

Statement of Alderwoman Milele A. Coggs
May 22, 2009

The search for the serial killer who has murdered at least seven women stretching back 23 years has captured the attention of Milwaukee residents, and it is especially relevant for residents of the 6th District, as some of the victims were district residents whose loved ones live here as always. I urge anyone with even the smallest tip or possible lead to call the police hotline that has been established – (414) 935-1212.

I pray that the man who committed these crimes is caught soon, so that the families of the victims can have some closure.
