# Affordable Efficiency

**Our program isn't just affordable, it's simple.  
Me<sup>2</sup> is your partner for home energy efficiency upgrades.**

**Start with your energy assessment:** You pay only \$100.\* (That's a \$400 value for a single family home!) The choice to upgrade your home gets easier and easier – if you do the work recommended in your energy assessment with a Participating Me<sup>2</sup> Contractor, we'll rebate your \$100.

**Health and Safety grant:** Me<sup>2</sup> provides up to \$1,000 toward the following home improvements when required as part of the energy efficiency project.

- asbestos, vermiculite or oil tank removal
- electrical upgrades

You can earn **up to \$3,000 in Cash-Back Rewards** on all kinds of energy-related improvements. For example, there are **incentives** for upgrading a furnace, having air leaks sealed or adding insulation to your attic! Don't worry, your Me<sup>2</sup> Energy Advocate can walk you through all of the incentives currently available during your **FREE, no obligation home visit.**

## Easy and Affordable Financing

Me<sup>2</sup> is partnering with Summit Credit Union to provide eligible customers the opportunity to finance their home energy efficiency improvements with special loan interest rates and terms.

Go to [www.summitcreditunion.com/SummitMe2](http://www.summitcreditunion.com/SummitMe2) and apply online – it's quick and easy!

### Here's how you benefit with the Summit Solution:

- Low fixed rate loan with flexible payment terms up to 180 months/15 years
- Loans for as little as \$1,000 and up to \$15,000
- No home equity required
- Simple application, fast approvals
- Ability to finance up to 100% of the cost of the energy efficiency updates!
- Necessary, cost-saving home upgrades, affordably financed
- Summit pays your contractor on your behalf after the work has been inspected and approved by you

## When your home is efficient, you'll save money every month on your energy bill!

Project costs can begin to be recovered with every sealed draft and insulated wall. Our optional financing is designed to help you save enough on energy costs each month to help offset the cost of your monthly loan payment.
