*City of Milwaukee Common Council*

## **Accessory Dwelling Unit (ADU) Legislation Adopted in Milwaukee**

**Statement from Common Council President José G. Pérez  
July 15, 2025**

We've worked hard to get to this point. When it comes to diversity of housing options, Milwaukee needs to stay in alignment with its peer cities and the region as a whole. ADUs are a commonly used tool that yields a variety of benefits for cities and residents such as creating more affordable and intergenerational housing. I'm thankful that a majority of my colleagues saw fit to pass a less restrictive version of my ADU legislation that provides us with another option to continue to tackle our city's housing issues.
