## **New healthcare partnership, clinic site announced to help better serve the community**

On Friday, April 25, the C.H. Mason Health Clinic and Outreach Community Health Centers (OCHC) announced a new partnership and clinic site unveiling at **4858 N. Mother Daniels Way**. The partnership aims to expand health services to traditionally underserved communities, and will allow OCHC to provide support to the C.H. Mason Health Clinic. The new clinic space includes multiple medical exam rooms and a behavioral health office that will offer services such as screening, diagnosis, and treatment of anxiety, depression, and mood disorders. Services will be provided both in-person and via telehealth.

**Alderdwoman Andrea M. Pratt** believes this will be a welcome addition to the community. “I want to thank both the C.H. Mason Health Clinic and Outreach Community Health Centers for coming together to offer additional and enhanced care to everyone regardless of their insurance status or income level,” she said. “Our community needs increased access to these types of services, and I hope those in need take advantage of these offerings.”

New patients are currently being accepted. For additional information, please visit <https://www.ochc-milw.org/chmason>.
