Project Name: ARPA Public Survey 53206 Zip Code

Project Identification Number	RG1511317100
-------------------------------	--------------

Project Expenditure Category	7-Administrative
Project Expenditure Subcategory	7.1-Administrative Expenses
Status To Completion	Completed
Adopted Budget	\$14,647.00
Total Cumulative Obligations	\$14,647.00
Total Cumulative Expenditures	\$14,647.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>Project purpose: This project funds the mailing and return postage of a printed version of the city's ARPA survey in targeted areas of the city which saw low response rates to an initial online survey. Residents of the 53206 ZIP code on the city's north side received mailed surveys in early 2022. Residents in targeted areas of aldermanic districts 8 and 12 on the city's south side received mailed surveys in 2023. Attendees of a series of ARPA community meetings also received printed copies of the survey</p> <p>Population served: Populations residing in the 53206 zip code, and the 8th and 12th aldermanic districts, including residents of a substantially Spanish-speaking census tract.</p> <p>Desired outcome: Improve community participation and feedback on ARPA funding priorities in underrepresented areas of the city.</p> <p>2023 Q4 budget reduction: The budget for this project was reduced because the program concluded with a surplus of funds. Project Name: In Rem house rehabilitation / Homes MKE

Project Identification Number	RG1511913100
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.15-Long-Term Housing Security: Affordable Housing
Status To Completion	Completed less than 50%
Adopted Budget	\$14,502,133.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$9,322,680.93
Total Cumulative Expenditures	\$1,112,797.91
Current Period Obligations	\$8,209,883.02
Current Period Expenditures	\$303,146.79
Project Description	<p>The project will renovate city tax foreclosed properties. The purpose is to provide affordable homeownership and rental opportunities. The target population is neighborhoods disproportionately impacted by COVID-19, with a focus on low or moderate income homebuyers. Impact is measured by the number of affordable housing units preserved or developed, the number of individuals housed, the total investment in the renovation, percent of properties developed by emerging developers, percent of renovated</p>

	properties purchased as owner-occupied housing, and the tax revenue generated. The “number of households receiving eviction prevention services” mandatory performance indicator does not apply to this program because this program does not provide eviction prevention services. 2023 Q4 budget reduction: The budget for this project was reduced to remove salary expenses beyond the year 2024.

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Eligible use is rehabilitation of vacant/abandoned properties, negative impact is housing insecurity, service provided to disproportionately impacted communities and low or moderate income populations, service provided is renovation of foreclosed properties to provide affordable housing.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Milwaukee used the Final Rule to fund projects that provide an enumerated use to an eligible population to ensure the response is reasonable and proportional. Funding enumerated uses to eligible populations ensures consistency with the Final Rule. More broadly, subsidizing the rehabilitation of existing homes into a livable and healthy state brings home ownership opportunities to low income residents who would not otherwise be able to afford the renovate the home into a habitable condition.

Project Name: Housing programs

Project Identification Number	RG1511913130
Project Expenditure Category	2-Negative Economic Impacts
Project Expenditure Subcategory	2.15-Long-Term Housing Security: Affordable Housing
Status To Completion	Completed 50% or more
Adopted Budget	\$5,138,000.00
Program Income Earned	\$0.00

Total Cumulative Expenditures	\$4,688,652.40
Current Period Obligations	\$100,700.00
Current Period Expenditures	\$954,865.49
Project Description	Project purpose: The project augments the city's existing affordable housing programs including the Milwaukee Home Down Payment Assistance Program, which offers assistance to first time homebuyers in the purchase of a home for owner occupancy. Funds also help support existing, full-time staff positions that administer and support affordable housing programs.

