

What is this project?

- A citywide plan to improve pedestrian safety and walkability
- The Plan will recommend:
 - Infrastructure to improve pedestrian safety
 - Changes to make the pedestrian network accessible to all users
 - Policy changes to ensure the City is considering pedestrian safety with all transportation projects
 - Programs to encourage and promote walking as a safe, healthy means of transportation and recreation

What is a pedestrian?

- For this project, a “pedestrian” is anyone walking, running, traveling in a wheelchair, or using any other pedestrian assistive device
- Similarly, “walking” means anyone walking, running, walking with a cane/walker, traveling in a wheelchair, or using any other pedestrian assistive device.

What are the project goals?

- Create a safe and welcoming pedestrian network in Milwaukee
- Improve pedestrian safety
- Support and encourage increased walking
- Improve access for people with disabilities
- Ensure that City policies consider pedestrians and encourage walking

What is the project schedule?

- Fall 2017: Existing conditions assessment and public outreach
- Winter 2017/2018: Development of draft recommendations
- Spring 2018: Additional public outreach
- Early Summer 2018: Final Plan
