

**MARINA DIMITRIJEVIC**  
ALDERWOMAN, 14TH DISTRICT

## Honored to be named Chair of Public Safety and Health Committee

### **Statement of Alderwoman Marina Dimitrijevic April 28, 2020**

I am honored that Council President Cavalier Johnson appointed me today as Chair of the Public Safety and Health Committee.

I'm excited to use my 16 years of legislative experience to get to work to improve the health and safety of our city. As a mother, health and safety are on my mind every day especially during the COVID-19 pandemic.

As Chair, I plan to prioritize our city's response and relief efforts to COVID-19. The racial disparities in illnesses and deaths in our city are unacceptable and we must do more. My goal is to reach elimination with 100 percent testing in our city combined with an aggressive contact tracing program. We must properly allocate resources and partner with private medical systems to strengthen our health department.

We are in this together and I want Milwaukee to be the safest and healthiest city in our state.
