RE: New Berlin Potential Expanded Water Sale Discussion

The Milwaukee Common Council today approved a resolution directing city officials to begin discussions and negotiations with the City of New Berlin for the **potential expanded** sale of water, to serve residents located in the west side of New Berlin who are served by MMSD. In November, the Council adopted a resolution that the City of Milwaukee will not sign final agreements relating to sale of water to neighboring communities outside the Great Lakes basin until the State of Wisconsin ratifies the interstate compact.
