## **MEDIA ADVISORY**

# **Engine Conference celebrates local manufacturing**

**Alderman Cavalier Johnson** of the Milwaukee Common Council invites the public to attend the inaugural **Engine: A Conference for Makers & Manufacturers** from **Sunday, October 2 to Friday, October 7**. The program connects residents, employees and employers of the Havenwoods neighborhood to one another, the community's greatest assets and to the vast offerings of the maker-to-manufacturer movement.

"This event is a perfect way to celebrate Wisconsin's Manufacturing Month," Alderman Johnson said. "Milwaukee is a city built on manufacturing, and I'm confident that efforts like this can help propel our city to the next wave of this industry."

This event is presented by The Havenwoods Economic Development Corp., with support from NEWaukee. For more information on the event or to RSVP for specific programs, please visit [www.theenginewi.com](http://www.theenginewi.com).
