Paving and traffic calming projects poised for 6th Aldermanic District

Nearly a dozen paving and traffic calming projects are set to get underway this year in the 6th Aldermanic District, according to **Alderman Milele A. Coggs**.

Alderman Coggs said it is important for motorists and residents to follow the signs related to each project, especially regarding temporary parking regulations. "Please make plans to adjust driving routes and parking routines based on the signage that goes up for each project," she said.

"Your patience is greatly appreciated while the work is being done, and we will all enjoy some significantly smoother roadways once everything is finished," the Alderman said.

Residents and businesses can report issues related to the projects by calling 414-286-3316.

The **list below** includes all of the roadway improvement projects in the 6th Aldermanic District planned for construction in 2025:

- W. Locust St. - N. 20th St. to N. 29th St. (high impact paving with traffic calming)
- E. Locust St. - N. Humboldt Blvd. to N. Holton St. (high impact paving with traffic calming)
- W. Concordia Av. - N. 15th St. to N. Teutonia Ave. (high impact paving)
