**Complete Closure of the Broadway Bascule Bridge  
Over the Milwaukee River Begins July 27, 2015**  
*Full closure to continue through August 12, weather permitting*

The City of Milwaukee Department of Public Works (DPW) announces that the Broadway Bascule Bridge over the Milwaukee River will be completely closed to vehicular and pedestrian traffic July 27 – August 12, 2015. The Riverwalk under the bridge also will be closed to pedestrians.

One leaf of the bascule bridge will remain operational for navigation at all times.

By completely closing the bridge to all traffic, the project contractor plans to paint a large portion of the north bridge span in a shorter period of time.

The entire bridge project is expected to be completed by September 2015, weather permitting.

The Broadway Bascule Bridge is the first moving bridge that boats and ships pass through on their way from Lake Michigan to the Milwaukee and Menomonee rivers and the Downtown Milwaukee area. A bascule style bridge is one that opens at the center with two “leaves” counterweighted to assist in opening and closing the bridge.
