Gutter capacity must be sized appropriately for the size of roof. No trim or other fixtures may be removed. All finish wood must be smooth and free from knots and sapwood. All wood must be painted or stained as soon as possible to protect from weather. Please note that research has shown that when new bare wood is exposed to the elements for a period of only a week or two, the life of the paint job applied to it is likely to be decreased.

All work must be done in a craftsman-like manner, and must be completed within one year of the date this certificate was issued. Staff must approve any changes or additions to this certificate before work begins. Work that is not completed in accordance with this certificate may be subject to correction orders or citations.
