**Bridge Rehabilitation Projects Ongoing Throughout City of Milwaukee**  
*Projects will improve safety, road surface while extending life of the structures*

The City of Milwaukee Department of Public Works (DPW) and Wisconsin Department of Transportation (WisDOT) are conducting several bridge rehabilitation projects this year. A brief overview and schedule of each project is outlined below:

- **West Villard Avenue Bridge over the Lincoln Creek**  
Start: March 22, 2021 Completion: October 2021  
The scope of work for this WisDOT & DPW project includes replacing the existing bridge deck and railings, reconstructing the roadway approaches, and painting structural steel components. This project has been staged to keep West Villard Avenue open for one way of traffic during construction. The contractor anticipates switching the traffic control to begin the 2<sup>nd</sup> stage of construction on July 2<sup>nd</sup>. Eastbound traffic will be open while the westbound lane is closed during the 2<sup>nd</sup> stage of construction. *Website: [milwaukee.gov/dpw/villardbridge](http://milwaukee.gov/dpw/villardbridge)*
- **West Cameron Avenue Bridge over the Lincoln Creek**  
Start: June 14, 2021 Completion: End of October 2021  
The scope of work for this DPW local bridge rehabilitation project includes replacing the existing bridge deck and abutment backwalls, reconstructing the roadway approaches and sidewalk, installing new bridge railings, upgrading street lighting and underground conduit, and painting structural steel components. The bridge is fully closed to thru traffic throughout construction. *Website: [milwaukee.gov/dpw/cameronbridge](http://milwaukee.gov/dpw/cameronbridge)*
- **North Lovers Lane Bridge over Union Pacific Railroad**  
Anticipate Start: July 12, 2021 Completion: Early December 2021  
The scope of work for this WisDOT & DPW project includes milling and overlaying the existing bridge deck, repairing concrete surface of the bridge substructure and underside, and installing guard rails. The traffic control staging is anticipated to allow two way traffic during construction. *Website: [milwaukee.gov/dpw/loverslanebridge](http://milwaukee.gov/dpw/loverslanebridge)*
- **South Dana Court Bridge**  
Start: Mid-July 2021 Completion: Early December 2021  
The scope of work for this WisDOT & DPW project includes replacing the bridge deck and roadway approach, installing new railings, painting pier columns and girders, and reconstructing the sidewalk and pedestrian ramps to meet ADA requirements. In addition, S. Dana Ct., from Hawley Road to the cul de sac, will be resurfaced. The width of the bridge will be reduced once completed. The existing bridge deck will be removed and constructed in two stages to keep S. Dana Ct. open to traffic with one lane. *Website: [milwaukee.gov/dpw/danacourtbridge](http://milwaukee.gov/dpw/danacourtbridge)*

We advise the traveling public to allow for extra time while traveling to and from these neighborhoods. Residents can sign up to receive construction updates by visiting each project website. All work is weather dependent and subject to change.