	Population served: Low- or moderate-income households or populations Desired outcome: Assist Milwaukee residents in purchasing homes for owner occupancy.
Does this project include a capital expenditure?	No
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00
Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	2 Imp Low or moderate income HHs or populations
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Eligible use is affordable housing, negative impact is housing insecurity, service provided to low income populations, service provided is support for home repairs and down payment assistance. (Mandatory performance indicators do not apply to this program because this program does not directly preserve or develop housing units and does not provide eviction prevention services.)
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Milwaukee used the Final Rule to fund projects that provide an enumerated use to an eligible population to ensure the response is reasonable and proportional. Funding enumerated uses to eligible populations ensures consistency with the Final Rule. From a broader perspective, the program primarily provides down payment assistance, which is a nominal amount compared to the value of a home or the building of a new rental housing unit and appreciably assists low income homebuyers.

Project Name: Westlawn

Project Identification Number	RG1511913110
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.1-Provision of Government Services
Status To Completion	Completed 50% or more
Adopted Budget	\$9,000,000.00

Total Cumulative Expenditures	\$6,017,436.52
Current Period Obligations	\$6,017,436.52
Current Period Expenditures	\$1,152,099.53
Project Description	Project purpose: This revenue loss project funds a portion of a multi-phase housing project to revitalize Westlawn, a Choice Neighborhood Initiative project of the Housing Authority of the City of Milwaukee. The funding will fill the financing gap of two phases of the low income and affordable housing component of the Westlawn revitalization project. Population served: Low-or moderate-income populations, including youth aging out of foster care. Desired outcome: Increase the availability of affordable housing; support youth aging out of foster care.

Total Cumulative Expenditures	\$676,000.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>Project purpose: The project funds the holding expenses and maintenance costs of city-owned tax foreclosed properties. This primarily involves staff time, water bills, and repair supporting the existing housing stock in the city's inventory. The program goal is to maintain these affordable housing properties until such time as they can be placed back into use by city residents as housing.</p> <p>Population served: Disproportionately impacted households and populations residing in qualified census tracts.</p> <p>Desired outcome: Maintain city-owned properties until they can be sold and put back on the tax rolls, preferably as affordable housing.</p> <p>The mandatory indicators “number of households receiving eviction prevention services” and “number of affordable housing units preserved or developed” do not apply to this program because this program does not provide eviction prevention services or directly preserve or develop housing units.</p>

Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Eligible use is preservation and maintenance of low income/affordable housing, negative impact is housing insecurity, service provided to populations residing in qualified census tracts, service provided is holding expenses and maintenance of tax foreclosed properties. Because the inventory of property changes rapidly, the "number of affordable housing units preserved" is not a valid measurement of program success. This program does not provide eviction prevention services.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Milwaukee used the Final Rule to fund projects that provide an enumerated use to an eligible population to ensure the response is reasonable and proportional. Funding enumerated uses to eligible populations ensures consistency with the Final Rule. More broadly, holding costs to maintain properties for low income residents is more cost effective than building new units, particularly when supported by other City programs such as down payment assistance loans.

Project Name: Earn and Learn (SYIP)

Project Identification Number	RG1511912120
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.1-Provision of Government Services
Status To Completion	Completed
Adopted Budget	\$125,000.00
Total Cumulative Obligations	\$125,000.00
Total Cumulative Expenditures	\$125,000.00
Current Period Obligations	\$0.00
Current Period Expenditures	\$0.00
Project Description	<p>Project purpose: The project partially funds the Department of City Development's Summer Youth Internship Program (SYIP). The program employs Milwaukee residents ages 16-19 to work in city government departments. Program participants receive a subsidized wage and work 20 hours per week over the course of eight weeks during the summer work cycle.</p> <p>Population served: Households experiencing unemployment (young adult).</p> <p>Desired outcome: Advance the lives of young adults by providing them with meaningful work experiences and career exposure.</p>
Does this project include a capital expenditure?	No
Please identify the dollar amount of the total project spending that is allocated towards evidence-based interventions	\$0.00

Is a program evaluation of the project being conducted?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	3 Imp HHs that experienced unemployment
Is a program evaluation of the project being conducted?	No
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	See project description. The public health impact is un/underemployment. The “number of workers completing sectoral job training programs” and “number of workers enrolled in job training programs” mandatory performance indicators do not apply to this program. At completion, 153 youth had participated in the summer youth internship program.
Brief description of recipient’s approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Milwaukee used the Final Rule to fund projects that provide an enumerated use to an eligible population to ensure the response is reasonable and proportional. Funding enumerated uses to eligible populations ensures consistency with the Final Rule. Subsidizing youth wages not only assists in providing job training and employment for unemployed youth, but also prevents violence. A subsidized wage is a reasonable and proportional response to preventing crime and providing job security for youth.

Project Name: Retention pay for city employees

Project Identification Number	RG1511654100
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.1-Provision of Government Services

Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	15 Dis Imp HHs and populations residing in Qualified Census Tracts
Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	Removing blight in neighborhoods residing within QCTs which were hardest hit by COVID. See project description.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Department maintains a list of properties that require demolition according to criteria established by department as part of the regular course of business. Demolishing properties in very bad repair and returning the lot to the market is typically more cost effective than renovating properties in raze conditions.

Is a program evaluation of the project being conducted?	Yes
Brief description of structure and objectives of assistance	The Covid-19 pandemic negatively impacted the residents of the City of Milwaukee in a myriad of ways, one of the most profound being the ability of residents to pay their rent. This program provides critical legal counsel to residents faced

program(s), including public health or negative economic impact experienced	with eviction proceedings, and insures that those individuals are protected within the boundaries of the legal system surrounding tenants' rights, with a focus on prevention evictions.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Providing funding to established, nonprofit legal aid organizations such as the Eviction Free Milwaukee program is a reasonable and proportional response to the eviction crisis facing many Milwaukee residents. This project is a joint effort, with combined funding from the City of Milwaukee and Milwaukee County, leading to further funding efficiencies.

Project Description	<p>Project purpose: The project funds Employ Milwaukee's Healthy Homes Construction Careers Program, which is designed to connect trained workers with lead abatement certifications to contractors who are paid by the City of Milwaukee Health Department to remediate high lead risk homes. Major activities of the program include: (1) occupational skill training; (2) paid work experience; (3) worker support; and (4) contractor/employer resources. The program aims to connect trained workers with Lead Abatement certifications to contractors who are paid by the City of Milwaukee Health Department (MHD) to remediate high lead risk homes. The training is free to the student, including the cost of training, certification, exam fees, stipends, incentives, and wages during work experience. Students are offered a full set of supportive services to fund transportation, childcare, equipment, and other needs related assistance.</p> <p>Population served: Unemployed or underemployed workers and families living in homes requiring lead remediation. Desired outcome: Provide a supply of trained and certified workers to take jobs remediating lead paint hazards in Milwaukee homes.</p> <p>The “number of people participating in summer youth employment programs” mandatory performance indicator does not apply to this program because it is not a summer youth employment program.</p>

Brief description of structure and objectives of assistance program(s), including public health or negative economic impact experienced	The project will use a 4-part strategy (occupational skill training, paid work experience, worker support, and contractor/employer resources) to help mitigate the impacts of lead contamination in the city of Milwaukee, while expanding access to credentials with labor market value and quality jobs. The program will be provided at no cost to city job seekers.
Brief description of recipient's approach to ensuring that response is reasonable and proportional to a public health or negative economic impact of Covid-19	Milwaukee used the Final Rule to fund projects that provide an enumerated use to an eligible population to ensure the response is reasonable and proportional. Funding enumerated uses to eligible populations ensures consistency with the Final Rule. Subsidizing job training and work experience programs increase the local workforce for lead remediation, which reduces the need to rely on expensive companies providing services from distant locations.

