

Strategic Benefit Coverage Exclusions¹

This is a comprehensive list of medications currently not covered under the pharmacy benefit. We do not make the decision to exclude medications from benefit coverage lightly. A medication is only excluded when it offers no clinical value over other options in its class and its exclusion can be leveraged to achieve significant savings for our customers while preserving affordable choices for members. This medication is excluded for the majority of benefit plans. You should review your benefit plan documents to confirm if any medications are excluded from your plan. You can log in to the member website listed on your ID card at any time to check your medication coverage. Talk to your doctor to see if there are lower-cost options or over-the-counter medications available.

Updated 4/11/2024

Medication Name	Brand and/or Generic ²	Therapeutic Use	Exclusion Rationale ³	Alternative Treatment Option(s)
Benadryl	Brand & Generic	Allergies	Legend Medication with OTC Equivalent	OTC Benadryl
Benzac, Desquam, Panoxyl, Brevoxyl	Brand & Generic	Acne	Legend Medication with OTC Equivalent	OTC benzoyl peroxide
Histex	Brand & Generic	Allergies	Legend Medication with OTC Equivalent	n/a
Imodium	Brand & Generic	Diarrhea	Legend Medication with OTC Equivalent	OTC Imodium
Lac-Hydrin 12%	Brand & Generic	Skin conditions	Legend Medication with OTC Equivalent	OTC Lac-Hydrin
Lotrimin 1%	Brand & Generic	Infections	Legend Medication with OTC Equivalent	OTC Lotrimin
Meclizine	Brand & Generic	Motion sickness	Legend Medication with OTC Equivalent	OTC Meclizine
Motrin Suspension, Pedia-Profen	Brand & Generic	Pain & inflammation	Legend Medication with OTC Equivalent	OTC Motrin
Prilosec Capsules	Multi-Source Brand	Ulcers, heartburn & reflux	Legend Medication with OTC Equivalent	omeprazole (generic Prilosec), pantoprazole (generic Protonix), rabeprazole (generic Aciphex), OTC - Nexium
Pepcid Tablets	Brand & Generic	Ulcers, heartburn & reflux	Legend Medication with OTC Equivalent	24 HR, Prilosec OTC, Prevacid 24 HR, Zegerid OTC
Axid Capsules	Brand & Generic	Ulcers, heartburn & reflux	Legend Medication with OTC Equivalent	OTC Pepcid AC
Zantac Capsules/Tablets	Brand & Generic	Ulcers, heartburn & reflux	Legend Medication with OTC Equivalent	OTC Pepcid AC, OTC Zantac
Prevacid Capsules	Brand & Generic	Ulcers, heartburn & reflux	Legend Medication with OTC Equivalent	OTC Zantac
Clarinetx	Brand & Generic	Allergies	Therapeutic Equivalent to an OTC medication	omeprazole (generic Prilosec), pantoprazole (generic Protonix), rabeprazole (generic Aciphex), OTC - Nexium
Clarinetx-D	Brand & Generic	Allergies	Therapeutic Equivalent to an OTC medication	24 HR, Prilosec OTC, Prevacid 24 HR, Zegerid OTC
Nexium Capsules	Brand & Generic	Ulcers, heartburn & reflux	Legend Medication with OTC Equivalent	levocetirizine (generic Xyzal), OTC - Allegra, Claritin, Xyzal, Zyrtec
Zyrtec Tablet	Brand & Generic	Allergies	Legend Medication with OTC Equivalent	levocetirizine (generic Xyzal) + OTC pseudoephedrine (generic Sudafed); OTC - Allegra D, Claritin D, Zyrtec D
Doryx	Brand & Generic	Acne	Same active ingredient of therapeutic equivalent available by prescription	omeprazole (generic Prilosec), pantoprazole (generic Protonix), rabeprazole (generic Aciphex), OTC - Nexium
Caduet	Brand & Generic	High blood pressure/Cholesterol/Lipid lowering	Same active ingredient of therapeutic equivalent available by prescription	24 HR, Prilosec OTC, Prevacid 24 HR, Zegerid OTC
Coreg CR	Brand & Generic	High blood pressure/Heart fail	Same active ingredient of therapeutic equivalent available by prescription	OTC Zyrtec
Genotropin	Single Source Brand	Growth hormone	Same active ingredient of therapeutic equivalent available by prescription	doxycycline hyclate (generic Vibramycin), doxycycline monohydrate 50 mg or 100 mg (generic Monodox)
Humatrope	Single Source Brand	Growth hormone	Same active ingredient of therapeutic equivalent available by prescription	amlodipine (geneic Norvasc) plus atorvastatin (generic Lipitor)
Requip XL	Brand & Generic	Parkinson's disease	Same active ingredient of therapeutic equivalent available by prescription	carvedilol immediate-release (generic Coreg)
Treximet	Brand & Generic	Migraines	Same active ingredient of therapeutic equivalent available by prescription	Norditropin Flexpro, Nutropin AQ NuSpin, Omnitrope

