Ald. José G. Pérez  
(414) 286-3762

## **Residents asked to provide input on Forest Home Library proposals**

With plans in place to complete construction of a new Forest Home branch of the Milwaukee Public Library by 2017, members of the public will have the opportunity Tuesday to view proposals and offer input.

**Alderman José G. Pérez** urges residents who are interested to attend the neighborhood meeting, scheduled for **Tuesday, December 2 at 5:30 p.m. in the Forest Home Library, 1432 W. Forest Home Ave.** Developer teams will present their proposals to the community and the MPL Building and Development Committee. The committee may select a project to recommend to the Library Board.

- The developer team of Cardinal Capital and Journey House propose a mixed-use development with 51 units affordable housing (24 for youth aging out of foster care), a 16,500 square-foot library and dedicated on-site parking for library users. The project would involve tearing down a Dental Associates building and rebuilding on the site located at 1135 S. Cesar Chavez Dr.
- The developer team of Gorman USA, Mitchell Investment Properties and VJS Construction propose a mixed-use development with 33 units of affordable housing, a 15,000 square-foot library and dedicated on-site parking for library users through the renovation of the “Hills Building” at 930 W. Mitchell St.

Residents are also invited to complete a survey and learn more online at [www.mpl.org/about/library\\_development.php](http://www.mpl.org/about/library_development.php). The survey and proposal summaries are available in English and in Spanish.
