

Vaccines: A Simple Step to Stay Healthy

Protection Starts with Prevention

Vaccines are one of the simplest ways to help protect your health and prevent illness.

Many recommended vaccines are available through your Workplace Clinic. A clinician can help you understand which vaccines may be appropriate for you and answer any questions you may have.

Vaccines available at the clinic include:

- COVID-19
- Gardasil (HPV)
- Hepatitis A and B
- Influenza (Flu)
- Measles, Mumps and Rubella (MMR)
- Meningitis
- Varicella (Chickenpox)
- Pneumonia
- Shingles
- Tetanus