Lidoderm	Multi-Source Brand	Pain	Same active ingredient of therapeutic equivalent available by prescription	lidocaine transdermal patch (generic Lidoderm), ZTLido

Strategic Benefit Coverage Exclusions¹

This is a comprehensive list of medications currently not covered under the pharmacy benefit. We do not make the decision to exclude medications from benefit coverage lightly. A medication is only excluded when it offers no clinical value over other options in its class and its exclusion can be leveraged to achieve significant savings for our customers while preserving affordable choices for members. This medication is excluded for the majority of benefit plans. You should review your benefit plan documents to confirm if any medications are excluded from your plan. You can log in to the member website listed on your ID card at any time to check your medication coverage. Talk to your doctor to see if there are lower-cost options or over-the-counter medications available.

Updated 4/11/2024

Benicar	Multi-Source Brand	High blood pressure	Same active ingredient of therapeutic equivalent available by prescription	olmesartan (generic Benicar)
Benicar HCT	Multi-Source Brand	High blood pressure	Same active ingredient of therapeutic equivalent available by prescription	olmesartan HCT (generic Benicar HCT)
Cellcept	Multi-Source Brand	Transplant	Same active ingredient of therapeutic equivalent available by prescription	mycophenolate (generic Cellcept)
Differin 0.1% cream, gel, lotion	Brand & Generic	Acne	Legend Medication with OTC Equivalent	OTC Differin 0.1% gel, tretinoin cream (generic Retin-A)
Epiduo	Brand & Generic	Acne	Legend Medication with OTC Equivalent	OTC Differin 0.1% gel plus OTC benzoyl peroxide
EpiPen/EpiPen Jr	Multi-Source Brand	Severe allergic reactions	Same active ingredient of therapeutic equivalent available by prescription	epinephrine auto-injector (generic Adrenaclick, generic EpiPen/EpiPen Jr.), Auvi-Q, Symjepi
Epzicom	Multi-Source Brand	HIV	Same active ingredient of therapeutic equivalent available by prescription	abacavir/lamivudine (generic Epzicom)
Imuran	Multi-Source Brand	Transplant	Same active ingredient of therapeutic equivalent available by prescription	azathioprine (generic Imuran)

Strategic Benefit Coverage Exclusions¹

This is a comprehensive list of medications currently not covered under the pharmacy benefit. We do not make the decision to exclude medications from benefit coverage lightly. A medication is only excluded when it offers no clinical value over other options in its class and its exclusion can be leveraged to achieve significant savings for our customers while preserving affordable choices for members. This medication is excluded for the majority of benefit plans. You should review your benefit plan documents to confirm if any medications are excluded from your plan. You can log in to the member website listed on your ID card at any time to check your medication coverage. Talk to your doctor to see if there are lower-cost options or over-the-counter medications available.

Updated 4/11/2024

Medication Name	Brand and/or Generic ²	Therapeutic Use	Exclusion Rationale ³	Alternative Treatment Option(s)
Loprox 0.77%	Multi-Source Brand	Infections	Same active ingredient of therapeutic equivalent available by prescription	ciclopirox 0.77% (generic Loprox)
Myfortic	Multi-Source Brand	Transplant	Same active ingredient of therapeutic equivalent available by prescription	mycophenolate delayed-release (generic Myfortic)
Neoral	Multi-Source Brand	Transplant	Same active ingredient of therapeutic equivalent available by prescription	cyclosporine modified (generic Neoral)
Parlodel	Multi-Source Brand	Parkinson's disease	Same active ingredient of therapeutic equivalent available by prescription	bromocriptine (generic Parlodel)
Rapamune	Multi-Source Brand	Transplant	Same active ingredient of therapeutic equivalent available by prescription	sirolimus (generic Rapamune)

This is a comprehensive list of medications currently not covered under the pharmacy benefit. We do not make the decision to exclude medications from benefit coverage lightly. A medication is only excluded when it offers no clinical value over other options in its class and its exclusion can be leveraged to achieve significant savings for our customers while preserving affordable choices for members. This medication is excluded for the majority of benefit plans. You should review your benefit plan documents to confirm if any medications are excluded from your plan. You can log in to the member website listed on your ID card at any time to check your medication coverage. Talk to your doctor to see if there are lower-cost options or over-the-counter medications available.

