Public Safety & Health Committee to discuss impact of COVID-19 on communities of color TOMORROW

Tomorrow, the Public Safety & Health Committee will hear a communication file from the Milwaukee Health Department relating to the effect of and the City's response to the COVID-19 pandemic within communities of color. File #191935 is sponsored by **Alderman Milele A. Coggs**.

“Communities of color in Milwaukee have continued to see a greater negative impact in terms of health outcomes compared to other populations in the city throughout the COVID-19 pandemic,” said Alderman Coggs. “I look forward to having a public discussion with the Health Department about what the impact has been, what is being done to reduce the disparate impact on communities of color, and what will be done in the future as we continue to try and curb the impact of this virus.”

The regularly scheduled meeting of the Public Safety & Health Committee will start at 9 a.m. **TOMORROW - Thursday, May 14**.

The meeting will be televised live on the City Channel (channel 25 on Spectrum Cable and channel 99 on AT&T U-Verse in the City of Milwaukee) and via streaming video on the city website at city.milwaukee.gov/Channel25.
