

**Statement of Alderwoman Milele A. Coggs
September 9, 2009**

I am glad that Milwaukee police have likely found the man responsible for the murders of at least eight women stretching back 23 years, and I look forward to seeing the case or cases against him fully adjudicated. Some of the victims were residents of the 6th District, and they were the daughters, sisters, aunts and mothers of loved ones who continue to live in the district.

It is for the loved ones left to mourn that I pray the arrest may bring closure to them and their families.
