COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

I THINK IT'S INCREDIBLY CONSERVATIVE

... DISAPPOINTED TO SEE ~~SE~~ MOSTLY

SPEED HUMPS AS A SOLUTION. THE CITY HAS
A PROGRAM FOR THIS (SPEED HUMPS) ALREADY.

Any additional comments?

WANTED TO SEE DIVERSIONS (SERIOUS CHANGES)

TO THROUGH TRAFFIC

If you would like to stay involved with the bike boulevards project, please share your contact info:

Comments during prez #1

- Concern about no space for traffic circles

- How does it compare to Madison?

- Thinks cars don't speed on Fr

- How snowplows w/ this?

- How accommodate "us" - image of bike ppl getting together, not neighborhood Fr/avenue people

- Have "concerns" - one of the only

- SE corner Fr/Locust } parking areas

3 cars wide

- Curious on if Fr is highest

volume between 14th/15th - mild

concern/corrosivity on traffic diversion

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

Great work! It would have been good to see ~~traffi~~ devices like
traffic diverters and chicanes especially for our first greenway.

Any additional comments?

This project makes the streets safer for everyone, not just
bicyclists. Consider branding the project in an inclusive way.
Examples: Neighborhood Greenway, Safe Street network

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

*I think it's fantastic and look forward to more in the City.
It will help calm traffic on some streets that are not
ped-friendly bc of bad/fast/dangerous drivers & traffic*

Any additional comments?

If you would like to stay involved with the bike boulevards project, please share your contact info:

Oh yes - I would love to ~~see~~
④ see DISTINCT SIGNAGE for the Nbdl Greenway streets
⑤ AND eventually see traffic diverters used to reduce cut-through automobile traffic.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

Love it! But ^① I would really like to see ~~it~~ it extended 2 blocks west to King Drive and 2 blocks north to Capitol Dr (WalMart and ~~through~~ past Gathering Place Brewery).

^② Also, make a better gateway to Fratney from Keefe. ^③ Please design the speed humps to not be too jarring to bicyclists (some in the city are like hitting a curb while riding).

Any additional comments? I love the low-stress bikeway, but I am ~~not~~ I walk with a pedestrian even more often (I walk with my kids in the nbdl and run) and also a driver. The traffic calming improvements to Fratney + Wright will make the neighborhood safer for ~~my~~ family and me no matter how we are traveling.

As a city taxpayer, I really appreciate our city making streets better for walking + biking and ^{safer} If you would like to stay involved with the bike boulevards project, please share your contact info: ^{for everyone.}

Some drivers go way too fast on our neighborhood streets right now.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

GREAT IDEA !!! Speed bumps every block !!!

Any additional comments?

Make the speed bumps as bike friendly as possible.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

It's a wonderful idea. 100% support!

Any additional comments?

The addition of bump outs @ Center/Fratney is absolutely necessary. It's a dangerous intersection. I would advocate for more SPD signs all the way down Madley as people speed through all the time. (lots of theft/robbery there too.)

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

I think its a great idea, I bike in Riverwest so im sold. I worry about buy in from motorists in the area. I anticipate some anger directed at the city and bicyclists.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

Great, but a speed bump every block will be a bummer for cyclists. Will the speed bump be configured so that bikes can pass smoothly, maybe nearest the curb?

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

I think that it is great. I understand budgetary limitations and driver resistance, but we need to encourage alternate transport to improve living conditions in the city.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

Perhaps less speed bumps down Fratney, major route for
bikes for RW24.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

I'm an enthusiastic supporter especially the traffic calming elements. I think biker-designated traffic signals would also be great.

Any additional comments?

On the Beerline Trail between Pleasant + Humboldt, there is need for bike-friendly ramps - at one point there is elevation change w/ steps only, requiring bikers to divert to street.

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

SUPER.

Any additional comments?

yes, also do some calming / bike boulevard on Reservoir Ave from Holton to 6th... many cyclists use this path since on top of bluff and connected directly to Reservoir park / Marsupial bridge

If you would like to stay involved with the bike boulevards project, please share your contact info:

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

I think it's great. (it will go past my house on Fratney)

Any additional comments?

~~Speed humps~~ Speed humps on Wright will take some getting used to, but I think it will be worthwhile.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

Love it

Any additional comments?

There are some areas that have ~~more~~ larger issues with speeding like Locust & Fratney - bump outs there. Center Street, as well.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

I love this idea!
We are already beautifying the 2900 block of Fratney with gardens. No help needed there.

Any additional comments?

Locust and Fratney is in desperate need of a way of slowing down traffic. It is the busiest ~~and~~ street on the bike boulevard.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

Fabulous! I'm very excited to see it finally
happening

Any additional comments?

I am extremely concerned about this project diverting
traffic to Pierce St and Brement St. Pierce is
already where traffic goes if there is an issue on Holtz.
We got new street curbs that our bulls just came for, so I doubt
if you would like to stay involved with the bike boulevards project, please share
your contact info: my neighbors will want to pay for
speed humps

Otherwise bump out force
bikes out into paths of illegally
operated cars.

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

Potentially a fine idea & enhancement of the neighborhood

Any additional comments?

Pls minimize stop sign on the blvds. Yield signs ~~or~~ ^{or street rounds} would be preferable
Pls communicate effectively about when/where construction will take place
See back ↓

COMMENT CARD

What do you think about the proposed bike boulevard design along N. Fratney Street and E. Wright Street?

I would like to see curb extensions on Wright St. as well
 it would make a statement and contribute to messaging about
 whom the street is for — everyone! It feels half-done
 without them.
