Road reconstruction project begins on North 60th Street

Beginning today (Monday, May 4) the Department of Public Works is tackling the reconstruction of N. 60th Street from W. Hampton Ave. to W. Capitol Drive. The project will be split into two stages and during construction one lane of traffic will be maintained in each direction. The majority of the project is scheduled to be complete in October 2020 with landscape and electrical work planned in 2021.

“I’m thrilled to see reconstruction begin on North 60th Street,” said **Common Council President Cavalier Johnson**. “While this project is underway I encourage residents to plan accordingly, drive safely and abide by all posted signs that may restrict on-street parking.”

The project will include updating street lighting and traffic signs, replacing the bridge deck over Lincoln Creek, and a bike lane in each direction. This project will affect the MCTS BlueLine & Route 76 (via N. 60th) bus service. Updates can be found at www.ridemcts.com.

“I want to thank everyone who is involved in getting this project going,” said **Alderman Khalif J. Rainey**. “This reconstruction project was needed, and I look forward to seeing the finished product toward the end of the year.”

More info on the project can be found at:
