

Volunteers Making a Difference

Storm Drain Stenciling Project

Sponsored by the City of Milwaukee

What is storm drain stenciling?

The storm drain stenciling project, operating annually from April 1 through October 31, is a fun and easy way to prevent pollution in your neighborhood. By stenciling "Dump No Waste — Protect Your Water" next to storm drains, you can let your neighbors know that pollutants left in the street wind up in our waterways.

Why is storm drain stenciling important?

In most areas of Milwaukee, water that goes down storm drains flows, untreated, directly into our rivers and Lake Michigan. Waterways become contaminated when rain and melted snow wash pollutants from streets, parking lots, homes and businesses into storm drains. Often, people throw away motor oil, antifreeze, paint, fertilizers, pet waste and household chemicals down storm drains, not realizing the pollution they are causing.

Who should participate in storm drain stenciling?

- Citizens concerned about the environment
- Neighborhood associations
- Schools
- Youth organizations and clubs
- Community service and civic organizations

By participating, your group will become aware of the close link between our streets and waterways and leave behind a reminder for others.

Is it easy to participate in the project?

Yes! All of the training, equipment, and supplies needed to participate in the project are provided for your use. All you have to do is organize your group and contact the Milwaukee Cleaner River Project at 286-8162. This program is open only to City of Milwaukee residents, schools and organizations. However, we will refer you to your local governmental unit where storm drain stenciling supplies may be obtained.

Get involved!

Simply fill out and return the attached form or call 286-8162.

Registration Form

Yes!! I would like to volunteer for the storm drain stenciling project.

Send me more information first.

Name: _____

Name of group: _____

Address: _____

City/Zip: _____

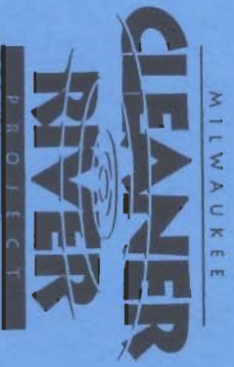

Phone no.: _____ No. people: _____

Date interested in stenciling: _____

Return Form To:
