All of the recommended projects have anticipated timelines:

- **Underway:** Continuation of an existing project/program or a project that began before plan adoption
- **Short Term:** 0-3 years after plan adoption
- **Medium Term:** 3-5 years
- **Long Term:** 5-10 years
- **Ongoing:** Projects that may take many years to complete but consist of multiple phases or components, some of which should be acted upon immediately with the understanding that full completion is also dictated by outside factors, typically funding availability, and public facility replacement schedules.
