*)

b-4. If such member shall die and leave surviving him 2 or more children under the age of 18 years and no widow or widower, then as long as said children shall be under the age of 18 years they shall receive \$230 per month as survivorship benefits. However, in the event that such children reach the age of 18 years and only one child is under such age, then the remaining child shall be entitled to receive as survivorship benefits the sum of \$115 per month, which, however, shall terminate upon such child reaching the age of 18 years. The board shall have the right to determine the allocation of the amounts herein paid to children under the age of 18 years if they are part of the same family unit and if in the board's judgment an equitable allocation of survivorship benefits payable is both justifiable and practical. The provisions of subds. 2, 3 and 4 shall not apply to children who are adopted following the death of such member. (*Subd. 4 am. File #892368, April 9, 1990; eff. June 26, 1990.*)

b-5. In order for a widow or widower to be eligible for survivorship benefits herein provided, such widow or widower must have been married to a member covered by the provisions of this subsection for a period of at least 30 days prior to the date of death; a child of such member in order to be entitled to the benefits hereunder must be unmarried or under a disability which commenced prior to the attainment of age 18. (*Subd. 5 am. File #892368, April 9, 1990; eff. June 26, 1990.*)

b-6. In the event such member shall die and shall not leave surviving either a widow or widower or child or children eligible to the survivorship benefits, then in such event a dependent father or mother shall be entitled to receive as a survivorship benefit the amount of \$115 per month which shall be payable to each of the dependent parents (father and/or mother, as the case may be); provided, however, such surviving dependent shall establish to the satisfaction of the board that the dependency actually existed during the life of such member and that such surviving dependent received at least 1/2 of his or her support from such deceased member. In order to be eligible hereunder for survivorship benefits, such dependent parent must at the time of receiving such survivorship allowance have reached the

age of 65 years. The board may request such additional proof from time to time as it may consider appropriate in order to establish that the dependency continues. (*Subd. 6 am. File #892368, April 9, 1990; eff. June 26, 1990.*)

b-7. In the event a widow or widower of such member entitled to receive survivorship benefits hereunder shall remarry, then whatever benefits she or he is entitled to shall immediately cease. However, the benefits which are paid on behalf of any child under the age of 18 years shall continue as long as such minor children shall not have reached the age of 18 years. The board may require proof in such form as it determines applicable to demonstrate that such widow or widower has not remarried. (*Subd. 7 am. File #892368, April 9, 1990; eff. June 26, 1990.*)

b-9. In the instance of a widow or widower, or in the instance of minor children, being entitled to receive survivorship benefits hereunder, such survivorship benefits shall be paid in accordance with the provisions of this subsection. The death benefit provided for in sub. 10 shall be paid in addition to any survivorship benefits to which such persons are eligible. The provisions of this subdivision shall be deemed applicable to deaths having occurred among firemen and policemen who elected to come under the provisions of ch. ord. 238, File #57-3152, passed Mar. 18, 1958. (*Subd. 9 am. Ch. Ord. 467, File #78-825, Oct. 3, 1978.*)

b-10. It is intended that the increased benefits of \$230 per month or \$115 per month herein provided for are being granted because there is no added cost, but if the experience is adverse the benefits are to be reduced so as not to increase costs. (*Subd. 10 rc. Ch. Ord. 379, File #69-2460-f, Feb. 8, 1972.*)

b-11. The increase in benefits granted through amendment to this subsection is predicated upon the condition that if such increased benefits at any time hereafter make it necessary to provide additional funds in order that the survivorship benefits may be paid, then the members covered by this section shall be required to pay such additional contributions as may be determined to be necessary by the actuary, and the city shall match such increased contributions. Whenever the actuary certifies that increased contributions are required by both the members and the city, such contributions shall become effective immediately following the actuarial certification. (*am. Ch. Ord. 332, File #67-355-a, July 25, 1967.*)

b-12. For beneficiaries of policemen whose date of death occurs on or after October 5, 1973, and for beneficiaries of firemen whose date of death occurs on or after July 28, 1974, survivorship benefits payable in the amount of \$115 per month shall be increased to \$140 per month and payable in the amount of \$230 per month shall be increased to \$280 per month under the terms and conditions set forth in subd. 11. For beneficiaries of firemen whose date of death occurs on or after March 1, 1979, survivorship benefits payable in the amount of \$140 per month shall be increased to \$175 per month and payable in the amount of \$280 per month shall be increased to \$350 per month under the terms and conditions set forth in subd. 11. For beneficiaries of firemen whose date of death occurs on or after March 1, 1981, survivorship benefits payable in the amount of \$175 per month shall be increased to \$200 per month, and payable in the amount of \$350 per month shall be increased to \$400 per month under the terms and conditions set forth in subd. 11. For beneficiaries of policemen whose date of death occurs on or after September 29, 1981, survivorship benefits payable in the amount of \$140 per month shall be increased to \$200 per month and payable in the amount of \$280 per month shall be increased to \$400 per month under the terms and conditions set forth in subd. 11. For beneficiaries of firemen whose date of death occurs on or after March 1, 1984, and policemen whose date of death occurs on or after January 1, 1985, survivorship benefits payable in the amount of \$200 per month shall be increased to \$300 per month, and payable in the amount of \$400 per month shall be increased to \$600 per month under the terms and conditions set forth in subd. 10. Effective with the installment next following January 1, 2000 for beneficiaries who began receiving survivorship benefits before January 1, 2000 or who are eligible to receive survivorship benefits in the future due to a death occurring prior to January 1 2000, and who participate in the combined fund, survivorship benefits shall be increased to \$300 per month for widows or widowers age 57 without children dependent parents and an eligible single child (no widow or widower) and \$600 per month (for widows or widowers with eligible children and 2 eligible children, no widow or widower). The city shall contribute an equal sum into such fund. The proceeds of such fund shall be used solely and exclusively for paying survivorship benefits herein provided for. All contributions made by each employee to the firemen and policemen's survivorship fund shall remain in such fund and shall not be returned to such member in the event of separation from the city's service. In the event that social security is provided to firemen and policemen covered by this act, then the balances in such fund over and above any and all liabilities created or existing shall be used for the payment of social security taxes of the members who may thereafter participate in such a plan. Effective January 1, 2000, no contributions shall be required on behalf of active or retired firemen and policemen who are members of the combined fund and any amounts contributed by members of the combined fund after January 1, 2000 shall be set aside and returned. b. Death of Beneficiary. Should a beneficiary who elected payments under par. a-2 or 3 die before receiving allowance payments equal in total to the lump sum amount otherwise payable under par. a-1, the balance, if any, shall be paid to such person whom the beneficiary shall nominate by written designation duly acknowledged and filed with the board.

