<sup>1</sup> - A Home Improvement Contractors License is only required for residential buildings 6 units or less.

**Design Standards & Regulations - MCO 239-2 & IFC (2006)**

- Fences, including all posts and vertical structural supports, shall meet the applicable fence height, setback and vision triangle regulations of Ch. 295.
- Security gates installed across a fire department access road shall have an approved means of emergency operation.
- Means of egress, including the exit discharge from spaces, shall be maintained in accordance with IFC Chapter 10.
- The maximum dimension of wood posts shall be 6 in. nominal. The maximum dimension of boards shall be one by 8 in. nominal. The maximum diameter of individual poles of a stockade fence shall be 3 in. nominal.
- All fences shall be constructed of approved fencing material and constructed in workman-like manner. The use of doors or plywood sheets, snow fence, pallets, chicken wire or plastic material less than 1/2 in. in thickness is prohibited.
- The supporting horizontal and vertical members of a fence shall face the interior of the lot on which the fence is erected.
- Fence material that faces the exterior of the lot must be the same grade, or better, of the material facing the interior of the lot.
- The construction of any opaque fence that is 4 ft. or more in height shall be properly anchored to a depth of not less than 30 in.
- Each fence shall be uniform in color, except that a fence painted, stained or otherwise finished in 2 colors shall be permitted. A fence may be painted, stained or otherwise finished in 3 or more colors only with the permission of the commissioner.
- An increase in height not exceeding 2 in. to allow for clearance between the fencing material and the surface below to prevent decay or corrosion is permitted.
- All fences shall be constructed to withstand a wind pressure of at least 30 pounds per square foot.

**Provide a drawing of your property with the fence locations and heights clearly marked.**

Show the location of all buildings, structures, alleys & sidewalks, property lines. Include an arrow to show which direction is North. Please note the entirety of the fence must be on your property.

When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account, or to process the payment as a check transaction. I attest that the above information accurately describes the property and the proposed work to be performed on it.

I agree to comply with all City of Milwaukee and State of Wisconsin codes applicable to the occupancy and work stated above. No asbestos project, as defined in Ch. 66 of the Milwaukee Code of Ordinances, is included in the work performed under this permit. I understand that any falsification or misinformation may result in penalties prescribed in the Milwaukee Code of Ordinances.
