Marquette Basketball honors to be bestowed during special presentation at 4 p.m. today

Common Council President Ashanti Hamilton and **Alderman Robert J. Bauman** will present Common Council commendatory resolutions to Big East Conference Player of the Year honorees **Markus Howard** and **Natisha Hiedeman**, as well as the Big East Champion **Marquette University Women's Basketball Team** during a special presentation today on the Marquette University campus.

"It is extremely rare for a Division I program to have both the reigning men's and women's conference Player of the Year award winners leading their teams into the postseason, but that's exactly what we had at Marquette during March Madness this year," President Hamilton said. "And the MU Women's Team had a truly incredible conference championship season with honors in several areas and for several members."

"Milwaukee is proud of their example and their hard work toward excellence, and we look forward to recognizing them today at the AI," he said.