The bonus for members other than members who either are retired on a disability allowance as of January 1, 2000 or retire on a disability allowance thereafter shall be paid at the time of commencement of their service retirement allowance, spouse survivor allowance or accidental death benefit allowance. The bonus for members who retire before or after January 1, 2000 on a disability retirement allowance shall be payable at the time of the installment next following attainment of their conversion age. If a member is retired on a disability retirement allowance and is ineligible for conversion to a service retirement allowance, the bonus shall be payable in the installment next following the attainment of age 63 or January 1, 2000 whichever shall come last. The bonus for active members shall be 8.6% of the accrued annual service retirement allowance (without reduction on account of an election under sub. 7, or adjustment for cost of living) multiplied by the appropriate lump sum factor as set forth in par.

a. The bonus for an accidental death surviving spouse beneficiary shall be 8.6% of the accrued annual accidental death benefit allowance (without adjustment for cost of living) multiplied by the appropriate lump sum factor as set forth in par. a. The bonus for retired members on a disability retirement allowance who are eligible to convert to a service retirement allowance shall be 8.6% of their accrued service retirement allowance (without adjustment for cost of living) at a conversion age multiplied by the appropriate factor as set forth in par. a. The bonus for retired members on a disability retirement allowance who are ineligible for conversion shall be 8.6% of the annual service retirement allowance at age 63 (without adjustment for cost of living) multiplied by the appropriate lump sum factor as set forth in par. a. If a member retired on a disability retirement allowance who is ineligible for conversion to a service retirement allowance is older than age 63 as of January 1, 2000 the bonus shall be 8.6% of the member's disability retirement allowance payable for the year immediately prior to January 1, 2000 multiplied by the appropriate factor as set forth in par. a. This par. shall not apply to a retirement allowance authorized by s. 36-05-6-b-2, 6-b-3, 6-c or 6-d-2.

c. **Military Service Credit Bonus.** Each member who served and was honorably discharged from the military service prior to first being enrolled in the retirement system and who retired on a service retirement allowance prior to January 1, 2000 shall be eligible for a military service credit bonus if he or she is a participant in the combined fund and is ineligible for military service credit under s. 36-04-1-c. The bonus shall be computed by multiplying the sum of \$1,000,000 by a fraction, the numerator of which is the member's eligible active military service credit and the denominator of which is the total eligible active military service credit of all retirees eligible under this paragraph. Military

service shall have the same meaning as under sec. 36-04-1-c. To be eligible for inclusion in the calculation a period of active service must be a period of not less than 90 consecutive days spent in active military service. One year of military service shall be credited for 3 years of eligible military service, however, the maximum military service credit taken into account for purposes of calculating this bonus shall not exceed one year. The maximum military service credit bonus shall not exceed the amount of the full monthly installment payable for the month immediately prior to January 1, 2000 or if no monthly installment was payable prior to January 1, 2000, the first full monthly installment payable after January 1, 2000. The retirement system shall determine the appropriate military documentation for crediting such military service. In order to be eligible for a military service credit bonus, each retired member must apply to the retirement system no later than 6 months following a final and binding determination by a court of competent jurisdiction that this ordinance is legal and enforceable **[reference is to charter ordinance file number 000792, passed Oct. 10, 2000, eff. Jan. 19, 2001].**

d. **Retiree Special Bonus.** Every retiree, spouse survivor and accidental death beneficiary who participates in the combined fund and who is receiving a retirement allowance or accidental death benefit as of January 1, 2000 shall be eligible to receive a lump sum payment. The bonus shall be paid as soon as administratively feasible after January 1, 2000 and shall be equal to the full monthly installment payable for the month immediately prior to January 1, 2000, or if no monthly installment was payable prior to January 1, 2000, the first full monthly installment payable after January 1, 2000, multiplied by the following multiplier factor:

36-05-12 Employees' Retirement System

Status at Retirement or Death	Year of Retirement or Death	Multiplier
General City	1997-1999	2
	1996	3
	1995	4
	1994	5
	1993	6½
	1992 and prior	8
Firemen and Policemen	all years	8

If a retiree or spouse survivor eligible to receive a lump sum payment under this par. has received an overpayment of catch-up or COLA payable under s. 36-05-1-i in 1996 or 1997, then, in lieu of the repayment of such overpayment through an adjustment of future benefit payments prescribed in this section, such retiree or spouse survivor shall repay all or a portion of such overpayment by offsetting dollar for dollar the lump sum payable under this section by the amount of the overpayment or 3 times the monthly installment identified in this section whichever is less. If a retiree who died prior to January 1, 2000, elected a spouse survivor who is eligible to receive a lump sum payable under this section the overpayment to such retiree in an amount not to exceed the lesser of the amount of overpayment to such retiree or 3 monthly installment identified in this section (excluding overpayments) payable to the retiree immediately prior to his or her death, shall be set off dollar for dollar against the lump sum payable to the spouse survivor under this section. If the amount of the overpayment exceeds the amount of the dollar for dollar set off applied under this section the excess of the amount of the overpayment over the amount set off shall become an obligation of, and paid from, the combined fund. If a retiree died prior to January 1, 2000, and either did not elect a spouse survivor who is eligible to receive a lump sum payable under this section or elected a spouse survivor who predeceased the retiree the amount of the overpayment to such retiree shall become an obligation of, and paid from, the combined fund. Notwithstanding the foregoing,

the amount set off against the spouse survivor on account of overpayments received by the deceased member, the spouse survivor, or both, shall not exceed 3 times the full monthly installment payable to the spouse survivor for the month immediately prior to January 1, 2000 or if no full monthly installment was payable for the month immediately prior to January 1, 2000, the first full monthly installment payable after January 1, 2000.

e. Designated Beneficiary. A participant in the combined fund eligible to receive a lump sum bonus payment under this subsection shall be permitted to elect a designated beneficiary to receive such payment in lieu of the participant's estate, if the participant dies prior to the payment being made. a. Effective December 12, 1994, notwithstanding any other provision of the retirement system law, contributions, benefits and service credit with respect to qualified military service are governed by s. 414(u) of the Internal Revenue Code and the Uniformed Services Employment and Reemployment Rights Act of 1994.

