Police Aide Austin Llanas spoke on behalf of the Police Aides. Police Aide Llanas thanked the Board for allowing them to be part of the Police Aide program. He informed them what the opportunity has meant to the Police Aides. As a diverse group, they all strive for one goal – to become Police Officers for the City of Milwaukee. The Police Aide program is an excellent way for young adults to pursue a career in law enforcement. As a Police Aide, all have had various duties and responsibilities including administrative and clerical duties, traffic and crowd control, assisting the recruit officers for training purposes, and assisting officers with booking arrestees. As they progressed in the program, they were granted the opportunity to engage in the ride-along program gaining insight into the law enforcement field. The Code of Conduct was given to them on the first day on the job; a code they must engage themselves in. They were given standards for their education they were expected to maintain while they held their positions on the job. They have worked different locations during different shift hours to get them acquainted with what is expected. They were trained by coordinators and instructors who dedicated their time and efforts to assist the Police Aides to focus on their education, physical fitness and their personal and professional development. As they transcend to the role of police officer, they will accept any challenge with courage by willingly confronting any danger they may face; with respect by assisting the community when they depend on them; with competence by demonstrating the tools attributed by the instructors; with restraint by demonstrating self-discipline even when no one is listening or watching; by leadership both within their community and among their peers; and with integrity by always keeping the core values to heart.
