Ald. Russell W. Stamper, II
(414) 286-2659

Legacy Lofts ground breaking event

Alderman Russell W. Stamper, II invites the public to join the **groundbreaking** of the **Legacy Lofts** **TOMORROW Wednesday, November, 8** from **2 to 4 p.m. at 1500 W. North Ave.**

Local officials, community leaders, partners, and the development team will be at the event celebrating this momentous occasion. Legacy Lofts is a \$13.9 million project to convert the three-story historic Blommer Ice Cream Factory and a neighboring site into 64 units of mixed-income apartment units. The factory has been vacant for more than 20 years. The project also includes street-level commercial space for area businesses.

Alderman Stamper says, “This is a wonderful project that will revitalize the neighborhood. Not only does it provide needed housing and office space, it is also re-developing a site that has been vacant for decades. This project defines the true definition of team work. Thank you to all the partners involved and I encourage the community to come out and celebrate.”

The project received Federal Historic Tax Credit Equity (HTC), Low Income Housing Tax Credits (LIHTC), tax increment financing, and HOME fund financing.

The media is invited to attend the event tomorrow November, 8.