In any event, a deceased member's

period of qualified military service shall be counted for vesting purposes. This shall not include eligibility for a benefit under sub. 5.

c. a-2. Adjustment of retirement allowances for social security benefits. Until the effective date of any service retirement, any coordinated plan member may elect to convert the allowance otherwise payable on his account after retirement into a retirement allowance of equivalent actuarial value of such amount that, with his social security benefit he will receive, so far as possible, approximately the same amount per year before and after the commencement of such benefit. (*am. Ch. Ord. 332, File #67-355-a, July 25, 1967.*)

Such amount shall be deducted from the amount credited to such member in the annuity savings fund and the execution of the consent agreement as hereinafter provided for shall evidence authority granted by such member for such deduction. (*Subd. 3 am. Ch. Ord. 332, File #67-355-a, July 25, 1967.*)

6. CONSENT AGREEMENT. Members of the employees' retirement system who elect to participate under the coordinated plan shall execute a consent agreement. (Sub. 6 am. Ch. Ord. 332, File #67-355-a, July 25, 1967.)

It is expressly provided, however, that additional contributions made by an employee who shall retire after June 29, 1975 under s. 36-08-7-f shall be excluded in determining the 82% limitation provided for herein. It is further expressly provided that no member participating in the coordinated plan and who shall retire from and after December 28, 1975, shall receive by way of retirement allowances, together with social security benefits, an aggregate sum in excess of 85% of his or her final average salary, and in the event that the amount which such member would receive under the coordinated plan, including social security benefits paid to him or her, not including social security benefits paid in respect

of such member's dependents, exceeds such amount, then the retirement allowance shall be reduced to an amount which, when added to social security benefits as herein set forth, shall not in the aggregate exceed 85% of his or her final average salary. It is expressly provided, however, that additional contributions made by an employee who shall retire after December 28, 1975, under s. 36-08-7-f shall be excluded in determining the 85% limitation provided for herein. Commencing with duty disability payments occurring on or after January 1, 1995, in applying the provisions of this subsection the maximum duty disability allowance payable to a member participating in the coordinated plan under s. 36-05-3 together with the member's social security benefit shall be limited to an aggregate sum of 100% of the member's final average salary, provided the disability pension is not fixed. 10. CONSTRUCTION AND APPLICATION OF COORDINATED PLAN PROVISIONS.

a. The provisions of this section shall be construed and applied in such a manner so that the same shall be consistent with and in conformity to the provisions of the federal laws and regulations relating to Title II of Federal Old Age, Survivors, and Disability and Health Insurance Benefits act, and the effective date referred to shall be deemed to be January 1, 1958 the date when an agreement extending coverage under the social security act to members of the employees' retirement system was executed. (*Par. a am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.*)

c. In construing or applying the provisions of this section referring to the attainment of age 65 for social security benefits or allowances, such age shall apply except, however, that if the social security act is amended to provide for a different age for eligibility for full benefits or allowances, then such age for eligibility for full benefits as provided for in the social security act as amended shall be applicable in applying provisions of the coordinated plan.

36- Employees' Retirement System

[This page blank]

d. It is expressly provided that any person who participates in the coordinated plan shall be required as a condition of his participation in such plan to make available to the annuity and pension board of the employees' retirement system such information concerning social security benefits as the board shall deem pertinent. (*Par. d am. Ch. Ord. 332, File #67-355-a, July 25, 1967.*)

e. From and after December 31, 1966, there shall be no reduction in nor shall there be any offset to, the retirement allowance of any member of the coordinated plan who retires at any time subsequent to December 31, 1966, because of his receipt or eligibility to receive social security allowances or benefits. As to a member in the coordinated plan, who retires between January 1, 1966, and December 31, 1966, both dates inclusive, and who is eligible to receive or receives social security benefits, there shall be no reduction nor offset in his retirement allowance after December 31, 1966. This amendment has no application whatever to provisions of the employees' retirement act pertaining to the 82% maximum for those members who shall retire during the period from June 29, 1975 to December 28, 1975, and to the 85% maximum for those members who shall retire after December 28, 1975, as set forth in sub. 9. It is the intentment of this subsection that the retirement allowance of any member in the coordinated plan who retires on January 1, 1967, or any time thereafter, shall not be reduced nor shall it be offset in any manner because such member is or becomes eligible to receive or does receive Social Security benefits and that the social security offset hereinbefore provided for in the employees' retirement act is eliminated, further as to those members of the coordinated plan who retire at any time subsequent to December 31, 1965, but prior to January 1, 1967, no offset shall be applied effective January 1, 1967. (*Par. e am. Ch. Ord. 423, File #74-675-d, July 15, 1975.*)

f. Notwithstanding sub. 9, general members in the coordinated plan who retire on or after January 1, 1989, shall not receive a reduction in their service retirement allowance on account of social security benefits. Members in the coordinated plan who retire on or after January 1, 1989, shall not receive by way of a service retirement allowance, exclusive of social security benefits, a sum in excess of 70% of final average salary provided, however, that the application of this limitation shall not operate to

diminish that portion of a member's retirement allowance attributable to creditable service earned through December 30, 1988. (*Par. f. cr. File #891171, Sept. 28, 1989; eff. Dec. 17, 1989.*)

12. BOARD TO CERTIFY NUMBER OF TRANSFERS. The board shall certify to the director of the public employes social security fund, the number of persons who have qualified to be covered by each modification to be submitted to implement this section. (*Sub. 12 am. Ch. Ord. 332, File #67-355-a, July 25, 1967.*)

36-07. Re-examination of Disability Beneficiaries.

1. PERIODIC MEDICAL EXAMINATIONS. Once each year during the first 5 years following retirement of any disability beneficiary and once in every 3 year period thereafter, the board may require such beneficiary, if he has not attained the minimum service retirement age, to submit to a medical examination by a physician or physicians of or appointed by the medical council or the board. Should any such beneficiary refuse in any such year or period to undergo at least one such medical examination, his allowance may be discontinued until he consents to the examination; and should the refusal continue for one year, all rights in and to the allowance may be revoked by the board, in which event there shall be refunded to him at the time of the termination of his allowance a lump sum equal in amount to the difference between the amount of his accumulated contributions at the time of his retirement and the sum of the payments actually made to him during his disability retirement that is the actuarial equivalent of his accumulated contributions at retirement. However, the refund herein provided for shall only be payable if such member is eligible therefor under s. 36-05-6. (*Sub. 1 am. Ch. Ord. 375, File #71-1754, Dec. 7, 1971.*)

2. ADJUSTMENT OF ALLOWANCE.

a. In the event the board shall determine, based upon information received by it from the medical council or from other sources, that a disability beneficiary is able to engage in a gainful occupation which pays more than the difference between the current salary for the position held by such person at the time of retirement and the retirement allowance granted to him, in such instance the pension of such person shall be reduced by the amount of such excess earnings. If the earning capacity of