Updated 4/11/2024

Medication Name	Brand and/or Generic ²	Therapeutic Use	Exclusion Rationale ³	Alternative Treatment Option(s)
Sensipar	Multi-Source Brand	Endocrine disorders	Same active ingredient of therapeutic equivalent available by prescription	calcium acetate (generic PhosLo), cinacalcet (generic Sensipar)sevelamer (generic Renagel), Velphoro
Syprine	Multi-Source Brand	Blood disorders	Same active ingredient of therapeutic equivalent available by prescription	trientine (generic Syprine)
Fareston	Multi-Source Brand	Cancer	Same active ingredient of therapeutic equivalent available by prescription	toremifene (generic Fareston)
Carafate	Multi-Source Brand	Ulcers	Same active ingredient of therapeutic equivalent available by prescription	sulcralfate (generic Carafate)
Prevacid Solutab	Multi-Source Brand	Ulcers, heartburn & reflux	Same active ingredient of therapeutic equivalent available by prescription	lansoprazole delayed-release orally disintegrating tablet (generic Prevacid Solutab), omeprazole (generic Prilosec), pantoprazole (generic Protonix), OTC - Nexium, Prilosec, Prevacid, Zegerid
Amicar	Multi-Source Brand	Blood disorders	Same active ingredient of therapeutic equivalent available by prescription	aminocaproic acid (generic Amicar)
Atacand	Multi-Source Brand	High blood pressure	Same active ingredient of therapeutic equivalent available by prescription	candesartan (generic Atacand)
Avapro	Multi-Source Brand	High blood pressure	Same active ingredient of therapeutic equivalent available by prescription	irbesartan (generic Avapro)
Cozaar	Multi-Source Brand	High blood pressure	Same active ingredient of therapeutic equivalent available by prescription	losartan (generic Cozaar)
Sustiva capsules	Multi-Source Brand	HIV	Same active ingredient of therapeutic equivalent available by prescription	efavirenz (generic Sustiva)
Estrace vaginal cream	Multi-Source Brand	Hormone replacement	Same active ingredient of therapeutic equivalent available by prescription	estradiol tablets (generic Estrace), estradiol vaginal cream (generic Estrace vaginal cream)
Jadenu granule, tablet	Multi-Source Brand	Iron overload	Same active ingredient of therapeutic equivalent available by prescription	deferasirox (generic Jadenu)
Paxil CR	Multi-Source Brand	Mental health	Same active ingredient of therapeutic equivalent available by prescription	paroxetine extended-release (generic Paxil CR)
Zomig tablets	Multi-Source Brand	Migraines	Same active ingredient of therapeutic equivalent available by prescription	zolmitriptan tablets (generic Zomig)
Frova	Multi-Source Brand	Migraines	Same active ingredient of therapeutic equivalent available by prescription	frovatriptan (Frova)
Travatan Z	Multi-Source Brand	Glaucoma	Same active ingredient of therapeutic equivalent available by prescription	latanoprost (generic Xalatan), travoprost (generic Travatan Z), Lumigan
Norco	Multi-Source Brand	Pain	Same active ingredient of therapeutic equivalent available by prescription	hydrocodone/acetaminophen (generic Norco)
Roxicodone	Multi-Source Brand	Pain	Same active ingredient of therapeutic equivalent available by prescription	oxycodone immediate-release (generic Roxicodone)
Actonel	Multi-Source Brand	Osteoporosis	Same active ingredient of therapeutic equivalent available by prescription	alendronate (generic Fosamax), ibandronate (generic Boniva)
Letairis	Multi-Source Brand	Pulmonary hypertension	Same active ingredient of therapeutic equivalent available by prescription	ambrisentan (generic Letairis)

Kombiglyze XR	Multi-Source Brand	Diabetes	Same active ingredient of therapeutic equivalent available by prescription	saxagliptin/metformin extended-release (generic Kombiglyze XR)
Onglyza	Multi-Source Brand	Diabetes	Same active ingredient of therapeutic equivalent available by prescription	saxagliptin (generic Onglyza)
Prezista	Multi-Source Brand	HIV	Same active ingredient of therapeutic equivalent available by prescription	darunavir (generic Prezista)

Strategic Benefit Coverage Exclusions¹

This is a comprehensive list of medications currently not covered under the pharmacy benefit. We do not make the decision to exclude medications from benefit coverage lightly. A medication is only excluded when it offers no clinical value over other options in its class and its exclusion can be leveraged to achieve significant savings for our customers while preserving affordable choices for members. This medication is excluded for the majority of benefit plans. You should review your benefit plan documents to confirm if any medications are excluded from your plan. You can log in to the member website listed on your ID card at any time to check your medication coverage. Talk to your doctor to see if there are lower-cost options or over-the-counter medications available.