Project Description	<p>Project purpose: The project funds energy efficiency retrofits to homes receiving lead remediation and lead hazard reduction services through a separate city ARPA-funded initiative. Participating households will receive a free home energy audit that identifies improvements that can reduce energy costs. The audit will be reviewed with the homeowner to determine the final project list, including identification of potential energy and cost savings. Funding will assist qualifying homeowners with the cost of improvements through payments to contractors. The program will be managed by the Department of Administration Environmental Collaboration Office (DOA ECO), which will coordinate with lead remediation projects to maximize efficiency. Eligible home improvements anticipated with this funding may include insulation, air sealing, electrical wiring upgrades (including replacement of dangerous knob and tube wiring); cold-climate air source heat pumps, water heaters and replacement of gas appliances with electric. The funding includes consulting services to assist with program coordination with the Milwaukee Health Department's lead abatement efforts, including their lead abatement pathways through direct city efforts, Social Development Commission and Revitalize Milwaukee.</p> <p>Population served: Low- or moderate-income households with children at risk of high lead blood levels</p> <p>Desired outcome: Improve energy efficiency in Milwaukee homes and reduce energy costs for households.</p> <p>Mandatory Indicator: Mandatory performance indicators do not apply to this program because this program does not directly preserve or develop housing units and does not provide eviction prevention services.</p>

Project Description	<p>Project purpose: The project funds subsidies to two private ambulance providers, Bell and Curtis, to stabilize their existing operations and provide basic life support ambulance services to all portions of the city. The Milwaukee Fire Department has long partnered with private ambulance providers to handle the important basic life support (BLS) transports for the emergency medical services (EMS) system. A variety of factors, including flat or declining reimbursement rates, has recently caused the number of private ambulance providers to decrease down to just two providers. This service deficit was worsened by increased system demands during the COVID-19 pandemic.</p> <p>Population served: General public requiring basic life support ambulance services.</p> <p>Desired outcome: Meet the demands on the 911 system for basic life support ambulance service in the City of Milwaukee.</p>
Does this project include a capital expenditure?	No
What Impacted and/or Disproportionally Impacted population does this project primarily serve?	1 Imp General Public

Project Name: Community Supported Traffic Safety Improvements

Project Identification Number	RG1515236100
Project Expenditure Category	6-Revenue Replacement
Project Expenditure Subcategory	6.1-Provision of Government Services
Status To Completion	Completed 50% or more
Adopted Budget	\$6,000,000.00
Program Income Earned	\$0.00
Program Income Expended	\$0.00
Total Cumulative Obligations	\$5,110,587.80
Total Cumulative Expenditures	\$3,445,459.41
Current Period Obligations	\$1,665,128.39
Current Period Expenditures	\$440,197.03
Project Description	<p>Project purpose: The project funds the installation of traffic safety improvements along various streets in the city of Milwaukee to address reckless driving. The safety improvements will focus on reducing motor vehicle speeds and passing on the right, which are primary threats to the safety of people walking, biking, taking transit, and driving. The proposed treatments may include curb extensions, pedestrian refuge islands, raised crosswalks, pedestrian signals, pavement markings, new bikeway and transit accommodations, street trees, and green infrastructure. A portion of the project includes rapid implementation improvements that use cost effective materials such as pavement markings and flexible delineator posts to address traffic safety issues. These improvements can be quickly installed as an interim or pilot measure to address immediate hazards. This interim approach on select corridors allows the Department of Public Works to work closely with community partners to identify solutions that increase traffic safety, and are supported by people living and working nearby. Additionally, these infrastructure improvements will be complemented by seed grant funding for community-based organizations (CBOs) along the Pedestrian High Injury Network corridors to conduct various education and awareness campaigns related to reckless driving and the new traffic safety improvements. Modeled off the 2021 Reckless Driving Mini-Grant Program, these seed grants will be distributed to various CBOs to conduct events such as community walks, pedestrian safety action campaigns, and community fairs, as well as for awareness campaigns such as physical (ex. billboards, yard signs, bus ads) and social media (ex. videos, live feeds) messaging. These improvements will be complemented by speed limit reductions on various corridors, neighborhoods, and/or citywide, as well as by revising the assessment to property owners for speed humps to ensure more people can afford to install speed humps on their block.</p> <p>Population served: General public within the City of Milwaukee experiencing reckless driving.</p>

Desired outcome: Increase traffic safety, reduce reckless driving, and eliminate fatal and severe crashes along the most dangerous streets in Milwaukee.
