FPC Operations

1. Audit & Compliance

In addition to the audits required by the *Collins* Settlement Agreement, the FPC's Audit Unit is currently working on the following two (2) non-*Collins* audits:

- MPD Automated License Plate Readers (ALPR) (SOP 735)
- MFD Resources/Dispatch Responses

The Audit Unit has completed the field work and drafted reports for the following two (2) audits, both of which are currently under review by FPC management:

- MPD's Airborne Assessment Team (Drones)
- MPD Animals (SOP 060)

After these audits are completed, the Audit Unit will conduct an audit/review on MPD Resources/Dispatch Responses as part of its 2026 Audit Plan:

2. Community Engagement

FPC Community Outreach Coordinator Carlos Martinez-Rivera continues to advance the FPC's community engagement and transparency efforts through various initiatives and events. Some of his recent efforts include:

- **Summer Guardian Initiative.** This past May, Mr. Martinez Rivera attending the Milwaukee Police Department's first meeting on its Summer Guardian initiative. Led by Assistant Chief of Police Paul Lough, the group kicked off the summer with a clear focus: getting officers out into the community in a way that feels approachable, not intimidating. Mr. Martinez Rivera will continue attending these meetings to stay informed of where the program is headed and to share anything relevant with Executive Director and the broader community.
- Part of initiatives includes bringing back community walks, showing up at parks, basketball courts, and other spots where young people actually spend their time. This portion of the initiative is not about stopping or questioning anyone. It is about showing up consistently, learning names, and building the kind of trust that does not happen overnight. One (1) of MPD's first moves as part of this initiative was a social media reel reminding residents about

summer curfew, a small but practical step toward keeping the community informed and safe.

- **PLACET National Conference – Dallas TX.** Mr. Martinez Rivera recently traveled to Dallas, Texas to attend the PLECET (Professionalizing Law Enforcement – Community Engagement Training) national conference, joining oversight and engagement professionals from agencies across the country. It was a chance to step back from the day-to-day and think bigger, looking at what is working elsewhere and how Milwaukee stacks up in the national conversation around public trust and community engagement.

The conference covered a lot of ground. Mr. Martinez Rivera came back with a stronger understanding of structured engagement approaches, a closer look at how AI tools are being used to improve community outreach, and resources that could help the FPC think through responsible uses of technology in our work. Mr. Martinez Rivera plans to present on the key takeaways from this conference at the Board meeting on July 2nd.

- **FPC Website Updates – Accessibility & Accuracy.** Mr. Martinez-Rivera also spent time this month going through the FPC's public website with a fine-tooth comb; fixing broken links, correcting typos, and cleaning up content that was out of date. It may not be the flashiest work, but it matters: when someone visits our site looking for help with a complaint or trying to find a meeting record, a broken link or a confusing page can send them away with nothing. A clean, accurate website is part of how we show up for the public.

3. Investigations

Thus far in 2026, the FPC has received a total of 96 citizen complaints, 67 of which involved MPD members, four (4) involved MFD members, two (2) involved DEC members, and 23 involved matters outside the FPC's jurisdiction. Out of the 96 complaints, 63 have been closed and 33 remain open.