36-08 Employees' Retirement System

such person be later changed, then the amount of his pension may be modified, provided the new pension shall at no time exceed the amount of the pension granted at the time of his retirement. This provision shall not apply in the instance of a disability beneficiary having attained the age for service retirement.

b. Any person who was a member of the employees' retirement system and who had retired on a disability pension prior to the enactment of par. a, ch. ord. 307 passed July 14, 1964, which was granted under the provisions of this act, shall have his disability pension computed as provided for in s. 36-07-2-a of ch. ord. 338 commencing from and after January 1, 1968. (*Sub. 2 rn. to sub. 2-a, Ch. 338, File #63-2069-c, March 7, 1968. Sub 2-b cr. Ch. Ord. 338, File #63-2069-c, Mar. 7, 1968.*)

Stats., on or after May 3, 1988, be at any time in active service prior to attaining the minimum service retirement age, the disability retirement allowance shall cease, and he or she shall again become a member of the retirement system. Should a fireman retired on ordinary disability apply for and accept employment with the city or a city agency prior to attaining the minimum service retirement age, his or her disability retirement allowance shall cease and he or she shall become a member upon completion of a probationary period. Should a policeman retired on duty disability be appointed to a position in active service pursuant to s. 62.51, Wis. Stats., on or after May 3, 1988, payment of the duty disability retirement allowance shall be suspended during the period in which the person holds office pursuant to s. 62.51, Wis. Stats.; and thereafter, notwithstanding s. 36-05-3-c-1, the person shall receive a duty disability allowance during the period of the disability in an amount equal to 75% of the annual salary at the time of appointment pursuant to s. 62.51, Wis. Stats., for the position which the person held at the time of injury, increased by the percentage of across-the board management pay increases occurring after appointment pursuant to s. 62.51, Wis. Stats. For a person restored to membership under this subsection, any prior service certificate on the basis of which an

allowance was computed at the time of disability retirement shall be restored to full force and effect, and in addition, upon his subsequent retirement the person shall be credited with all his or her membership service on the basis of which the allowance was computed at the time of disability retirement, and all service credit to which, the person is entitled under s. 36-04-3. The investment counsel shall be liable to the fund for any imprudence in making such sales without prior approval of the board. Based on the period during which the losses were determined to be recovered, such amortization annually shall be charged against investment income before determining net income realized from investments. The normal contribution for the retirement fund for the preceding fiscal year shall be the growth in actuarial accrued liability expected as a result of service in that year for all members participating in the retirement fund reduced, but not below zero, by member contributions expected to be deposited in the retirement fund under sub. 7. a-2. Any difference between the actuarial accrued liability as defined in subd. 1, and the sum of the actuarially determined value of the assets of the retirement fund plus any unamortized bases established under this par. in prior valuations, shall be amortized over a period which will not exceed 30 years from the valuation date on which such difference is established; provided that as part of the valuation next following a fiscal year in which the city and city agency contributions are zero due to application of the 100% funded status limitation of this par. the actuary may eliminate any previously established amortization schedules and bases and shall recalculate a new "fresh-start" amortization schedule. Future payroll growth may be taken into account in the amortization process. (*Subd. 2 rc. File #942017, July 14, 1995; eff. Sept. 27, 1995. Subd. 2 rc. File #991585, April 11, 2000; eff. The actuarial contribution shall be based on separately calculated rates for policemen, firemen, and general city employees and shall be applicable for a 5-year period. The actuary shall, consistent with actuarial standards of practice, set the actuarial contribution rate at a percentage sufficient to fund the entire amount of the employers' share of the normal cost, to amortize any unfunded past service liability and to maintain the solvency of the combined fund to meet benefit obligations for retired lives.

h-2. Commencing with the contribution due on January 31, 2019, the actuary shall reset the actuarial contribution rate every 5 years in conjunction with a 5-year experience review of the employees' retirement system. 36-09. Management of Funds. The funds of the retirement system, which, when taken in the aggregate shall constitute a special trust fund to be held in reserve as provided in this act for the payment of benefits, shall be managed as follows:

1. INVESTMENT OF FUNDS. The board shall be the trustee of the several funds of the system and shall contract for investment management services. No one shall be selected as investment manager who does not have 5 years continuous experience acting as investment manager or investment adviser in recognized fields of investments for retirement systems of comparable stature. The board shall exercise prudence in selecting the investment manager, but the exercise of prudence by the board shall not relieve the board from all liability and responsibility with respect to investment of the funds of the system. The board shall reserve the right to terminate any contract for investment management services upon reasonable notice.

a. The several funds of the system shall be invested in accordance with the requirements of ss. 40.03(1)(n) and 62.63 (3), Wis. Stats. Not more than 25% of the assets of the system as measured by their cost as set forth in the last official report shall be invested in accordance with s. 40.03(1)(n), Wis. Stats. Not more than 70% of total assets as measured by their cost shall be invested in stocks of corporations.

b. The board shall establish written objectives and guidelines which shall govern the investment manager selected by the board. The investment manager shall have authority to purchase legal investments and to sell or exchange legal investments in accordance with the written objectives and guidelines established by the board for this purpose. The board shall evaluate the performance of the investment manager on a systematic and regularly

scheduled basis. The board shall have the full power at its sole discretion to contract for an independent performance evaluation of the investment manager.

c. All investments shall be made by the investment manager and nothing contained herein shall prohibit the board from retaining 2 or more investment managers to perform the duties and assume the responsibilities herein provided for and the board may determine the amount of the whole fund to be allocated for investment purposes among such investment managers where more than one investment manager has been selected. However, any investment manager selected shall be required as a condition of his or her selection to meet and satisfy all of the requirements and qualifications specified herein and provided for, for investment manager.

d. Prudent Investor Rule. Except as otherwise specifically provided in this chapter, the board and a person under contract to the employees' retirement system who invests and manages trust assets owes a duty to comply with the prudent investor rule.

d-1. Standard of Care; Portfolio Strategy; Risk and Return Objectives. The board and a person under contract to the employees' retirement system to invest and manage trust assets shall invest and manage assets as a prudent investor would by considering the purposes, terms, distribution requirements and other circumstances of the trust. In satisfying this standard, the board and such person shall exercise reasonable care, skill and caution. Investment and management decisions respecting individual investment assets must be evaluated not in isolation, but in the context of the trust portfolio as a whole and as part of an overall investment strategy having risk and return objectives reasonably suited to the trust. A reasonable effort shall be made to verify facts relevant to the investment and management of trust assets. Assets may be invested in any kind of property or type of investment consistent with the standards of this subd. A board member or a person under contract to the employees' retirement system who invests and manages trust assets who has special skills or expertise or is named in reliance upon his or her representation that he or she has special skills or expertise has a duty to use those special skills or expertise.

