## I. PURPOSE

The stress of balancing competing demands between work and personal responsibilities impacts the wellbeing of City of Milwaukee's employees, health care costs, absenteeism, efficiency and productivity. This policy establishes administrative procedures for the Alternative Working Arrangements (AWA) Program. This policy is intended to guide supervisors when considering alternative work options for their employees. The primary consideration for approving alternative work arrangements is the City of Milwaukee's ability to provide exceptional and responsive service to the public, while balancing the needs of employees. **This policy also introduces a pilot remote work program for eligible employees. This pilot program will be revisited on a continual basis and may be discontinued if it no longer meets the needs of the City of Milwaukee.**

The AWA Program provides supervisors with a methodology for meeting operational and programmatic goals while allowing employees flexibility to balance their work and personal responsibilities. AWAs are offered by the City to benefit the organization, the customers we serve, and our most valuable resource, the employee. Providing flexible work arrangements can improve employee job satisfaction, increase productivity, and promote employee wellness.

The AWA program is a privilege and may be discontinued at any time if it does not meet the operational needs of the City of Milwaukee. Employees do not have a vested right to the AWA program.

## II. APPLICABILITY

This policy applies to general City employees, including civilian personnel in the Fire and Police Departments.

## III. AUTHORITY

This policy is created under the authority of MCO 350-209(3), which states, in part, that "Department heads, in conjunction with the Department of Employee Relations, shall develop alternative work arrangements suited to departmental operations and employees' personal needs...The Department of Employee Relations shall be responsible for developing city-wide guidelines and administrative procedures regarding alternative work arrangements."

## IV. DEFINITIONS

**Alternative Work Schedule (AWS):** An alternative work schedule is a schedule deviates from the City's standard hours of work of 8:00am – 4:45pm, Monday through Friday, or the department's designated standard hours of work. An AWS enables an employee to adjust their scheduled hours of work within the core hours of work, which is typically during a work unit's peak operational hours of the work. Examples of an AWS include but are not limited to an employee working four ten-hour days per week, an employee working four nine-hour days and one four-hour day per

week, an employee working 7:00am to 3:30pm, Monday through Friday or an employee working different hours on different days of the week. This does not apply to occasional flexible time or temporary schedule changes.

**Department:** Refers to the City of Milwaukee department that employs the impacted employee.

**Job Sharing:** Two employees share the duties of one full-time position, each working a proportionate and normally equal part-time schedule.

**Part-Time Employment:** Full-time employees who work an average of at least 20 hours but fewer than 40 hours per work week on a year-round basis, in a position that is budgeted at half-time or greater.

Employees who work an average of 20 hours per week or fewer on a year-round basis in a position that is budgeted at less than half-time are considered to be less than part-time employees and are generally not eligible for benefits.

**Remote Work:** On one or more days per week, an employee works at an offsite location, including their home, and is connected to the office by computer and/or telephone.

#### **Work Models:**

**Full-Time Remote Work Model:** Employee works from a remote location but is at the onsite work location a minimum of 2 to 3 days per month.

**Hybrid Remote Work Model:** Employee works from a combination of onsite work location and remote work location. The employee works from the onsite work location a minimum of 2 days per week.

**Majority Workplace Work Model:** Employee regularly works from the onsite work location, but may work at a remote work location on an ad hoc/occasional basis.

**Full-Time Workplace Work Model:** Position does not lend itself for any ability to work at a remote location, even on an ad hoc/occasional basis.

## **V. ELIGIBILITY**

### **A. Criteria**

Alternative work schedules must include working during the City's core hours of operations between 9:00 AM – 2:00PM (excluding lunch break) or the department's designated core hours of operations. Alternative work schedules shall not start before 5:00 am or end after 6:00pm or as designated by the department. This does not apply to occasional flexible time or temporary schedule changes.

Part-time, probationary and temporary employees may be considered for AWAs at the discretion of management, but full-time employees will be provided priority consideration.

The department head or designee(s) may limit the number of employees who may be regularly scheduled to be off or work remotely. The department may also identify a day or days of the work week where employees are required to be onsite due to operational needs.

Decisions to approve or to deny an AWA request shall be based on established criteria and expectations or business operational needs. Decisions regarding AWAs should be consistently and fairly applied to employees in similar circumstances.

#### B. Position Eligibility

The department shall determine which positions are eligible to participate in an alternative work arrangement. The department head or designee(s) shall consider the extent to which such arrangements support and enhance departmental efficiency, productivity and services to the public. #### D. Employee Eligibility

Once a department determines which positions are eligible for an AWA, the department head or designee(s) has the discretion to approve or deny an AWA request based on established eligibility criteria and/or operational needs. The department head or designee(s) shall consider the extent to which such arrangements support and enhance departmental efficiency, productivity and services to the public.

The department shall consider the following criteria when determining an employee's request to have an alternative work arrangement:

1. Department Operational Needs – Business and operational needs of the department and work unit can be met.
