Statement from Commissioner of Health Bevan K. Baker

Access to quality, affordable health services welcomed in work to improve health outcomes

MILWAUKEE – “The City of Milwaukee Health Department applauds Planned Parenthood of Wisconsin for continuing its mission to open access to care for those in need of comprehensive reproductive health services.”

“As a valued community health partner, Planned Parenthood works every day to meet the needs of patients and enhance health outcomes for people right here in Milwaukee and across the state.”

“The need for reproductive health care in Milwaukee is great. In a community where rates of sexually transmitted infections remain among the highest in the nation and where access to quality family planning services is limited – we need more doors opened for men and women to get high-quality, affordable health services.”