d-2. **Diversification.** The board and person under contract to the employees' retirement system to invest and manage trust assets shall diversify the investment of the trust unless the board reasonably determines that because of the special circumstances, the purposes of the trust are better served without diversifying.

d-3. **Loyalty.** The board and a person under contract with the employees' retirement system to invest and manage trust assets shall invest and manage the trust assets solely in the interests of the beneficiaries.

d-4. **Investment Costs.** In investing and managing trust assets, the board and a person under contract to the employees' retirement system to invest and manage trust assets may only incur costs that are appropriate and reasonable in relation to the assets for the purposes of the trust and the skills of the trustee.

d-5. **Delegation.** The board has a duty to personally perform the responsibilities of trusteeship except as those responsibilities are by this section delegated to others or except as a prudent person might delegate those responsibilities to others. In deciding whether and to whom and in what manner to delegate fiduciary authority in the administration of the trust and thereafter supervising agents, the board is under a duty to the beneficiaries to exercise fiduciary discretion and to act as a prudent person would in similar circumstances. In performing a delegated function, a person under contract to the employees' retirement system to invest or manage funds owes a duty to the trust to exercise reasonable care to comply with the terms of the delegation. The board shall not be liable to the beneficiaries or to the trust for the decisions or actions of a person to whom a function was delegated provided that the board shall have used reasonable care, skill and caution in selecting the person; establishing the scope and terms of the delegation consistent with the purposes and terms of the trust; and periodically reviewing the person's actions in order to monitor performance in compliance with the terms of delegation.

d-6. **Reviewing Compliance.** Compliance with the prudent investor rule is determined in light of the facts and circumstances existing at the time of the decision or action and not by hindsight.

d-7. The text and comments to the Uniform Prudent Investor Act promulgated by the National Conference of Commissioners on Uniform State Laws (1994) and the Restatement

of Trusts 3d: Prudent Investor Rule (1992) are interpretive of the provisions of this par.

d-8. Nothing in this par. prevents the board and the employees' retirement system from requiring indemnification or insurance from a contractor, nor does anything in this par. preclude the board and the employees' retirement system from obtaining indemnification or insurance for their activities.

2. TRANSFERS OF PROPERTY; REINVESTMENT OF FUNDS. The board shall have full power to make all transfers and conveyances of any securities or property in which it may from time to time invest and reinvest the several funds of the system or any part thereof, and no purchaser or purchasers shall be responsible for the application of the purchase money or other avails received by or for said board.

3. INTEREST. The board annually shall credit regular interest to the members' accounts and on the mean amount for the preceding year in each of the other funds with the exception of the expense fund. The amounts so allowed shall be due and payable to said funds, and shall be annually credited thereto by the board from interest and other earnings on the moneys of the retirement system. Any additional amount required to meet the interest on the funds of the retirement system shall be paid by the city and city agencies, and any excess of earnings over such amount required shall be deductible from the amounts to be contributed by the city and city agencies except for the firemen and policemen's survivorship fund. Regular interest shall mean such rate, compounded annually, as shall be determined by the board on the basis of interest earnings of the system for the preceding year and of the probable earnings to be made, in the judgment of the board, during the immediate future such rate to be limited to a minimum of 3% and a maximum of 4%.

4. INTEREST IN OR USE OF FUND. Except as herein provided no member of the board and no employee of the board shall have any interest, direct or indirect, in the gains or profits of any investment made by the board. No member of the board or employee thereof shall directly or indirectly, for himself or as an agent, in any manner use the funds or deposits of the retirement system except to make such current and necessary payments as are authorized by the board; nor shall any member or employee of the board become an endorser or surety or

36-09-5 Employees' Retirement System

In any manner an obligor for moneys loaned by or borrowed from the board.

5. EFFECTIVE DATE. Wherever used in this act the term "effective date of the retirement system" shall be construed to mean January 1, 1938, and the term "effective date of the act" shall refer to the effective date when the legislature made such provision effective in the event of legislation enacted by the Wisconsin legislature, and in the event of a charter ordinance the effective date when such amendment came into effect as a result of common council enactment of the charter ordinance.

6. POWERS AND PRIVILEGES OF RETIREMENT SYSTEM. The retirement system shall have all of the powers and privileges of a corporation, as enumerated in chs. 180 and 182, Wis. Stats., including the power to contract with its members, and shall be known as the "employees' retirement system of the City of Milwaukee," and by such name shall all of its business be transacted. All of its funds shall be invested, or held in the name of the employees' retirement system, except that investment in loans, securities or other investments may be in the name of or transferred to nominees of one or more banks or trust companies under a custodial agreement between the board and each such bank or trust company. The custodial agreement may provide that loans, securities or other investments in the name of or transferred to nominees of one or more banks or trust companies may be loaned by the custodian with suitable collateral in an amount not less than 102% of market value. All its cash and securities and other property shall be held in trust for the purpose for which received. Revenue from security lending shall be used to offset custodial fees and any excess revenue from security lending shall be deposited in the expense fund established under s. 36-08-3. Any incorrect spelling of name of the system shall not be deemed to invalidate any document or affect any transaction of the system and for purposes of action under this act shall be without consequence or effect.

7. LIMITATIONS. All funds of the system shall be invested prudently and in accordance with the requirements of the law and of this act and no funds whatsoever of the pension system may be either pledged, deposited, or used in any form or in any manner whatsoever to provide either credits or support or act as deposit for or be used as collateral for any banking, financing, borrowing or other

related transaction whatsoever. The board may contract for investment or custodial services or both with a state investment board or with a nationally recognized banking or investment institution. It is intended that this provision shall be given its most liberal construction which will prevent and preclude the use of funds for the purposes heretofore enumerated. This provision is deemed to be contractual and a vested right of each and every member and beneficiary of the system.

