Stage Two of Project Makes Progress

Stage Two construction began in early August with the removal and reconstruction of the eastbound lanes of Capitol Drive from 84th to 99th streets. On August 19th the work continued to include the removal and reconstruction of the section from 100th Street to Mayfair Road. The reconfiguration of West Lisbon Avenue, south of Capitol Drive began at the same time and presented some very unique challenges.

A detour had to be created at 98th Street on Lisbon because work on the sewer and gas mains extended further south on 100th Street. "Open for Business" signage was provided at the point of the detour, and also on 92nd and Capitol Drive, to inform the public how to reach the businesses located along Lisbon Avenue and on Capitol Drive between 101st and 102nd Streets.

Detour signs for the businesses were installed starting at 92nd and Capitol Drive, 92nd and Lisbon Avenue, 98th and Lisbon Avenue and on 98th and Melvina.

When it was possible, a gravel path was created at the intersection at 102nd and Capitol Drive to allow vehicles to patronize the dental offices west of 102nd, and the businesses located between 101st and 102nd. Signage was placed at the location to indicate when the intersection was open.

Menomonee River Bridge Schedule to be Completed by the End of October

Progress on the bridge over the Menomonee River continues on schedule. The bridge deck should be completed by the end of October. Prior to the design of the bridge a meeting was held with City of Milwaukee Alderman Jim Bohl, Wauwatosa Alderman Jason Wilke, and Milwaukee and Wauwatosa Public Works staff regarding the proposed bridge project and how features could be incorporated to make it safer for pedestrians crossing West Capitol Drive. A multi-use path under the bridge was proposed for use by pedestrians and bicyclists. This resulted in an expanded bridge span and decorative retaining walls along the multi-use path being added to the project.
