## **Council stands together against intolerance**

### **Statement of Alderman Russell W. Stamper, II January 17, 2018**

Today the Common Council unanimously took a stance against the unacceptable intolerance and behavior exhibited by American Sewer Services. The Council approved an agreement the company signed with the commissioner of the Department of Public Works that terminates one contract, rejects the company's bid on an un-awarded contract (it also prohibits American Sewer Services from rebidding on the either of these contracts), and stipulates that the company will not contest any provision of the agreement.

Today we sent a strong and unified message that the residents of this great city will be respected by hired contractors or severe consequences will be dealt swiftly. Going forward all businesses partnering with and/or working for the city will be expected to exude tolerance and respect for our city and our residents.

I thank my colleagues for their strong support, and I also want to extend my gratitude to all of the co-sponsors of this important file.