8. COMPLIANCE FOR GROUP TRUST PARTICIPATION. a. The board may, unless restricted by law, transfer all or any portion of the assets of the retirement system to a collective or common group trust, as permitted under Revenue Ruling 81-100, Revenue Ruling 2011-1, and Revenue Ruling 2014-24 ,or subsequent guidance, that is operated or maintained exclusively for the commingling and collective investment of monies, provided that the funds in the group trust consist exclusively of trust assets held under plans qualified under s. 401(a) of the Internal Revenue Code, individual retirement accounts that are exempt under s. 408(e) of the Internal Revenue Code, eligible governmental plans that meet the requirements of s. 457(b) of the Internal Revenue Code, and governmental plans under s. 401(a)(24) of the Internal Revenue Code. For this purpose, a trust includes a custodial account or separate tax-favored account maintained by an insurance company that is treated as a trust under s. 401(f) or s. 457(g)(3) of the Internal Revenue Code.

b. Any collective or common group trust to which assets of the retirement system are transferred pursuant to par. a shall be adopted by the board as part of the retirement system by executing appropriate participation, adoption agreements, or trust agreements with the group trust's trustee.

c. The separate account maintained by the group trust for the retirement system pursuant to par. a shall not be used for, or diverted to, any purpose other than for the exclusive benefit of the members and beneficiaries of the retirement system.

d. For purposes of valuation, the value of the separate account maintained by the group trust for the retirement system shall be the fair market value of the portion of the group trust held for the retirement system, determined in accordance with generally recognized valuation procedures.

36-10. Exemption from Taxation, Execution and Assignment. 1. All moneys and assets of any retirement system of any city of the first class and all benefits and allowances and every portion thereof, both before and after payment to any beneficiary, granted under any such retirement system shall be exempt from any state, county, or municipal tax or from attachment or garnishment process, and shall not be seized, taken, detained, or levied upon by virtue of any execution, or any process or proceeding whatsoever issued out of or by any court of this state, for the payment and ratification in whole or in part of any debt, claim, damage, demand, or judgment against any member of or beneficiary under any such retirement system, and no member of or beneficiary under any such retirement system shall have any right to assign his benefit or allowance, or any part thereof, either by way of mortgage or otherwise; however, this prohibition shall not apply to assignments made for the payment of insurance premiums. The exemption from taxation contained herein shall not apply with respect to any tax on income.

2. a. Notwithstanding sub. 1, and for purposes of compliance with section 401(a)(31) of the Internal Revenue Code, this section applies notwithstanding any contrary provision or retirement law that would otherwise limit an election by a distributee, as defined in par. b, to make a rollover. A distributee may elect, at the time and in the manner prescribed by the board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

b. For purposes of this subsection:
b-1. "Direct rollover" means a payment by the plan to the eligible retirement plan specified by the distributee.

b-2. "Distributee" means a member. It also includes the member's surviving spouse. Effective January 1, 2010, a distributee further includes a nonspouse beneficiary who is a designated beneficiary as defined by section 401(a)(9)(E) of the Internal Revenue Code. However, a nonspouse beneficiary may only make a direct rollover to an individual retirement account or individual retirement annuity established for the purpose of receiving the distribution, and the account or annuity will be treated as an "inherited" individual retirement account or annuity.

b-3. "Eligible retirement plan" means any of the following that accepts the distributee's eligible rollover distribution:

b-3-a. Effective January 1, 2002, an individual retirement account described in s. 408(a) of the Internal Revenue Code.

b-3-b. Effective January 1, 2002, an individual retirement annuity described in s. 408(b) of the Internal Revenue Code.

b-3-c. Effective January 1, 2002, an annuity plan described in s. 403(a) of the Internal Revenue Code.

b-3-d. A qualified trust described in s. 401(a) of the Internal Revenue Code.

b-3-e. Effective January 1, 2002, an annuity contract described in s. 403(b) of the Internal Revenue Code.

b-3-f. Effective January 1, 2002, a plan eligible under s. 457(b) of the Internal Revenue Code that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or a political subdivision of a state that agrees to separately account for amounts transferred into that plan from the retirement system.

b-3-g. Effective January 1, 2008, a Roth IRA described in s. 408A of the Internal Revenue Code.

b-4. "Eligible rollover distribution" means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or the life expectancy) of the distributee or the joint

36-10-3 Employees' Retirement System

lives, or joint life expectancies, of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under section 401(a)(9) of the Internal Revenue Code; the portion of any distribution that is not includible in gross income; and any other distribution which the Internal Revenue Service does not consider eligible for rollover treatment, such as certain corrective distributions necessary to comply with the provisions of section 415 of the Internal Revenue Code or any distribution that is reasonably expected to total less than \$200 during the year. Effective January 1, 2002, the definition of eligible rollover distribution also includes a distribution to a surviving spouse. Also effective January 1, 2002, a portion of a distribution will not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only:

b-4-a. To an individual retirement account or annuity described in section 408(a) or (b) of the Internal Revenue Code or to a qualified defined contribution plan described in section 401(a) of the Internal Revenue Code that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible;

b-4-b. On or after January 1, 2007, to a qualified defined benefit plan described in section 401(a) of the Internal Revenue Code or to an annuity contract described in section 403(b) of the Internal Revenue Code, that agrees to separately account for amounts so transferred (and earnings thereon), including separately accounting for the portion of the distribution that is includible in gross income and the portion of the distribution that is not so includible; or

b-4-c. On or after January 1, 2008, to a Roth IRA described in section 408A of the Internal Revenue Code.

3. If on or after March 28, 2005, the retirement system provides for mandatory distribution of eligible rollover distributions with a present value greater than \$1,000, and if a member does not elect to have such distribution paid directly to an eligible retirement plan specified by the member in a direct rollover or to receive the distribution directly, the system will

pay the distribution in a direct rollover to an individual retirement plan designated by the board of trustees in accordance with section 401(a)(31)(B) of the Internal Revenue Code and IRS Notice 2005-5.

4. Notwithstanding sub. 1., a beneficiary who is a public safety officer as defined in s. 1204(9)(A) of the Omnibus Crime Control and Safe Streets Act of 1968, has separated from service with all participating employers due to disability or the attainment of normal retirement age and is entitled to a service retirement allowance or a disability retirement allowance, may elect that an amount be deducted from his or her benefit payments to pay the premiums for coverage of the beneficiary, the beneficiary's spouse or the beneficiary's dependents (as defined in s. 152 of the Internal Revenue Code) under an accident or health insurance plan or qualified long-term care insurance contract (as defined in s. 7702B(b) of the Internal Revenue Code). The employees' retirement system shall pay any amounts withheld from a beneficiary's benefit payments under this subsection directly to the provider of the accident or health insurance plan or qualified long-term care insurance contract under such plan or contract. The beneficiary shall designate the annual amount to be deducted from his or her benefit payments, which amount shall not exceed the lesser of either \$3,000, reduced by any amounts deducted from the beneficiary's benefit for this purpose under any other eligible retirement plan as defined in s. 402(c)(8)(B) of the Internal Revenue Code, or the amount required to pay such premiums. Elections pursuant to this subsection shall be made in a time, manner, and subject to any limitations established by the annuity and pension board and may only be changed in accordance with rules established by the board. 36-11. Protection Against Fraud and Elimination of Errors. 1. PROTECTION AGAINST FRAUD. Any person who shall knowingly make any false statement or shall falsify or permit to be falsified any record or records of this retirement system in any attempt to defraud such system as a result of such act shall be guilty of a misdemeanor, and shall be punishable therefore under the laws of the state of Wisconsin.

