**The Process:**

**Step 1** = If we receive a complaint of non-compliance, we will have a phone conversation advising what the requirements are, talk through any challenges the operator faces gaining compliance, and offer solutions. We let them know we will be spot-checking in the near future for compliance and if not in compliance, a warning letter and subsequent citation could be issued.

**Step 2** = We will do an onsite inspection after step 1 to confirm compliance. If the operator is not in compliance, the inspector will notify the operator a warning letter will be mailed stating details about what was observed and on what date.

**Step 3** = If another complaint for the same establishment is received we will follow up and check for compliance. If compliance is not witnessed, a citation shall be issued.
