Public Meeting regarding Bay View Neighborhood Plan set for Sept. 23

The City of Milwaukee's Department of City Development is kicking off a neighborhood plan for Bay View to involve residents, business owners, and other stakeholders around a variety of important issues including development and land use, housing affordability, historic preservation, neighborhood beautification and local business support. The goal is to ensure Bay View continues to be a unique and desirable place to live, work and play in Milwaukee. 14th District **Alderman Marina Dimitrijevic** is inviting residents to attend the first public meeting regarding the plan on Thursday, September 23 at 6 p.m.

"Our current strategic plan for the area is more than a decade old and so much has changed here. We are at a crossroads in Bay View, and have an opportunity to be the architects for our future and reimagine our public and private spaces. By planning together we can lead by sharing what we want to see here rather than what we do not. I invite everyone to participate in this unique, inclusive process to build a vision for our future together," said Ald. Dimitrijevic.

The virtual meeting can be accessed by visiting tinyurl.com/f3vh7t49 and those interested in attending are asked to pre-register. Residents can also stay up to date on all of the project news by visiting <https://engagemke.com/BayView>.