2. ELIMINATION OF ERRORS. Should any change or error in the records result in any member or beneficiary receiving from the retirement system more or less than he or she would have been entitled to receive had the records been correct, the board shall correct such error, and as far as practicable shall adjust the payments in such manner that the actuarial equivalent of the benefit to which such member or beneficiary was correctly entitled shall be paid. (s. 36-11 am. Ch. Ord. 332 File #67-355-a, July 25, 1967. s. 36-11 rc. File #020065, May 14, 2002; eff. July 31, 2002.)

36-12. Limitations on Payment of Benefit. Any amounts which may be paid or payable under the provisions of any state worker's compensation, or similar law, to a member or to the dependents of a member on account of any disability shall be offset against and payment in lieu of any benefits payable out of funds provided by the city under the provisions of this act on account of the same disability. Within 30 days of notification by the board, any member may elect to offset the full amount of a lump sum award of amounts payable in fulfillment of the obligation to offset amounts payable. In case the present value of the total commuted benefits under said worker's compensation or similar law is less than the reserve on the benefits otherwise payable from funds provided by the city under this act, then the present value of the commuted payments shall be deducted from the reserve and such benefits as may be provided by the reserve so reduced shall be payable under the provisions of this act. Upon recommendation of the actuary, the board may approve separate tables for purposes of computing present values under this section. The board may permit a member whose retirement allowance is being offset by amounts payable to satisfy the offset with a lump sum payment, provided that any costs of the actuary in calculating the amount of the lump sum

payment are paid by the member. Within 30 days of notification by the board, any member who received an award of amounts payable on or before January 1, 1995 shall have the option of electing to pay the present value of such award or of electing to have the offset recalculated using separate tables developed for this purpose. Notwithstanding the foregoing, amounts paid or payable as social security disability benefits shall not be offset against the benefits payable by the city under the provisions of this act on account of the same disability to members in the coordinated plan. (S. 36-12 am. Ch. Ord. 375, File #71-1754, Dec. 7, 1971. 36-12 am. File #941597, Feb. 14, 1995; eff. May 2, 1995. 36-12 am. File #950767, Oct. 17, 1995; eff. Jan. 2, 1996. 36-12 am. 36-13. Contractual Benefits; Miscellaneous Provisions. 1. LEGISLATIVE POLICY. Employees have been attracted to and have remained in the public service in cities of the first class despite the prevailing higher wages in other employments because of the deferred compensation for their services promised to them in the form of retirement annuities and death benefits in the retirement system to which they have been admitted as contributing members. The purpose of this act is to strengthen the public service in cities of the first class by establishing the security of such retirement and death benefits.

2. CONTRACTS TO ASSURE BENEFITS. The benefits of members, whether employees in service or retired as beneficiaries, and of beneficiaries of deceased members in the retirement system created by chapter 396, laws of 1937, as amended, shall be assured by benefit contracts as herein provided.

a. Every such member and beneficiary shall be deemed to have accepted the provisions of this act and shall thereby have a benefit contract in said retirement system of which he is such member or beneficiary as of July 30, 1947, unless, within period of 30 days thereafter, he files with the board administering the system a written notice electing that this subsection shall not apply to him. The annuities and all other benefits in the amounts and upon the terms and conditions and in all other respects as provided under this act and as amended shall be obligations of such benefit contract on the part of the city and of the board administering the system and each member and beneficiary having such a benefit contract shall

36-13-2-b Employees' Retirement System

have a vested right to such annuities and other benefits and they shall not be diminished or impaired by subsequent legislation or by any other means without his consent.

b. The board administering the system may issue to each member and beneficiary who shall have a benefit contract under this act a written or printed contract but the contract shall be in full force and effect whether or not any written or printed evidence thereof shall be so issued.

c. Any person who shall become a member of this retirement system after July 30, 1947, except persons who shall become members of this retirement system on or after March 1, 1985, as a result of being employed as firemen, and persons who shall become members of this retirement system on or after August 1, 1985, as a result of being employed as policemen, shall have a similar benefit contract and vested right in the annuities and all other benefits in the amounts and on the terms and conditions and in all other respects as provided in the law under which the retirement system was established as such law shall have been amended and be in effect at the date of commencement of his membership and as subsequently amended. Every person who shall become a member of this retirement system on or after March 1, 1985, as a result of being employed as a fireman, and every person who shall become a member of this retirement system on or after August 1, 1985, as a result of being employed as a policeman shall have a similar benefit contract and vested right in the annuities and all other benefits in the amounts and on the terms and conditions and in all other respects as provided in the law under which the retirement system was established as such law shall have been amended and be in effect at the date of the commencement of his membership. *(Par. c am. d. Contributions which are made to this fund under this act by the city or by an agency which is covered by this act, as contributions for members of this system shall not in any manner whatsoever affect, alter or impair any member's rights, benefits, or allowances, to which such member under this act is or may be entitled; neither shall the fact that such contributions are made, grant or confer upon such city or agency covered by this act,

any additional rights, interest or authority in such contributions so made or in the management or supervision of this system or in the fund thereof. Contractual and vested rights, benefits or allowances which either have been or are declared and expressed in this act continue without impairment or reduction in any manner whatsoever, and such rights, benefits or allowances shall not be or are not in any manner affected, modified or diminished as a result of such contributions made by the city or an agency covered by this act; nor can such rights, benefits or allowances be altered, modified or impaired so that any diminution occurs in any member's rights, benefits or allowances. *(Par. d cr. Ch. Ord. 370, File #74-239, May 24, 1971.)*

e. No rights, benefits or allowances whatsoever created under or pursuant to the provisions of the employees' retirement act or as amended heretofore or hereafter, nor creditable, nor prior service, nor credits granted, either recognized or allowed to such member, or retired member or beneficiary, nor any rights or benefits allowed or allowances granted by virtue of any minimum or maximum retirement provisions or requirements, nor any minimum or maximum retirement provisions of this act shall in any manner whatsoever, or in any form, either be altered, modified, reduced, changed, cancelled, revoked or impaired, now or hereafter to the disadvantage or loss of such member or retired member or beneficiary as to his pension rights, payments or retirement allowances, and no action shall be taken nor provision enacted which in any manner diminishes, reduces or denies to such member or retired member or beneficiary any of his or her retirement allowances, benefits or rights derived from or under any section of this act or rule promulgated by the board as authorized by this act or as heretofore provided. No application nor interpretation of the provisions of this act or rule of the board shall be either effected, instituted or promulgated retroactively or applied in such a manner as to such member, retired member or beneficiary so that it results in any form, in the diminution, loss or partial loss or reduction of any credit, benefit or retirement allowance to which such person was or is entitled because of prior interpretation or application of the provisions of this act or rule whether general or specific. The protection, safeguarding and the security of the rights, benefits and allowances expressed in this subsection are and shall be

(Par. a am. Ch. Ord. 382, File #71-2300, Mar. 21, 1972.)

b. The payment of all pensions, annuities, retirement allowances, refunds and other benefits granted under the provisions of this act shall be deemed deferred pay of such member, and the payment of all pensions, annuities, retirement allowances, refunds and other benefits granted under the provisions of this act and all expenses in connection with the administration and operation of the retirement system are made obligations of the city and city agencies.

c. The legal title to the funds created by this act shall be in the retirement system and shall be held by it in trust for the purposes for which they were contributed under this act and no amendment to the act shall reduce the benefits of any member below those which can be provided by the reserves of the system held in his account, nor shall the reserves held in his account, nor shall the reserves held on account of any member be diluted by the addition of new members or annuitants receiving benefits of any members.

Ch. Ord. 553, File #85-643, July 30, 1985; eff. Oct. 15, 1985. Par. a-0 am. Ch. Ord. 560, File #86-807, Sept. 23, 1986; eff. Dec. 18, 1986. Par. a-0 am. File #892334, April 9, 1990; eff. June 26, 1990.)

a-1. The formula of the retirement system to which he has transferred in effect at the time of his retirement shall be used.

a-2. The final average salary of such person in the retirement system to which he has transferred shall be the base to which is applied the formula.

a-3. The aggregate creditable service including all service credit shall be the number of years or fraction of years of such service allowable under the respective provisions of both the county or city retirement system, as the case may be, together with the years of service or part thereof in the retirement system to which such person transferred.

a-4. The retirement system from which such person transferred shall contribute toward the service retirement allowance computed as hereinbefore set forth as follows: Such contribution shall be prorated on the basis of the total service earned by virtue of the service in the system from which the member transferred to the total service as provided for in subd. 3. (Subd. 4 am. Ch. Ord. 560, File #86-807, Sept. 23, 1986; eff. Dec. 8, 1986.)

a-5. In the event an entire department or a substantial number of employees in a department are transferred from city to county, or vice versa, then under such circumstances the method of contribution by the retirement system from which such employee transferred shall be handled at the time of transfer on a

basis satisfactory to both systems and the method of contribution by the respective pension systems may be altered in that event, but this shall not affect the other provisions hereof.

b. Transfer From County. Any person who is transferred from the county system to the city system under this section and whose retirement occurs within 5 years of the date of transfer shall receive an allowance on account of his service prior to the date of transfer which shall not be greater than the allowance he would have received on account of his service to the date of transfer if he had remained a member of the system from which he transferred. He shall also be entitled to and receive an allowance on account of his service subsequent to such transfer. (Par. b am. Ch. Ord. 375, File #71-1754, Dec. 7, 1971.)

c. Transfer To County. When any person who has been a member of the city system transfers to the county system and at the time of such transfer to that system, such member has less than one year of creditable service, his membership in the city system shall be terminated as of the date of transfer, and there shall be refunded to such person all sums contributed by him to the fund during the period of time he was in active city service.

d. Payments and Accounts. The liability of the city system for such credits and payments because of former members of the city system who shall have become members of the county system shall be taken into account by the board in its valuations and determinations of contributions to be made to the funds of the city system.

e. Transfer of Credits. Whenever any city employee who is a member of this system or any other system to which the city is a contributor desires to change his city employment, and such city employment is approved by the proper city officers, the credits which such person has accrued from the pension system from which he is transferring shall be transferred in full to this system, and such person shall be granted under this system credits in the same manner as if he had been a member of this system from the inception of his city service. An actuarial determination shall be made of any deficiency of credits, and the city and the employee shall be required to contribute to this system any difference in amount which shall be found by the actuarial determination to be required in order to make such person's account actuarially sound.

f. Termination of Membership. Any time after December 1, 1961, when an employee of the city, who is also a member of this system, transfers to employment in the county or becomes a member of the employees' retirement system of Milwaukee county because of court reorganization as provided for by state act, he may withdraw his contributions from this system provided that such member shall execute a waiver and release and such other forms as shall be determined by the board, and, following the return of contributions to such employee, his membership shall be terminated and such employee shall have no right or interest whatsoever in any pension, annuity or benefit of the system nor any other right or privilege whatsoever as a result of his membership in this system. Such election shall also terminate any right or interest of such member to any transfer by the city or by this system of accruals, credits, rights or benefits to any other retirement system, and such employee shall be deemed to waive any rights as to membership or restoration thereof in this system for the period of time prior to refund of his contributions.

g. Any member of the city or county employees' retirement system, who separated from service after having elected deferred retirement benefits, who thereafter became a member under the other system within 60 days of separation from the first system and who separated from the other system without having first received benefits from the first system, shall have service under both systems included for purposes of determining final average salary for retirement allowance purposes under each system and shall have creditable service under the first system included in determining whether the vesting requirements for retirement purposes of the other system have been met. This paragraph shall be the exclusive reciprocity for all members separating from the first system on or after June 1, 1991. *(Par. g cr. File #911897, passed Feb. 11, 1992. This file provided that par. g would become effective when Milwaukee county passed an ordinance identical in all respects to par. g. On June 27, 1995, the common council passed File #950326, effective Sept. 13, 1995, which repealed the contingency placed on par. g with respect to Milwaukee county action.)*

Whenever the state of Wisconsin retirement system certifies that a member of this retirement system has service credit as a member of the retirement system of the State of Wisconsin, he shall receive credit therefor in computing his retirement allowance at a specific rate of 1.6% of his final average salary for each year or part thereof. The retirement allowance upon his retirement under the provisions of this act shall be reduced by the maximum amount which such member is entitled to receive as a retirement allowance from the state retirement system. If the member is not entitled to receive a retirement allowance from the state retirement system because of an election he has made on or after March 11, 1977, his retirement allowance shall nevertheless be reduced by the maximum amount to which he would have been entitled from the state retirement system had such election not been made. *(Par. g am.
